

2,000+% PAYBACK FOR PROPERTY MANAGEMENT COMPANY IN CHICAGO

COMPANY

A large property management organization responsible for overseeing 40 buildings in the Greater Chicago Area installed Flowie water sensors installed on 31 of its properties.

RESULT

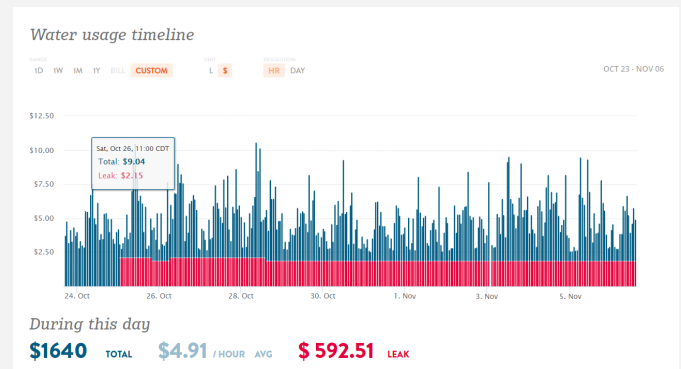

Forty-eight percent of the properties had an average leak of \$5,900 with a total savings opportunity of \$75K.

At one 25-unit multi-family residential building, Flowie identified water cost savings of \$17,615/yr with a 2,463% payback.

“The leak alerts and water use analytics from Flowie continue to help us better manage costs at our buildings.”
