

July 2, 2008

Bruce Satchwell
CEO
Alive Technologies

Dear Bruce,

RE: CONGRATULATIONS –AUSTRALIA PRODUCT INNOVATION AWARD IN REMOTE PATIENT MONITORING SYSTEMS

On behalf of Frost & Sullivan, we are pleased to announce that **Alive Technologies** has been awarded the **2008 Australia Frost & Sullivan Product Innovation Award in Remote Patient Monitoring Systems**.

To choose a recipient of this Award, the analyst team tracks all new product launches, R&D spending, products in development, and new product features and modifications. This is accomplished through interviews with all the market participants, and extensive secondary and technology research. All new product launches and new products in development in each company are compared and evaluated based on the degree of innovation and customer satisfaction. Companies are then ranked by the number of new product launches and new products in development.

With its unique presence in the telemedicine domain, especially for the Australian region, and with the capability of these user-friendly systems to measure multiple parameters (different application areas), Alive Monitoring Systems will have an immense impact on the industry. In recognition of the novel technical capabilities, Frost & Sullivan presents the 2008 Product Innovation Award to Alive Monitoring Systems.

Wishing you every success in 2008. We look forward to working closely with you in the future.

Thank you.

Sincerely,

Rajiv Kumar
Partner and Senior Vice President
Frost & Sullivan
