Delaney wanted to keep the star's eye look "fresh and modern" so she chose the **Black Opal Splurge Eye Satin Matte in Crème Brûlée**. "I used the lighter shade as a base to buff the eyelid and blended the darker shade into the crease for a sculpted finish," Delaney told Us. Then for added definition, Delaney smudged out **Black Opal Splurge Precision Lip Liner** at the base of the *Bring It On: All or Nothing* star's lashes.

Lastly, To give Knowles her glossy yet long-wearing lip, Delaney applied **Black Opal Waterproof Gel Lip** and then blended it with lip balm. The result? A polished, yet naturally radiant look that totally slayed — and stayed put all night.
