Best Volumizing Mascara No. 13: BLK/OPL Color Splurge Waterproof Mascara, \$8.95

It's rare that I find myself reaching for waterproof mascara. While the idea of a lash-boosting product that lasts all day, through blood, sweat and tears, sounds lovely, the process of trying to remove it balances out the benefits, making them less desirable, in my opinion.

Then I discovered this waterproof mascara from Black Opal. I was first drawn to the minimalist design that I knew would look perfect in my next #shelfie. The thin tube contains a splash-proof mascara that wraps and seals each and every lash with a single stroke. This waterproof mascara pumps up the color, volumizes, lengthens and sets lashes in place all day long. But, once all-day becomes end-of-day, it's easily removed with a quick swipe of micellar water. And, that makes it a winner in my little black book of best volumizing mascaras.
