Complete Raw Pet Blend

made by Northstar Bison

Here at Northstar, our “north star” is what we refer to as “As Nature Intended”... That philosophy or perspective filters our every decision, and our pet foods are no exception. We've developed a raw blend recipe that mimics a kill in the wild; proportionate amounts of muscle, bone, & a variety of organs and glands. In the raw pet feeding world, this style of feeding is referred to as the Prey Model Raw (PMR).

Also widely accepted is a feeding program called Biologically Appropriate Raw Foods (BARF) which includes fruits, nuts, eggs, and vegetables. Our pet blends are a fantastic base for the BARF program as well and one can simply add the desired ingredients you wish to feed to be consistent with BARF.

As it is with humans, so it is with pets... You are what you eat. If your pet is eating anything but what nature intended, as nature intended it to be, they'll experience health complications earlier in life, more frequently, and more severe. Feed your pup or kitty well and they'll be happy & healthy for a long time.

See back side for a general raw feeding chart based on adult weight. If you're interested in learning more about the fascinating world of raw feeding or the intricacies of raw puppy feeding, please visit the Perfectly Rawsome website perfectlyrawsome.com, the authority in all aspects of raw feeding.
