COMPREHENSIVE SUPPORT FOR SENIOR DOGS & CATS

Seniorbliss™ line of supplements and shampoos are veterinarian-formulated to support pets throughout their senior years. Each Seniorbliss product uses unique ingredients to support older pets' daily activity, comfort, and overall quality of life. Seniorbliss supplements provide a tasty way to help maintain senior dog's mobility, immune system, GI function, and more. Our shampoos work to support older pets with age-related skin and coat conditions, allergies, and dermatological infections.

 Recommended for Senior Dogs & Cats Age 7 & Up

Senior Health Supplements for Dogs

Seniorbliss soft chews provide a tasty way to support the primary health needs of senior dogs. Our line of supplements includes 4 different products, each uniquely designed with a specific health need of older pets in mind. Powerful ingredients within the soft chew formulas help maintain the health of key areas of senior pet health including mobility, digestion, cognition, skin & coat, immune system, and organ and eye functioning.

- Glucosamine, Chondroitin, and MSM to help maintain healthy cartilage & joint tissue
- Lactospore® Probiotics to help support intestinal and immune health
- Astaxanthin, a powerful antioxidant, to help maintain joint, skin, & heart health, & support normal inflammatory and immune response
- Collagen to promote flexibility in the skin and connective tissues
