Starting a vehicle by connecting directly to the battery:

1. For best results, make sure the JumPack is fully charged.
2. Turn off all vehicle accessories.
3. Connect the Jump Start Cable to the JumPack (the LED will turn RED).
4. Connect the RED clamp to the POSITIVE post of the battery.
5. Connect the BLACK clamp to the NEGATIVE post of the battery.
6. Check the Tricolor Status LED. When the LED is GREEN the JumPack is ready to start the vehicle.
7. Start the vehicle.

**NOTE:** If your vehicle does not start after 3 attempts, call a mechanic.

When the engine starts:
1. Disconnect the Jump Start Cable from the JumPack and the vehicle battery.
2. Leave the engine running for at least twenty minutes to allow the vehicle’s battery to recharge.

If the engine does not start:
- The LED may flash YELLOW. Wait for the LED to turn GREEN and try again starting with step 6.

Tri-Color Status LED:
The Status LED will illuminate and the color will change if the following conditions are present:

<table>
<thead>
<tr>
<th>LED Condition</th>
</tr>
</thead>
<tbody>
<tr>
<td>No LED: Connection not detected or the JumPack battery is depleted. Check the JumPack battery charge level and verify the connection of the Jump Start Cable to the JumPack.</td>
</tr>
<tr>
<td>Red FLASH: Reverse polarity connection. Re reverse the clamps.</td>
</tr>
<tr>
<td>Red FLASH and FLASH GREEN LIGHT BAR: The JumPack internal battery is nearly depleted. Charge the JumPack.</td>
</tr>
<tr>
<td>Yellow FLASH: The JumPack is transferring charge to the vehicle’s battery. Wait for the LED to turn GREEN.</td>
</tr>
<tr>
<td>Yellow SLOW FLASH: JumPack internal battery is too hot for a safe jump start attempt. Wait for the battery to cool down and the LED to turn GREEN.</td>
</tr>
<tr>
<td>Green: The JumPack is ready to help start your vehicle.</td>
</tr>
</tbody>
</table>

**NOTE:** The JumPack will make a clicking sound every 5 seconds. This is part of normal operation.

Jump Start:

1. For best results, make sure the JumPack is fully charged.
2. Turn off all vehicle accessories.
3. Disconnect the JumPack Charge Adapter Cable from the JumPack Car Charger Cable.
4. Connect the Car Charger Cable to the JumPack (the LED will turn RED).
5. Turn the ignition switch to the Accessory position.
6. Connect the plug to the 12 Volt accessory port of the vehicle (once car charging begins, the LED will flash YELLOW).
8. Wait for the LED to turn GREEN.
9. Start the vehicle.

If the engine starts:
1. Disconnect the Car Charger Cable from the 12V accessory port and from the JumPack.
2. Leave the engine running for at least twenty minutes to allow the vehicle’s battery to recharge.

**NOTE:** The car charging will take up to 15 minutes. If your vehicle does not start using the inside the vehicle method try to jump start with the direct-to-battery method.

**NOTE:** The JumPack will make a clicking sound every 5 seconds. This is part of normal operation.
