

WL-210LF-D

LTE 4G Wifi Router with I/O, dual SIM and remote management for all networks

Product Features

- Industrial design with LTE/3G/2G Module
- Strong electromagnetic interference resistance
- LED status indication
- Networking protocols: VPN, PPTN, L2TP, GRE
- Information Protocols: TCP/IP, PPP, Telnet, SSH, HTTP
- WAN Port Extended Feature: Virtual RS232 (available on request)/RS485 server or client
- Local and remote management
- 2.4GHz 150Mbps 802.11 b/g/n Wi-Fi
- Heat Endurance and radiation ability
- External antenna's, 1x Wi-Fi, 2x GSM
- Networking tools: LCP/ICMP/Heartbeat check
- WAN profiles: PPPoE, Static IP, DHCP Client
- Web/CLI/SSH management platforms
- DHCP, DDNS, SNMP and NTP support

Typical Application
