To scan channels, press the Mode/Power button until the Scan icon is flashing “ON.”

To turn VOX on or off:
1. Press the Mode/Power button until the VOX icon flashes on the display. The current DCS Frequency.
2. Press the Scan Up/Down button to turn VOX OFF or ON. Change the setting of the following:
   a. DCS Privacy Codes: Press the Mode/Power button to enter the new setting and proceed to other functions.
   b. Press the Lock button to return to Standby mode.

To set VOX sensitivity:
1. Press the Mode/Power button until the VOX icon flashes and the current sensitivity level is displayed.
2. Press the Scan Up/Down button to change the setting.
3. Press the Lock button to return to Standby mode.

### Channel Scan
Your microTALK® radio can automatically scan channels.

1. Press the Mode/Power button until the Scan icon appears on the display.
2. Press the Scan Up/Down button to begin scanning channels.

Your radio will scan all channels and stop if an incoming transmission is detected. If no transmission is detected, your radio will remain on that channel for 10 seconds.

### VOX Operation
Voice Activated Transmitter (VOX)
In VOX mode, your microTALK® radio can be used “hands-free,” automatically transmitting when you speak. You can set the VOX sensitivity level to fit the volume of your voice and avoid transmissions triggered by background noise.

### General Specifications & Licenses

#### FRS/GMRS Frequency Allocation and Compatibility

- **Important:** Please refer to FRS/GMRS models with 15 Channels to designate different frequency bands for the same frequency. For example, a Cobra 15 Channel GMRS model would need to be set to Channel 11 to communicate with a 12 Channel GMRS model.

#### Frequency and Channel Numbers

- **DCS Privacy Codes:**
  - DCS Privacy Codes in use can be set within one channel. Only one set of privacy codes, DCS 01 through 83, can be used at a time.
  - To set DCS privacy codes:
    1. Press the Mode/Power button until the Scan icon appears and the current sensitivity level flashes on the display.
    2. Press the Scan Up/Down button to select a DCS privacy code. You can hold the Up or Down button for fast advance.
    3. Press the Lock button to return to Standby mode.

#### Five Call Tone Settings

The call channel between two different Call Tone Settings is stressed to a call start.

- **Voice Enhancement Tone:**
  - A: DCS Privacy Codes: 462.7250
  - B: DCS Privacy Codes: 462.7000
  - C: DCS Privacy Codes: 462.6750
  - D: DCS Privacy Codes: 462.6500
  - E: DCS Privacy Codes: 462.6250

#### Key Points

- **CTCSS Privacy Codes:**
  - By selecting a channel, press the Mode/Power button until the CTCSS icon appears and the current sensitivity level is displayed.
  - If CTCSS is turned on at the channel selected, the display will flash “LC” and “DCS.”
  - To select a CTCSS privacy code, press the CTCSS or Scan button until the display is flashing “LC.”
  - The display will then show the small numbers flashing and you will be able to proceed to step 2.
  - To scan privacy codes, press the Scan button to return to the standby.
  - To select a CTCSS privacy code:
    1. Press the Mode/Power button until the CTCSS icon appears and the current sensitivity level is displayed.
  - Press the Lock button to enter the new setting and proceed to other functions.

#### Mode Functions

**Scrolling Through the Mode Function**
By scrolling through the mode functions, you will be able to select or turn on/off preferred features of your microTALK® radio. When scrolling through the mode functions, your radio functions will be displayed in the same predetermined order.

- **Set CTCSS Privacy Codes**
  - Press the Mode/Power button to enter the new setting and proceed to other functions.
  - Press the Lock button to return to Standby mode.

#### Channels 1 through 5

- **FRS/GMRS Frequencies:**
  - Channels 1 through 5 are designated for FRS/GMRS use.
  - The current channel is indicated by the icon and the channel numbers appear in the appropriate field.

**Standby Mode**
In Standby mode, press the Mode/Power button to return to the standby.

#### Privacy Codes

Your microTALK® radio can automatically scan channels.

- **Privacy Codes:**
  - DCS Privacy Codes
  - Intermec Electronics Corporation

### Warranty & Trademark Acknowledgment

#### Limited One-Year Warranty
All Cobra manufactured and licensed products are warranted to the original retail consumer purchaser against defects in material and workmanship for a period of one year from the date of first consumer purchase. This warranty may be enforced by the first consumer purchaser, and is not transferable. If the product is under warranty, it will be repaired or replaced, at our option, free of charge. If the product is not under warranty, we will offer to repair the product, at our option, for a reasonable charge.

#### FCC License Required
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

#### Trademark Acknowledgment

- **microTALK®:** Trademark of Intermec Electronics Corporation.
- **FRS/GMRS:** Frequency Modulated Radio Service/General Mobile Radio Service.
