(causing happy dances from shore to shore)

Vancouver, B.C. – Canadians across the country can now purchase the highly popular, all-natural, handcrafted, quality spa products made by Lemongrass House. The family-owned, Thailand-based, artisan brand opened its first Canadian retail store in March 2018 in Vancouver. As a result of a strong demand from those outside of the greater Vancouver area, the Lemongrass House Canada team moved up the launch of their online shop (www.lemongrasshousecanada.com). It is now open and ready for business, so that everyone from Tofino to St. John's, and every place in between, can conveniently purchase the products.

The spa and personal care products – such as essential oils (with diffusers), body and massage oils, face creams, room sprays, soaps, teas and more (there are even products for kids and the family dog!) – offer exotic and floral fragrances. They are all-natural (no chemicals used) and handmade. Created by Thai artisans who approach their work with love and pride, each item is signed by the person who blended it – and is then packaged by hand. The fragrances of the products appeal to a wide range of discerning consumers around the world.

With retail stores in 17 countries around the world, Lemongrass House products are being used in some of the world's top hotels and spas. Along with its retail division, Lemongrass House Canada also has a wholesale distribution division to supply prestigious hotels and spas across the country.
