Connect Cabin Camera to the Video Input Port on the SC 200

*optional accessory sold separately.

For a View of the Road Behind You

Connect Extension Cable to the Video Input Port on the Dash Cam
Attach Rear Camera to the Vehicle’s Back Window

Warning: Please position the camera on the rear windshield so it faces out of the vehicle in the orientation shown

Say | Camera Action
---|---
“Front Video On” | Front-View camera is displayed on screen
“Rear Video On” | Rear-View camera is displayed on screen (optional accessory camera required)
“Record Video” | Begin loop-recording
“Lock Video” | If currently recording, Camera locks the video and tags as Favorite
| If not currently recording, Camera begins emergency recording, locks first video and tags as favorite
“Screen On” | Turn Display On
“Screen Off” | Turn Display Off
“Take Photo” | Takes photo of front and/or rear view and saves to “Photos” folder

Voice Commands
SC200 will respond to certain voice commands so you can stay focused on the road ahead. Try the following voice commands.

Button Functions (Recording Stopped):
Settings Button: Access the dash cam’s Settings menu.

Take a snapshot and store it in the Photo Folder.

Enter the playback menu to review previous recordings and photos.

Begin loop-recording.

Button Functions (While Recording):

When pressed the camera saves the current clip from being overwritten.

Take a snapshot and store it in the Photo Folder.

Toggle the microphone on/off. Note that the icon on the button indicates the current state while the button is pushed, not the current setting. The current setting is shown on the status bar at the top of the screen.

 Stops loop recording. While in an Emergency Recording you will be asked to confirm.

For Cabin View*
Connect Cabin Camera to the Video Input Port on the SC 250

* optional accessory sold separately.
