

TOMAR

INDUSTRIAL SIGNALING PRODUCTS

TOMAR Electronics, Inc.

**Manufacturing and
Quality Control**
Striving to produce high
quality products.

Rigorous quality control standards and detailed inspections are implemented at various stages in the production process. Fixture "burn-in" provides for an unprecedented 100% testing of all TOMAR products to ensure accurate and trouble free performance for the life of the strobe. Statistical Process Control is used to monitor production quality with detailed precision. TOMAR's warranties are among the longest in the industry, made possible by the dedication to quality in both the design and manufacturing processes. A computerized system integrating order entry, inventory, and production control helps to facilitate rapid order fulfillment.

Tomar 700-R1-Red Strobe Replacement Lamp

Detail Specifications

REPLACEMENT STROBE FOR 3200BEP SERIES (700-R-1)

Tomar 700-R1-Red Strobe Replacement Lamp

PN: Tomar 700-R1-R-3-C-2

Model: Tomar 700-R1

- Min Voltage – 180
- Max Voltage – 600
- Avg Watts – 20
- Base/Connector 3 Pin Amp (Pin 1 – Anode / Pin 2 – Cathode / Pin 3 – Trigger)
- SKU: Tomar – 700-R1-A-3-C-2
- Colour: Red
