

# Third Wave Water

## Specialty Water to Brew

### COFFEE & TEA

As seen on

# SHARKTANK

**Full flavor for your coffee AND protection for your coffee maker!**

## The jury is in

**Stop flattening your coffee**

- Filters do not work
- Bottled water is ?
- ...no good options

**Now the option is clear...**

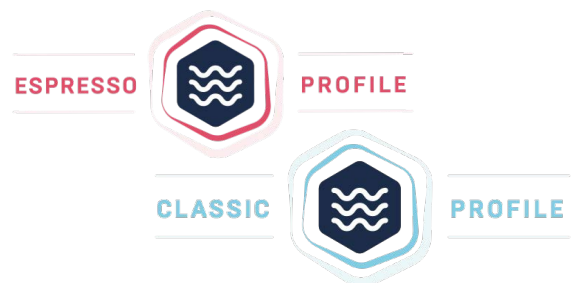

**Taste why competitors all over the world are winning big with Third Wave Water**

Unique formula using three minerals  
Meets SCA requirements for competition

- Magnesium Sulfate
- Calcium Citrate
- Sodium Chloride

Two Profiles:

- The Espresso Profile for Espresso machines
- The Classic Profile for everything else

Easy to use!

1. Add one packet to 4 liters (1 gallon) of distilled water
2. Shake briefly
3. Use the water to brew your coffee or tea!
