The CB Story

The Citizens Band lies between the shortwave broadcast and 10-meter Amateur radio bands, and was established by law in 1949. The Class D two-way communications service was opened in 1959. (CB also includes a Class A citizens band and Class C remote control frequencies.)

What’s Included with Your HH 50 WX ST
1. High Efficiency Antenna
2. Removable Belt Clip
3. Wrist Strap
4. 12 Volt Cigarette Lighter Plug & Charge Adapter
5. Operating Manual

Operating Instructions for your Cobra HH 50 WX ST
Citizens Band 2-Way Handheld CB Radio

If you think you need service call 1.773.889.3087.

“If your product should require factory service please call Cobra first before sending your unit in. This will ensure the fastest turn-around time on your repair.”

You may be asked to send your unit to the Cobra Factory. It may be necessary to furnish the following in order to have the product serviced and returned.

1. For Warranty Repair include some form of proof of purchase, such as a mechanical reproduction or carbon or a sales receipt. If you send the original receipt it cannot be returned.
2. Send the entire product.
3. Enclose a description of what is happening with the unit. Include a typed or clearly print name and address of where the unit is to be returned.
4. Pack unit securely to prevent damage in transit. If possible, use the original packing material.
5. If the unit is in warranty, upon receipt of your unit it will either be repaired or exchanged depending on the model. Please allow approximately 3 to 4 weeks before contacting us for status. If the unit is out of warranty a letter will automatically be sent informing you of the repair charge or replacement charge. If you have any questions, please call 1.773.889.3087 for assistance.

Thank you for purchasing the Cobra HH 50 WX ST handheld CB. Properly used, this Cobra product will give you many years of reliable service.

**SoundTracker®**

"Cuts noise coming in...strengthens signals going out."

This technology dramatically improves transmission and reception of the CB signals.

The revolutionary SoundTracker® System reconfigures the transmission signal which allows it to be transferred more efficiently through cluttered airwaves.

At the same time, it significantly reduces the amount of static on all incoming CB signals.

The end result is a cleaner, clearer sounding reception of signals and a more powerful transmission which dramatically improves CB communications.

**Customer Support**

Should you encounter any problems with the product or not understand its many features, please refer to this owner’s manual. If, after referring to the manual, you still need help, call Cobra Customer Service at 773-889-3087.

---

**Controls and Indicators**

1. BNC Antenna Connector
2. Squelch Control
3. On/Off Volume Control
4. Removable Belt Clip
5. External Speaker Jack
6. External Microphone Jack
7. Charge LED
8. Rechargeable Battery Charge Jack
9. DC Power Jack
10. Light Key
11. Channel Up/Down Keys
12. PTT (Push To Talk) Key
13. Battery Door/Chamber
14. LCD Display Panel
15. Lock Key
16. SoundTracker® Key
17. CB/WX Weather Key and HI/LO Power Saver Key
18. Instant Channel 9 & 19 and Dual Watch Key
19. Program Key
20. Channel Scan
21. Microphone

---

**Cobra Customer Service**

Live operators are available M-F 8:00 am - 5:30 pm Central Time at 773-889-3087

Automated Technical Assistance is available 24 hours a day, seven days a week.

Features of This Product
• 40 CB Channels
• 10 Weather Channels
• Full Feature LCD Display
• Dual Channel Watch
• Full Channel Scan
• Battery Level Meter
• External Speaker/Microphone Jack
• Instant Channel 9 & 19
• High/Low Power Saver Switch
• BNC Antenna Connector
• Lock Key
• Battery Charge Jack
• Battery Charge LED

1
**Operation**

**Attach Antenna**

*Note*
To increase range as a portable, use HA-TA telescopic loaded long range antenna. (See Accessory Page 35).

1. Insert.
2. Turn clockwise. ¼ turn.

**Install the Batteries**

1. To remove battery chamber cover, press down on the arrow and slide down.
2. Install the batteries by polarity markings.
3. Replace cover.

NiMH rechargeable batteries should be charged a minimum of 12 hours with a CA-45CB charger.

**Attach the Belt Clip**

1. Slide the belt clip up on the rails of the base until tab locks.
2. To remove the belt clip, lift the tab out and slide the belt clip down.

**Battery Installation**

*Note*
Ignoring polarity markings (+/-) may cause damage to both the unit and the batteries.

The HH 50 WX ST requires 9 “AA” alkaline or NiMH batteries rated at 1000 mAh (not included with the unit).

When the batteries are low or need charging the BATTERY icon will flash on the LCD display. Replace alkaline batteries or recharge NiMH batteries. NiMH rechargeable batteries should be charged a minimum of 12 hours with a CA-45CB charger. NiMH rechargeables should have a rating of 1.2 vdc, 1000 mAh.
Turning On

**Note**
Make sure the antenna is installed on the radio.

**Note**
When you turn on the HH 50 WX ST, a series of tones will be heard and the icons will briefly appear on the LCD display.

LCD lights on for 5 seconds, then turns off.

Setting Squelch

Squelch is the “control gate” for incoming signals.

1. **Gate closed**
   - Turn the volume up louder than normal.
   - Fully clockwise closes the “gate”, allowing no incoming signals.

2. **Gate open**
   - Fully counterclockwise opens the “gate” and all signals enter.

3. To achieve the Desired Squelch Setting (DSS), turn the Squelch control counterclockwise until you hear noise. Now turn the control clockwise just until the noise stops. This is the DSS setting.

4. Gate set to Desired Squelch Setting (DSS)
**Select a Channel**

1. Turn power ON.

2. For higher channels, *push UP arrow key.*

3. For lower channels, *push DOWN arrow key.*

**Note**

For quick channel advance, push and hold arrow key(s).

**Note**

When switching from one channel to another, squelch will need to be reset. See Setting Squelch on pages 4 and 5.

**LCD Display**

All needed information is displayed on the LCD display panel.

- **Program Key Indicator**
- **Emergency Channel Indicator**
- **Weather Mode Indicator**
- **Scan Mode Indicator**
- **Dual Watch Indicator**
- **Emergency Channel Indicator**

**Display**

- **Battery Capacity Level Indicator**
- **SIGNAL**
  - Displays the strength of the incoming signal
- **POWER**
  - Displays the strength of the outgoing transmission
**Operation**

**Transmit/Receive**

*Stop*

Antenna must be installed before transmitting.

1. To transmit, *push and hold* PTT button.
   While the PTT button is depressed you cannot receive transmissions.

2. The **TRANSMISSION POWER METER** will be displayed when transmitting.
   During transmit, your outgoing transmission power is measured in watts and displayed on the power bar graph.

3. Hold the radio about 2 inches from your mouth. Speak in a normal voice.

4. Release the PTT button to receive incoming transmissions.

When you are receiving an incoming signal, the strength of that signal will be displayed on the **SIGNAL STRENGTH METER**.

**Note**

Your HH50 WX ST is always ready to receive incoming signals when the PTT button is released.
Operation

One Touch for Channel 9 and Channel 19

To gain instant access to Channels 9 (emergency) and 19 (information) from other channels:

2. Push CH 9/19 again for Channel 19.

Note
Pressing CHANNEL UP/DOWN key will exit you from this mode.

One Touch For Channel 9 and Channel 19

To return to the original channel, push CH 9/19 a third time.

All Channel Scan

To scan all 40 channels:

1. Set Desired Squelch Setting (DSS).

2. Push SCAN key. The channels will index.

3. To stop scanning, push SCAN key again.

All Channel Scan

When an incoming transmission is received the HH 50 WX ST will stop scanning. 10 seconds after the incoming signal stops, scanning will resume.

Note
To set Desired Squelch Setting (DSS) see Setting Squelch on pages 4 and 5.

Pressing the PTT key or scan key will terminate scan mode.
Dual Watch

Dual Watch allows simultaneous monitoring of two user selected channels. For example, to monitor Channel 11 and 17 for incoming transmissions:

1. Set Desired Squelch Setting (DSS).
2. Select Channel 11 with CHANNEL UP/DOWN key.
3. Push and release PROGRAM key. PROGRAM icon will be displayed.
4. Push and hold PWR SAVER/CH9/19/DW key until “beep” is heard. The DW icon will flash and the PROGRAM icon will disappear.
5. Select Channel 17 with CHANNEL UP/DOWN key.
6. Push and release PWR SAVER/CH9/19/DW key, a “beep” will be heard. The DW icon will stay on.
7. The HH 50 WX ST display will switch between the selected channels.

Note
When an incoming transmission is received the HH 50 WX ST will stop monitoring and remain on the channel. After 10 seconds the radio will continue to monitor the 2 channels.

Note
At a later time you can recall your last preset DW channels by pushing and releasing the FUNCTION key and quickly pushing and releasing the DW key.

Note
To set Desired Squelch Setting (DSS) see Setting Squelch on pages 4 and 5.
Weather Channels

10 National Weather Channels provide weather transmission reception.

Push and release the CB/WX key and the current weather channel will appear.

To change weather channels push the CHANNEL UP/DOWN arrow keys.

At times, different channels can be received. Select the one with the clearest audio quality.

Push and release the CB/WX key again.

The WX icon will disappear.

Note
The 10 National Weather Channels include 7 NOAA and 3 Canadian channels. These channels provide full coverage to keep you informed of weather conditions, 24 hours a day, 7 days a week.

For a list of weather frequencies see specifications in the Frequency Ranges section on page 32.

Note
Your HH 50 WX ST has a special auto squelch circuit for weather transmission which disables your squelch control.

Note
An agency of the U.S. Department of Commerce, NOAA operates 500 stations which reach about 90% of the U.S. population. If you cannot receive a weather station, you may not have one in your area.

If you wish to receive a listing of NOAA Weather Radio Transmitter locations, contact your nearest National Weather Service Office, or write to:
National Weather Service (Attn: W/OM11), NOAA Silver Spring, MD 20910
Power Saver (HI/LOW)

Reduces the transmit power output to 1 watt to extend the battery life.

**Note**

The low power setting cuts the transmitting range in half. The receiving range is not affected.

1. **Push and release** the PROGRAM key. PROGRAM icon will be displayed.

2. **Push and release** the CB/WX key.

   The **PWR SAVE** icon will appear and the PROGRAM icon will disappear.

3. **To exit Power Saver (HI/LOW) mode:**

   Push and release PROGRAM key.

   PROGRAM icon will be displayed.

4. **Push and release** the CB/WX PWR SAVER key.

5. PROGRAM and PWR SAVE icon will disappear.

**Note**

The battery life is increased approximately 50% while in Power Saver Mode.
Battery Capacity Level

To monitor the remaining power level of the HH 50 WX ST battery: Check the battery icon bands. The BATTERY icon will flash if the batteries are low. Replace or recharge the batteries as soon as possible.

The SoundTracker® System

While previous systems only "blanket out" or limit noise in higher sound frequencies, the revolutionary SoundTracker® System actually reduces noise while leaving the signal intact in the reception mode. In the transmission mode, it actually strengthens the signal, providing you with a significant reduction in noise on reception and transmission.

Sound clarity is measured by the ratio of the signal level to the noise level. The higher the signal-to-noise ratio, the better the sound.

How SoundTracker® Works

On Reception - “Cuts noise coming in”
With a normal CB, distant signals fall below the squelch level and are unintelligible. With a SoundTracker® CB, the noise level is cut up to 90%, which increases the signal-to-noise ratio and dramatically improves signal clarity. This also allows you to significantly reduce the squelch level, which greatly expands your listening range.

On Transmission - “Strengthens signals going out”
A SoundTracker® CB strengthens the transmit signal by more effectively using the available RF power output of the CB. The result is improved transmission signal clarity and an expanded transmission range.

Note

SoundTracker® gives you clearer, cleaner reception to improve CB communications while on the air.
Activating SoundTracker®

Note
This engages the SoundTracker® system and reduces the incoming noise level.

1. Push and release the ST key.

Testing SoundTracker®

1. Select any unused channel on your CB.

2. Fully counterclockwise opens the “gate” and all signals enter. Turn the knob clockwise until it stops.

3. Deactivate soundtrack mode by pressing the SOUNDTRACKER key.

continued
1. **Turn** the volume up louder than your normal listening level.

2. **Push and release** the ST key.
   - The SOUNDTRACKER icon will appear.
   - *Notice the significant reduction in noise.*

3. To **disengage** SoundTracker®, **push and release** the ST key again.

4. **ST icon will disappear.**

**Lighted Display**

To illuminate the display, **push and release** the light key.
- The light will remain on for about 10 seconds.

**Note**

At times you may experience different levels of noise reduction. Different terrains and environments will affect the SoundTracker® System’s performance.
**Lock Key**

**Lock Key**
The purpose is to lock the front keys to avoid accidental actuation.

1. To lock, *push and hold* the LOCK key. The LOCK icon will appear.
2. To unlock, *push and hold* the LOCK key.

*Note*
PTT, LIGHT, VOLUME, SQUELCH and LOCK functions are still operational while the LOCK function is activated.

---

**In Vehicle Use**
The HH 50 WX ST can be connected to your cigarette lighter port with the provided adapter. This power connection will also charge the batteries with the included interchangeable tip.

**Connecting to power.**

**Charging using the interchangeable tip.**

**SAFETY NOTICE**

MPE minimum distance for HH-Mini Antenna

The antenna used for this transceiver must be properly installed and maintained and must provide a separation distance of at least 12 inches (31 cm) from all persons and must not be co-located or operated in conjunction with any other antenna or transmitter. Never transmit if any person is closer than the specified distance to the antenna.

*Note*
Due to the characteristics of CB transmissions, it is necessary to use an external car roof/truck magnet mounted antenna (item # HG A1000) and a BNC S0239 adapter (item # HA-BNC) to receive optimal performance while in your vehicle. See Accessories section on page 35.

*Note*
The HH50RT Road trip model comes with a magnet mounted antenna (item #HH-Mini).
How Your CB Can Serve You

A CB Radio Can:
- Warn of traffic problems
- Provide weather and road data
- Provide help in event of an emergency
- Provide direct contact with home or office
- Assist police by reporting erratic drivers
- Get local information to find a destination
- Communicate with family and friends
- Suggest spots to eat and sleep
- Keep you alert while traveling

Weather Channel Messages
Local weather reports are provided by NOAA (National Oceanic Atmospheric Administration) 24 hours a day, 7 days a week. An agency of the U. S. Department of Commerce, NOAA operates 500 stations which reach about 90% of the U. S. population. If you cannot receive a weather station, you may not have one in your area. A similar network of 15 stations broadcasts continuous weather information across much of southern Canada.

A Few Rules You Should Know
A. Conversations cannot last more than 5 minutes with another station. A one minute break is required to let others use the channel.
B. You cannot blast others off the air by use of illegally amplified transmitters or illegally high antennas.
C. You cannot use a CB to promote illegal activities.
D. Profanity is not allowed.
E. You may not transmit music with a CB.
F. Selling of merchandise and/or services is prohibited.

Note
If you wish to receive a listing of NOAA Weather Radio Transmitter locations, contact your nearest National Weather Service Office, or write to:
National Weather Service
(Attn: W/OM11), NOAA
Silver Spring, MD 20910
For a list of weather frequencies see specifications in the Frequency Ranges section on page 32.
### Channel 9 Emergency Messages

1. **Set to channel 9 for emergencies**
   Be sure the antenna is properly connected.

2. **CB Distress Data**
   When transmitting an emergency, you should request a “REACT BASE” and provide the CB distress data (called **CLIP**):

   - **C**all **S**ign: *Identify yourself.*
   - **L**ocation: *Be exact.*
   - **I**njuries: *Number. Type. Trapped?*
   - **P**roblem: *Give details and help needed.*

Transmit **CLIP** repeatedly so any monitor can assist.

### The FCC gives these examples of permitted and prohibited messages for channel 9. These are only guidelines and not all-inclusive:

<table>
<thead>
<tr>
<th>Permitted</th>
<th>Example Message</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes</td>
<td>“Tornado sighted six miles north of town.”</td>
</tr>
<tr>
<td>No</td>
<td>“Post number 10. No tornado sighted.”</td>
</tr>
<tr>
<td>Yes</td>
<td>“Out of gas on I-95 at mile marker 211.”</td>
</tr>
<tr>
<td>No</td>
<td>“Out of gas in my driveway.”</td>
</tr>
<tr>
<td>Yes</td>
<td>“Four car accident on I-94 at Exit 11. Send police and ambulance.”</td>
</tr>
<tr>
<td>No</td>
<td>“Traffic moving smoothly on I-94.”</td>
</tr>
<tr>
<td>Yes</td>
<td>“Weather Bureau has issued thunderstorm warning. Bring sailboat into port.”</td>
</tr>
<tr>
<td>No</td>
<td>“Attention motorists. Weather Bureau advises snow tomorrow will accumulate 4 to 6 inches.”</td>
</tr>
<tr>
<td>Yes</td>
<td>“Fire in building at 539 Main, Evanston.”</td>
</tr>
<tr>
<td>No</td>
<td>“Halloween patrol number 3. All quiet.”</td>
</tr>
</tbody>
</table>
## CB 10-Codes

Citizen Bands have adopted the “10-CODES” for standard questions and answers. These codes provide quick and easy communication, especially in noisy areas. Following are some of the more common codes and meanings:

<table>
<thead>
<tr>
<th>Code</th>
<th>Meaning</th>
</tr>
</thead>
<tbody>
<tr>
<td>10-1</td>
<td>Receiving poorly</td>
</tr>
<tr>
<td>10-2</td>
<td>Receiving well</td>
</tr>
<tr>
<td>10-3</td>
<td>Stop transmitting</td>
</tr>
<tr>
<td>10-4</td>
<td>OK, message received</td>
</tr>
<tr>
<td>10-5</td>
<td>Relay message</td>
</tr>
<tr>
<td>10-6</td>
<td>Busy, stand by</td>
</tr>
<tr>
<td>10-7</td>
<td>Out of service, leaving</td>
</tr>
<tr>
<td>10-8</td>
<td>In service, subject to call</td>
</tr>
<tr>
<td>10-9</td>
<td>Repeat message</td>
</tr>
<tr>
<td>10-10</td>
<td>Transmission completed standing by</td>
</tr>
<tr>
<td>10-11</td>
<td>Talking too rapidly</td>
</tr>
<tr>
<td>10-12</td>
<td>Visitors present</td>
</tr>
<tr>
<td>10-13</td>
<td>Advise weather/roads</td>
</tr>
<tr>
<td>10-16</td>
<td>Make pick up at</td>
</tr>
<tr>
<td>10-17</td>
<td>Urgent business</td>
</tr>
<tr>
<td>10-18</td>
<td>Anything for us?</td>
</tr>
<tr>
<td>10-19</td>
<td>Return to base</td>
</tr>
<tr>
<td>10-20</td>
<td>My location is</td>
</tr>
<tr>
<td>10-21</td>
<td>Call by phone</td>
</tr>
<tr>

</tbody>
</table>
The COBRA HH 50 WX ST transceiver represents one of the most advanced AM two-way radios used as a Class D station in the Citizens Band Radio Service. This unit features advanced Phase Lock Loop (PLL) circuitry providing complete coverage of all 40 CB channels and 10 weather channels as shown below.

<table>

*Canadian weather channels are 8, 9 and 00.*
COBRA ELECTRONICS CORPORATION warrants that its COBRA CB Radios, and the component parts thereof, will be free of defects in workmanship and materials for period of two (2) years from the date of first consumer purchase. This warranty may be enforced by the first consumer purchaser, provided that the product is utilized within the U.S.A.

COBRA will, without charge, repair or replace, at its option, defective CB radios, products or component parts upon delivery to the COBRA factory Service Department, accompanied by proof of the date of first consumer purchase, such as a duplicated copy of a sales receipt.

You must pay any initial shipping charges required to ship the product for warranty service, but the return charges will be at Cobra’s expense, if the product is repaired or replaced under warranty.

Exclusions: This limited warranty does not apply; 1) to any product damaged by accident; 2) in the event of misuse or abuse of the product or as a result of unauthorized alterations or repairs; 3) if the serial number has been altered, defaced or removed; 4) if the owner of the product resides outside the U.S.A.

All implied warranties, including warranties of merchantability and fitness for a particular purpose are limited in duration to the length of this warranty. COBRA shall not be liable for any incidental, consequential or other damages; including, without limitation, damages resulting from loss of use or cost of installation.

Some states do not allow limitations on how long an implied warranty lasts and/or do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations may not apply to you.

Ear Bud Mic with PTT
Integrated speaker/mic adapter that fits in your ear. Includes shirt clip.
PMR-EBM

120 Volt A/C Wall Charger with Plug
Charges 9 NiMH battery cells in 24 hours right in the unit.
CA-45CB

Lapel Microphone
Remote microphone/speaker connection.
PMR-SM

BNC/SO239 Antenna Adapter
Allows connection of the HH 50 WX ST to standard antennas.
HA-BNC

(1) High Performance NiMH Rechargeable Battery Cell
212-001-N-001

Replacement DC Power Cord with Charge Adapter
To charge rechargeable batteries or in-vehicle use.
HH50-CIG

Replacement Belt Clip
HA-BC1

You can find these fine accessories at www.cobra.com

Order by mail or fax
Please fill out order form on next page, and mail/fax directly to Cobra.
FCC Part 15.19 Warning Statement- (Required for all Part 15 devices)

THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES. OPERATION IS SUBJECT TO THE FOLLOWING TWO CONDITIONS: (1) THIS DEVICE MAY NOT CAUSE HARMFUL INTERFERENCE, AND (2) THIS DEVICE MUST ACCEPT ANY INTERFERENCE RECEIVED, INCLUDING INTERFERENCE THAT MAY CAUSE UNDESIRED OPERATION.

FCC Part 15.21 Warning Statement-
NOTE: THE GRANTEE IS NOT RESPONSIBLE FOR ANY CHANGES OR MODIFICATIONS NOT EXPRESSLY APPROVED BY THE PARTY RESPONSIBLE FOR COMPLIANCE. SUCH MODIFICATIONS COULD VOID THE USER’S AUTHORITY TO OPERATE THE EQUIPMENT.

FCC Part 15.105(b) Warning Statement
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

IC RSS-GEN, Sec 8.4 Warning Statement
This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

IC RSS-GEN, Sec 8.3 Warning Statement
This radio transmitter, 906A-HH50WXST, has been approved by Industry Canada to operate with the antenna types listed below with the maximum permissible gain and required antenna impedance for each antenna type indicated. Antenna types not included in this list, having a gain greater than the maximum gain indicated for that type, are strictly prohibited for use with this device.
