

#### Step 1

---

Clean the surface where you would like to apply the sticker with a warm damp cloth or sponge and allow this to completely dry. When applying to a painted wall, please make sure the wall has been primed beforehand and is completely dry. Drying time for fresh paint can take as long as 6 weeks. DO NOT apply to oil-based paints. Do not stick over flaky wall paint and avoid installing on humid or textured walls.

#### Step 4

---

As you line up the top of the left column with the pencil mark on the wall, get your friend to hold the bottom of the sticker so that it doesn't stick to the wall while you're trying to align it. Once you've found the correct position, use your hands to slowly smooth it outwards until it's flat against the wall.

#### To remove:

Carefully lift a corner and whilst folding the sticker back on itself, slowly peel off. Our wall stickers shouldn't damage your wall, but it's important to be careful when removing it in case the wall has been poorly prepared before painting. If you are concerned, or if the wall offers resistance, heat with a hair dryer while removing.

#### Key Features:

100% PVC FREE, polyester fabric stickers, printed using Greenguard Gold Certified ink

#### Step 2

---

We recommend getting help from a friend when applying large stickers.

Before removing the backing paper, hold the left-hand column against the wall. Get a friend to use a spirit level and put a pencil mark on the wall at the very top of the column. (Please note that some floors aren't always level so you may need to take that into consideration.)

#### Step 5

---

Now that the left column is in position, repeat steps 3 and 4 for the middle and right-hand sections. Add the smaller chord stickers at the end.

#### Step 3

---

Lay the left column flat on the floor (with the image facing up) and get your friend to hold the backing paper down while you peel off the sticker.

Hold it from the top, high enough so that the sticker doesn't touch the floor or fold in on itself.

#### Extra tips

---

To smooth out bubbles or creases, lift the sticker, gently stretch out the crease, then reapply. If the material sticks to itself, gently pull both sides apart.

Keep the backing paper for any future relocation.

#### Warning!

**CHOKING HAZARD** – *This product contains small parts and is therefore not suitable for children under 3 years old. Sian Zeng stickers are not toys and should only be used for decoration.*
