

# ADAM-LITE T5

Available with 16W (1200mm) or 8W (600mm) T5 LED Tube

## APPLICATIONS

A variety of slim and functional batten fixtures with various optical attachments for applications in many areas such as car parks, supermarkets, hospitals, schools, sub-stations and backyards.

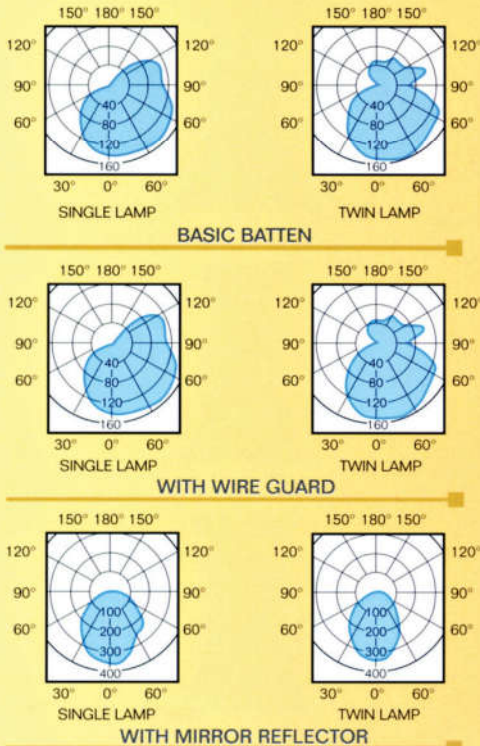

Suitable for both rod suspension mounting or direct surface mounting.

## CONSTRUCTION

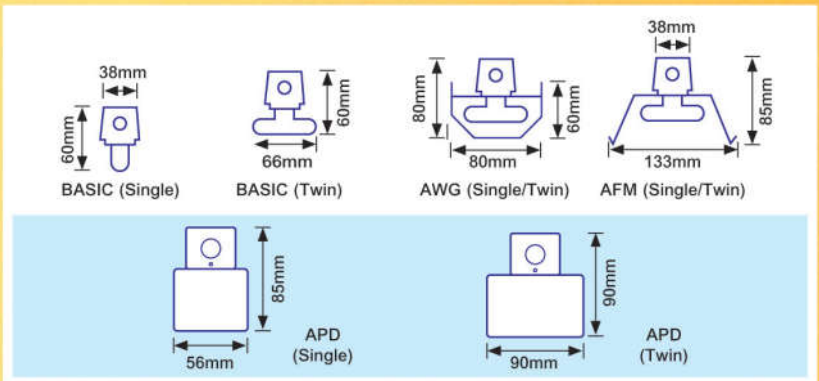

The housing and gear cover are manufactured with chemically-treated high grade steel sheet and finished with superb quality epoxy powder coating. The lamp holders are made with UV stabilised polycarbonate for strength and durability. The Adam Light fitting is pre-wired with heat-resistant cables and electronic ballast.

## PHOTOMETRIC DATA (cd/1000 lumens)
