DIRECT DRYERS™

Pro Boxing Glove Dryers

## Product Factsheet

### Williams Pro Box 9

*Wall Mount Dries 9 Pair of Gloves*

- **Safe and Efficient Drying**

Direct Drying focuses a stream of air to the most difficult area of the glove to dry. The Palm Expanders enhance air circulation and moisture is removed as the air leaves the glove. The warmed air is delivered at a safe temperature to protect sensitive fabrics and prolong equipment life.

- **Proven Health Benefits**

Williams Direct Drying has been proven under laboratory conditions to efficiently eliminate harmful pathogens in personal protective equipment.\*

- **Controls Locker Room Odor**

Continuously dried personal protective equipment eliminates the bacteria associated with locker room odour.

- **Built in Energy Management**

Depending on your drying requirements, air is either delivered at 10-15°F (6-8°C) above room temperature or at room temperature for more economical operation.

Williams Direct Dryers designs, manufactures and distributes specialized dryers. Every product is built by us to exacting design and fabrication standards specifically for the item to be dried. With over 28 years in the business, Williams is a name you can trust.

### Specifications

12" wide x 17" deep x 81" high (300 x 430 x 2060)

110V 10A; 220V 5A

Heavy duty welded steel construction - powder coated

CSA; CE

\* Report available upon request
