

Ecoline Push T

REMIglas Ecoline Push T is a modular glass cover for fully-glazed, double-width freezer islands.

The cover is designed for islands with a width of 1.8 m to 2.0 m (6 – 6.5 ft.) and a grid length of 625 mm (2 ft.).

The Push glass covers are curved and move from front to back. Customers are able to shop both sides of the island and not interfere with one another. End caps are covered with ecoline push (only flat glass).

Handrail Profiles

The handrail profiles completely cover the entire edge of the unit.

1. Plastic profile one-piece

- Height: 65 mm (2.6 in.) without lighting
- Height: 100 mm (3.9 in.) with or without lighting

2. Aluminum profile 2-piece

Height: 100 mm (3.9 in.) with or without lighting

- Length of upper section: Unit length
- Length of lower section: Lamp length

Lighting

External handrail illumination, side wall illumination is available as an addition option

Available lighting:

LED

- 24V lamps that can be arranged next to each other, with external converter
- Other lighting options are available upon request.

Pricebars

Available upon request.
