

# stasher

save what matters™

It's not just a storage bag, it's a movement. And now you're a part of it.

Stasher bags were created to eliminate the need for single-use plastics. Each bag purchased helps support high-impact nonprofits working to protect the planet.

We can't do it without you.

Made of pure platinum silicone, Stasher is both hypoallergenic and BPA and BPS free, so it's safe for people and the planet. It complies with FDA and European food-grade standards and does not contain any fillers or byproducts.

**durable + reusable**

Temperature and water-resistant to protect freshness.

**microwave safe**

Cook or defrost safely with seal open to vent.

**sous vide ready**

Lock in stovetop flavor, just seal tight before boiling.

**dishwasher safe**

Hand or machine wash. Protect seams by not flipping inside out.

**fridge friendly**

Chill or freeze leftovers and meal prep easily.

**oven strong**

Place on oven-safe tray with seal open, up to 400°F.
