Differential Diagnosis & Treatment of Lower Extremity Edemas (3 CE hrs, On-line)

COURSE OUTLINE
I. Anatomy, Physiology & Pathophysiology of Arteries, Veins, & Lymphatics
II. Ankle Brachial Index
III. Differential Diagnosis Common Lower Extremity Edemas
   A. Chronic Venous Insufficiency (CVI)
   B. Deep Vein Thrombosis (DVT)
   C. Lymphedema
   D. Malignant Lymphedema
   E. Phlebolymphedema
   F. Lipedema
   G. Lipolympthedema
   H. Congestive Heart Failure
   I. Renal Insufficiency/Failure
   J. Dependent Edema
IV. Complete Decongestive Physiotherapy
V. Compression Garments
