

## Ultrasound Exam Step – Standard

The unique design of the *Ultrasound Exam Step* permits efficient and accurate exams of the upper and lower leg during venous insufficiency studies.

For the sonographer's comfort, the standing patient is placed in the optimal position for easy, and ergonomically sound, capture of the highest quality images.

- *Designed for patients weighing up to 450 lbs / 204 kg*
- *Tip-N-Tow – Easily portable with built-in rollers and grab bars*
- *Easy to keep clean, the platform is made from germ-resistant, non-porous polyethylene, and stainless steel*
