## REMINDERS:

- ⌚ Take caution when placing your laptop in Two-Tier. Make sure Two-Tier is at the appropriate angle for your laptop so it does not fall backwards or forwards.
- ⌚ Do not remove rubber stoppers while placed on a flat surface. The rubber stoppers keep Two-Tier from sliding and potentially falling.
- ⌚ Use Two-Tier on a firm table or desktop. Ensure that the table is not easily shaken or bumped, as this can cause Two-Tier to fall.
- ⌚ Use caution when pairing with a DeskView. Always ensure the DeskView is properly installed and has remained so for at least 24 hours prior to pairing Two-Tier.
