

SKY-FLOOD

High Quality LED Floodlights IP 65

200w LED

150w LED

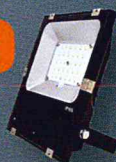

100w LED

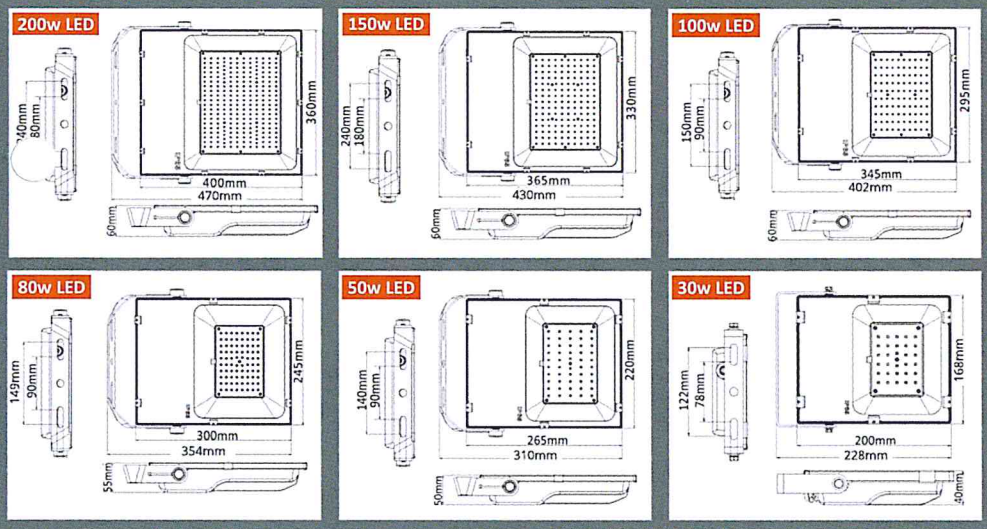

80w LED

30w LED

DIMENSIONS

APPLICATIONS

A well-designed and attractive range of LED floodlights suitable for use in many applications such as security lighting, sports facilities, warehouse perimeters, industrial areas, car parks, building perimeters and many others.

The **SKY-FLOOD** floodlights are incorporated with highly efficient SMD 3030 LED modules with integral drivers. The LED modules are available in Warm-white (3000K), Cool-white (4000K) and Daylight (6000K) colour appearance (CCT).

CONSTRUCTION

The slim and solid main housing is constructed with superb quality die-cast aluminium material, chemically treated and finished with black outdoor polyester powder coating.

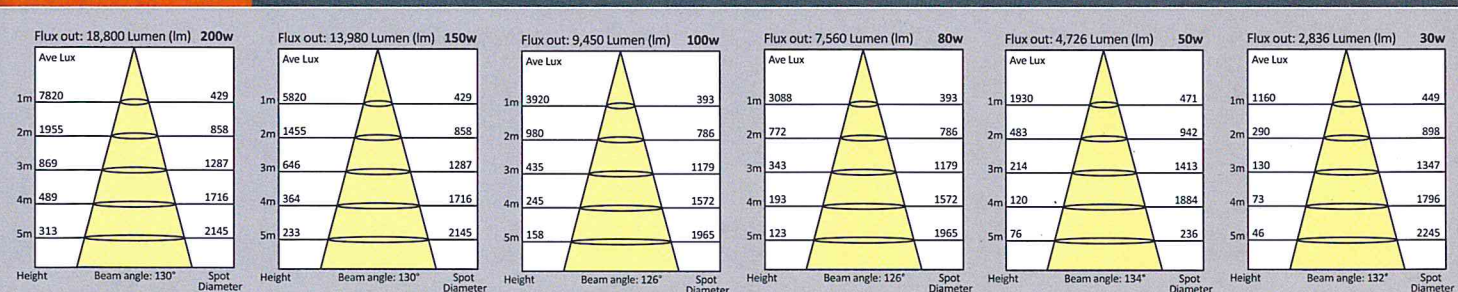

The 4mm thick front tempered glass cover is rigidly secured to the main housing by several strong stainless steel clips and internally gasketed with weather-resistant rubber gasket.
