**Limited warranty**

To obtain service:

1. Contact Cobra (1-800-964-3138) to obtain a Return Material Authorization (RMA)

2. Place the Product in its original shipping carton, or an equivalent carton that will adequately protect the Product against all defects in materials and workmanship.

3. Include your name, complete return address, written description of the problem with the Product, daytime telephone number, and a copy of the original receipt or proof-of-purchase.

4. Write “RETURN MATERIAL AUTHORIZATION” on the outside of the carton.

5. Send the Product, shipping charges prepaid, to the Cobra Electronics Corporation Return Center. Shipping charges must be prepaid or the RMA will not be processed. Cobra Electronics Corporation

**Returns**

To view serial number and software revision press...

**FCC ID: QL4M6. CONTAINS FCC ID:QKLBT2**

Manufactured in the Philippines. Features, specifications and prices subject to change without notice. The user shall be liable for any damage or loss caused by misuse of the Product. Cobra Electronics Corporation

**Owning the Product. Some States do not allow the exclusion or limitation of incidental or consequential damages including, but not limited to, cost of substitute products or sales, lost profits, or lost revenue. This allows Dual Pro 360 to determine if a signal is a false threat or a false one. If it determines that the area and will display the locked out alert. To unlock a particular location. A “Stored” message will appear...**
Congratulations

Dual Pro 360 Features

Windshield

Take the freedom of the road back with the Cobra protection, threat direction arrows, and intelligent GPS technology to eliminate false alerts.

Dual Pro 360, equipped with 360° high definition Brilliant graphics, Dual Pro 360 will lock out false alerts and allow you to mark adaptive cruise control.

Continued

• Access to the DEFENDER Database, which warns you of upcoming alerts received and warns you of upcoming alerts received.
• Updatable IVT Filter™ automatically reduces false alerts from moving In-Vehicle Technology sources such as collision avoidance systems and adaptive cruise control.

The real-time ticket-protection network which locks out false alerts and allows you to mark future alerts.

To clean your EZ Mag Mount, simply rinse under warm water, gently wipe off any debris and allow to dry.

EZ Mag Mount Care Instructions:

To remove mount from windshield, release locking clamp and pull tab on top of EZ Mag Mount.

To mount the detector in your vehicle:

1. Remove backing from EZ Mag Mount.
2. Firmly press EZ Mag Mount onto windshield and flip locking clamp to secure.
3. Slide the detector onto the mounting bracket until it’s fully engaged. The magnet inside holds the detector in place.
4. Ensure clear view of road ahead and sky above.
5. Avoid windshield wipers and heavily tinted areas.

Mounting Tips:

• Attach EZ Mag Mount ™ to DualPro 360 Lock Mount.
• Flip Tab Down.
• Slide the detector onto the mounting bracket until it’s fully engaged. The magnet inside holds the detector in place.
• To remove mount from windshield, release locking clamp and pull tab on top of EZ Mag Mount.
• To remove mount from windshield, release locking clamp and pull tab on top of EZ Mag Mount.
