Safety Guide
To ensure your safety while using GameSir GM200 Gaming Mouse, we strongly recommend you to follow the instructions below:
1. Avoid direct eye-contact with the tracing light beam of the mouse or irradiating others' eyes. Please note that tracing light beam "cannot be seen" via naked-eyes, and it is set to "permanent connection" mode.
2. Please DO NOT disassemble the product by yourself, or the warranty might be invalid. DO NOT fix the product nor operate the mouse under abnormal current load.
3. If you are experiencing problems with the device malfunctions or issues cannot be resolved by troubleshooters, please unplug the device and visit https://gamesir.hk/ and ask for help.
4. Avoid exposing the product to liquid or to humid environment. Use the product only in specified temperature range (32°F to 104°F/ 0°C to 40°C). If ambient temperature is out of range, please unplug the product, power it off, and wait till the temperature stabilizes within the range.

Lighting Effects
The Lighting tab in GameSir G-Core GM200 enables you to customize the look of your GameSir device by allowing you to choose from various lighting effects or fully customizing your own. In addition to that, you can use GameSir G-Core GM200 to adjust all specific parameters including but not limited to Macros and DPI.
