**Denisa Piatti is a Washington, DC-based jewelry artist and designer who founded her eponymous brand in 2015. Her collections have ranged from bold, sculptural, contemporary art jewelry to refined pieces, but her purpose has always remained the same: to encourage you to question what precious really means. Denisa does this through three core tenants - combining precious metals with common materials, preserving traditional jewelry-making techniques, and handcrafted always.**

HOOPS**

Acrylic | Sterling Silver

**PRESERVING TRADITION.** Every piece tells a story of tradition and dedication to craft. The vision behind the collections is to cultivate curiosity about the time, the process, and the tools behind traditional jewelry making. The belief that these elements are perhaps what make jewelry truly precious.
