

# ENERGY CONSULTANCY HELPS NEW OFFICE BUILDING SAVE \$3,780 WITH FLOWIE

## COMPANY

Envari Energy Solutions helps large commercial, industrial, municipal and utility clients manage and reduce their energy consumption and costs.

## RESULT

Envari recommended the Flowie water flow sensor to a property management client. It was installed at a newly built office building - as a result, the Flowie water flow sensor identified a cost savings of \$3,780 a year.

*“The Flowie water flow sensor is a natural addition to any project where customers are looking to monitor their water consumption, allowing them to identify problem areas and increase savings with 24/7 monitoring.”*

- Glenn Mooney  
Manager, Energy Services  
Envari

## ESTIMATED ANNUAL COST SAVINGS

**\$3,780**

This 10-floor 140,000 sq. ft. office building is monitored 24/7 for leaks and floods by Alert Labs sensors and Insights Platform

## COST SAVINGS IDENTIFIED BY ALERT LABS INSIGHTS PLATFORM

The Alert Labs insights platform calculates projected savings based on current rate of leak per minute.

## PAYBACK

**529%**
