Cardi B swears by a \$10 drugstore foundation to keep her skin looking natural and flawless

Cardi B's makeup has been looking seriously flawless lately. Pristine skin, impeccable contour, dramatic eyes, elegant nude lips — I'd just assume that her makeup artist relies on the fanciest beauty products to get the **rapper/uncensored angel red carpet-ready**. After all, if anyone can afford the highest-end cosmetics for public appearances, it's celebrities, right? Obviously, Cardi B can afford the pricier stuff, but that doesn't mean she necessarily relies on it.

- **Cardi B's** makeup artist revealed some of the rapper's go-to **beauty** products.
- She's a big fan of the Milani Conceal + Perfect 2-in-1 Foundation + Concealer, which retails for \$9.99.
- She also uses other affordable **makeup** by Rimmel, BH Cosmetics, and Black Opal.

La' Pearl says Cardi likes her nose "really contoured," and she uses **Black Opal True Color Skin Perfecting Stick Foundation** in Beautiful Bronze to do it. And whether she's doing a nude lip or super-shimmery one, they look to Nyx products — specifically **Slim Lip Pencil** in Nutmeg and **Face & Body Glitter**.
