Cardi B's Makeup Artist Reveals the Rapper's Regimen – and Under \$10 Products!

Cardi B has had her slew of public appearances, and although the chart-topping rapper loves to experiment with her hair looks, the makeup is more on the consistent side: big lashes, nude lips and contour. And if fans wanted to achieve the “Bodak Yellow” artist’s look, her makeup artist Erika La’ Pearl says that it’s not only accomplishable but affordable. “I’m glad we changed her look over the years,” La’ Pearl told Refinery 29. “Before, she could look a little clownish. Now, I think she looks a lot more polished and put together.”

Contouring on the nose is a must for the Grammy-nominated rapper, who uses the Anastasia Beverly Hills Contour Kit in Medium/Tan for sculpting and Black Opal True Color Skin Perfecting Stick Foundation in Beautiful Bronze on face and nose.
