

# gulpz™

*pill at will!*™

## PILL HIDING PROBIOTIC TREAT FOR DOGS

Gulpz™ are a convenient way to help give your pet medications while also providing a healthy probiotic supplement and a tasty treat all-in-one! The unique Pill Matrix™ technology of Gulpz was veterinary developed to adequately hold and conceal pills, making giving your dog its medications a breeze.

### Why choose Gulpz?

Because giving medications may cause stomach upset, Gulpz are formulated with all-natural Ginger Root and Lactospore®, a patented probiotic to support gastric health. Gulpz also includes Omega fatty acids, Vitamins, and Antioxidants to promote recovery and immune support. All of this comes in an irresistible hickory chicken flavor that your dog is sure to **gulp** down, making it easier than ever to **pill at will!**™

### Directions for Use

- Insert your pet's medication completely into the inner cavity (for larger pills, use two Gulpz to form around both halves of the pill)
- Using your fingers, close and pinch both ends to hide the pill completely
- Give to your pet as a tasty treat
- Can also be used without medications as a tasty daily probiotic, digestive, & immune supplement

### GULPZ™ KEY FEATURES

- 500 million CFUs Lactospore probiotics & Ginger for gut health
- Pill Matrix™ Technology to easily hide pills
- Omega fatty acids & Antioxidants to promote recovery
- Great tasting hickory chicken flavor
- Veterinarian formulated & recommended
- Made in the USA
- 100% satisfaction guarantee
