

Crypto-868-Omni-6dBi-100cm

868mzh Omni Antenna Specification

The Cryptenna is an 868MHz/Lora high gain outdoor omni antenna ideally suited to improve coverage for crypto mining and helium mining applications. Should be used with our low loss CLF400 cable for best results.

(I) Product Overview

Frequency (MHz) : 868

VSWR \leq 1.5

Gain (dBi) : 6

Max Input power (W) : 60

Input Impedance (Ω) : 50

Polarization : Linear Vertical

Size (mm) : 1000* Φ 20

Connector : N plug (male)

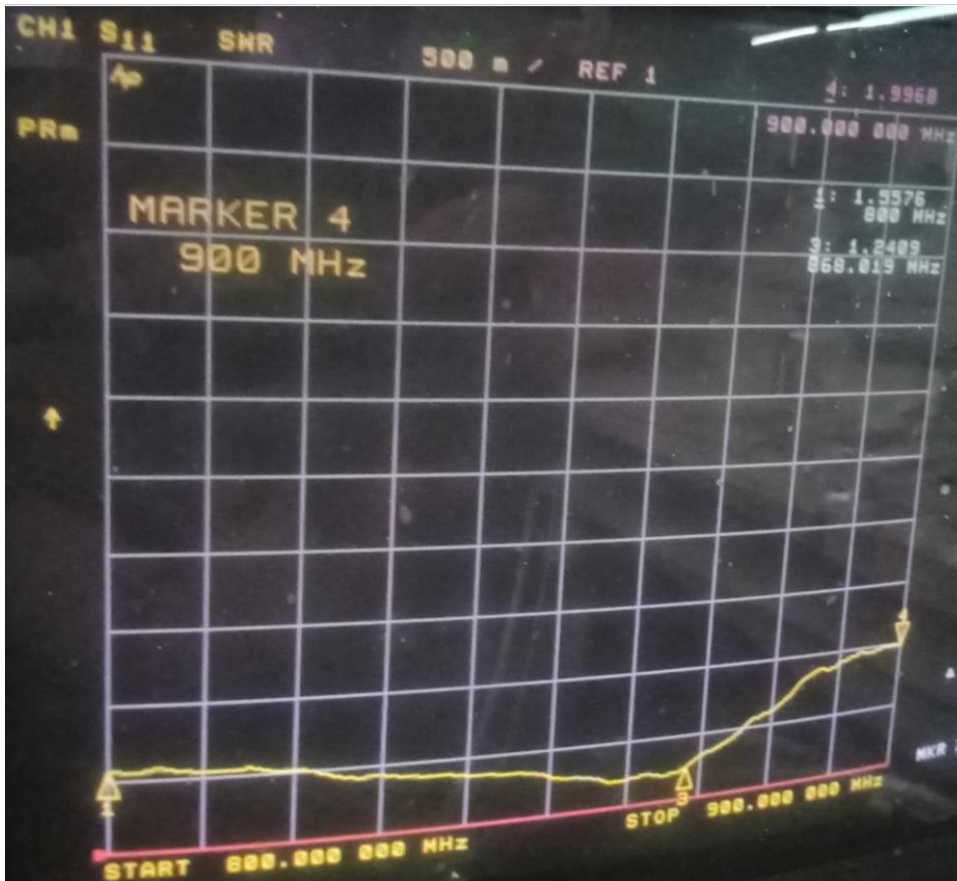

Mounting : wall bracket (U bracket)

Housing : white

Storage Temperature : -45°C to+75°C

Operating Temperature : -45°C to+75°C

(II) Characteristic curve

(III) RADIATION PATTERN
