*Where your inner warrior meets your outer goddess*

The San Francisco Bay Area and the Hollywood chapters of FitNFabs bring together a fantastic group of women and men who actively participate and contribute in the beauty, fitness and wellness industries. We believe in the collective power of women as entrepreneurs, influencers, and consumers. We meet often throughout the year for workshops and seminars that teach us the latest trends and techniques in business development, marketing, technology, social media and personal growth.

Our members are business owners offering products and services that enhance the professional, physical, emotional and spiritual well-being of women. Our members are resources for each other as role models, mentors, coaches and sponsors. We demonstrate compassion by fundraising and supporting nonprofits that serve children, women and the disadvantaged in our local community.

Does our mission of creating limitless mindsets in women resonate with you? We invite you to consider a membership with FitNFabs today!

## FitNFabs PROMISE
