GO GREEN

Americans use **2,500,000**
 plastic bottles **every hour.**

Most of them are
thrown away.

- Avoid wasting water
- Stop overfilling landfills
- Drink pure, quality water

Safe Water You Can Trust

Utilizing the finest filtration materials, CWR Crown Ultra-ceramic Filters provide the ultimate in water protection. Constructed of ultrafine ceramic with a filtration efficiency down to 0.9 micron and lead-removing filter media, this filter purifies your tap water for the removal of incoming contaminants including parasites, chlorine, chloramines, heavy metals, cloudiness and sediment. The ceramic filter also inhibits the growth of bacteria and is uniquely cleanable.

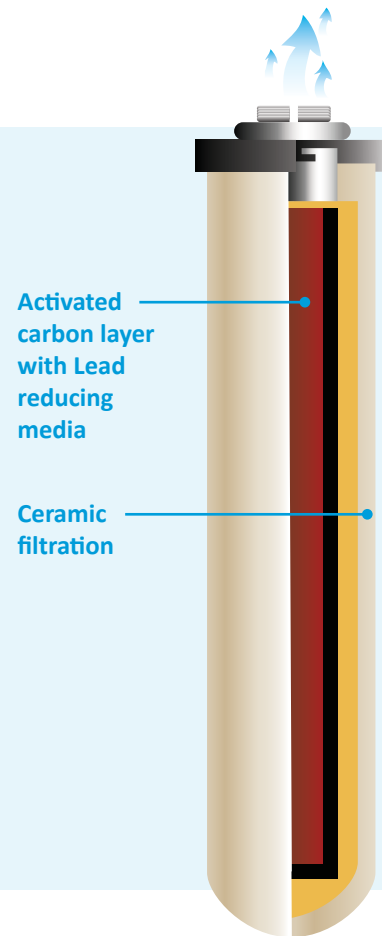

KEY FEATURES:

- Ultrafine ceramic filtration
- Sub-micron particulate filtration >0.9 micron
- Reduced turbidity and improved taste
- Easy cleaning and installation
- Affordable replacement filters
- Durable housing for long-term use
- Ceramic filter element meets NSF standard 42

NEW & IMPROVED!
 Chloramines, a combination of chlorine and ammonia, are now being added to municipal water. Our new filters remove greater than 95% of chloramines!

Schedule a free consultation with a water quality expert. Call to make an appointment (800) 888-4353.

Multi-Stage Ceramic Filtration Removes:

- Parasites:** 99.9% of *Giardia* and *Cryptosporidium*
- Dirt/Rust/Sediment:** 99.9% of particles greater than 0.9 micron.
- Chemicals:** greater than 99.7% of Chlorine, greater than 95% of Chloramines, Chloroform, and byproducts such as Trihalomethanes (THMs).
- Heavy Metal:** 98% of Lead (heavy metal removing upgrade available).
- Turbidity:** 98% of cloudiness.

Ceramic Filtration At the Tap

Basic Countertop
 #6001 \$199
 #6007-C Replacement \$95

Under Counter
 #6006 \$199
 #6007-C Replacement \$95

Stainless Steel Under Counter
 #6002 \$349
 #6003-C Replacement \$85

Extend the Life of Your Filter

Filters should be replaced every 6-12 months depending on water quality. When the flow rate slows due to trapped particles, it's time to clean the filter. This extends the life of the filter up to a year and reduces cost and inconvenience in the long term.

Easy to Install

All filters include hook-up accessories and complete installation instructions. Countertop, Shower, and Bathtub filters can be self-installed. Under Counter filters require installation by a plumber.

The Ultimate Whole House Water Filtration System

CWR Crown Whole House Systems start as low as \$699 for a house or condominium up to 2,000 square feet. Water softening available as an add-on.

Call (800) 888-4353 for more information.
