HCL+2

Turn the heat down on heartburn and poor digestion*

LOW, not HIGH levels of stomach acid (HCl) are often an underlying cause of digestive discomfort including heartburn, acid reflux and GERD.**

Supplementing with HCl may help:

- ✓ Alleviate indigestion, acid reflux, gas, belching, bloating, constipation and diarrhea*
- ✓ Act as a first line of defense against harmful bacteria, yeast, parasites and other pathogens in the GI tract*
- ✓ Break down and metabolize protein and minerals, such as calcium and iron*
- ✓ Neutralize by-products of drugs and toxins*
- ✓ Eliminate the cause of body odor, gas, bad breath, and offensive urine and stool odors*

"When I take HCL+2,
I have no indigestion,
no bloating and no gas!"†

Our HCL+2 supplement contains:

- HCL to soothe digestive discomfort*
- Pepsin and ox bile for healthy digestion of protein and fat*
- Acid-based minerals calcium, magnesium and iron*

Usage: Adults take one to two (1-2) caplets three times daily, during or immediately following a meal or as directed by a health care professional. Store tightly closed in a cool, dry place.

180 Caplets / 30-Day Supply

**This product may be contraindicated for those with a hiatal hernia, esophageal irritation or thin stomach lining.

“HCL+2 is a necessity and I always like to make sure I have it in stock in my house!”[†]

-D.C.

Success Stories / HCL+2

“I was always bloated, burping and had indigestion after every meal. I tried different ways to stop this, from smaller meals to what foods I ate, but nothing worked. After trying HCL+2 four months ago, I can now eat what I want without suffering for it later. My family sees a lot more of me now that I don’t have to lie down after every meal to relieve digestion.”[†]

-Sandy

“Before taking HCL+2 I was bloated, had irregular bowel movements, was tired all the time and felt bad. I tried other products that did not work for me. Then I purchased UNI KEY’s HCL+2. I have been using this for about one month and I can’t believe it—my stomach is flat! I am having regular bowel movements and I have more energy so I’m not tired. I am very satisfied with this product.”[†]

-Mary

“Before taking HCL+2 I tried over-the-counter products. It was awful and I did not want to go that route again. Since taking HCL+2, it has completely relieved my acid reflux. I take at least one caplet with every meal. If I have an occasional problem I will start taking two every two hours and that handles it. I am so thankful for this product.”[†]

-Angelica

“I started taking HCL+2 to help with the full feeling after I ate protein. Sometimes I’d even have some burning too. It really helped with that but what I didn’t expect was that I started having more energy. I know that by having protein and digesting it, the speed of your metabolism can improve. I’m sure this is what happened to me. I’m thrilled.”[†]

-Eliza

“I receive the UNI KEY blog emails and read something about heartburn and HCL+2. I was in so much pain with my heartburn, and living in the area, I actually drove to the UNI KEY office and bought some! I couldn’t sleep and the heartburn was way up in my throat so I could barely swallow and eating was very difficult. I took two on the way home and was surprised that it doused the fire almost immediately. So I began to take them regularly and my heartburn only flares up once in a while. I recommend this product to everyone. I feel like it is a miracle in a bottle. This stuff works better than Tums, Pepcid or any other medicine I have tried and it is natural! Get yourself some, don’t suffer like I did.”

-Robin

Supplement Facts

Serving Size: 2 Caplets
Servings Per Bottle: 90

Amount per Serving		% DV
Calcium (as dicalcium phosphate)	35 mg	4%
