*The program is offered to customers who meet the minimum average monthly purchase levels. Bulk fluid, tools, equipment, paint and body supplies and special order items do not qualify toward achieving minimum average monthly purchase level.

- Customers who meet the average monthly purchase level of \$2000 will receive 100% of their posted labour rate.
- Customers who do not meet the average monthly purchase level of \$2000 will receive 50% of their posted labour rate. Conditions: These warranties are subject to change without notice.

*Labour warranty coverage is for a period of 1 year from date of installation. Valid labour warranty claims will be paid using your door rate and labour hours from the most recent Mitchell Labour Guide. If Mitchell "Warranty Time" is not available, PartSource will use Mitchell's "Labour time". Towing is not included. Fleet customers (e.g. Police, Taxi Cabs, etc.) labour warranty coverage is for a period of 90 days from the date of installation.

Customers purchasing less than the average monthly purchase level still qualify for the manufacturers' warranty on parts provided, as applicable. Contact your local PartSource store or Area Sales Manager for the current minimum average monthly purchase level. Customers must provide PartSource the original repair work order, the replacement work order, and the defective part. The replacement part must be purchased from PartSource. Must be an active commercial customer to qualify. To be eligible all accounts must be current with their accounts receivable. Product, service availability, and selection may vary by store. These warranties are subject to change without notice. Although extensive measures are taken to ensure accuracy, PartSource reserves the right to correct typographical or illustrative errors.
