

# REIT SAVES \$43,000/YR AT MULTI-FAMILY RESIDENTIAL BUILDING

## COMPANY

An award-winning apartment REIT that manages over 300 multi-family residential buildings from coast to coast deployed Alert Labs sensors at all apartment buildings in their portfolio.

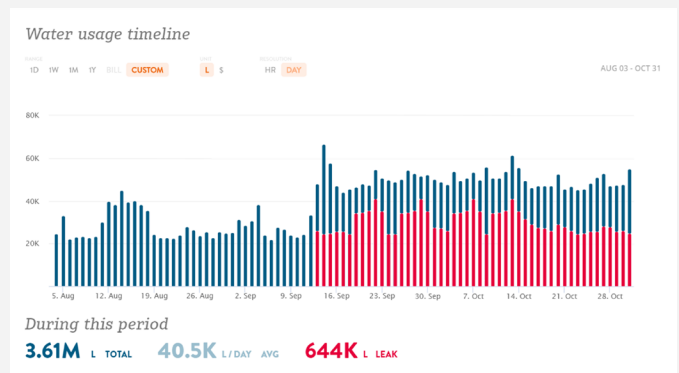

## RESULT

In addition to detecting leaks at 23% of properties, Flowie has saved an estimated \$43,000 a year in wasted water costs at a 67-unit multi-family residential building.

*“Flowie has identified significant cost saving opportunities at our multi-family residential buildings.*

CEO and Founder of the apartment REIT

## INSIGHTS PLATFORM USES ADVANCED LEAK DETECTION TECHNOLOGY TO IDENTIFY SAVINGS OPPORTUNITIES

The red area indicates the size and duration of the leak which would cost \$43,000 a year if left untreated

## ESTIMATED ANNUAL COST SAVINGS

**\$43,000**

## PAYBACK

**6,014 %**
