MES™
BUILDING'S LIFE COACH

Our Philosophy: Building's Life Coach™

Our vision is to be an industry leading, innovative, and disruptive "Building Life Coach™"

As a Building Life Coach, our commitment is to be the world's only LED Lighting Manufacturer, Solar Manufacturer and Roof Consulting & Rehabilitation company that provides our channel partner clients with a consultative, solution based, value added, energy and time saving solution at a fair price. Being customer centric and internally driven, we will act green in everything we do, and we will constantly adapt to be able to solve our client's building issues for the next 15 years.

Finally, we will be the best at training our channel partners to consistently deliver value added energy conservation measures (ECM's) and solutions to their clients.

Core Values

ADAPT: NO EXCUSE
Quickly adjust to meet new challenges without excuse

OVER AND ABOVE
Embrace every opportunity to contribute more

INTERNALLY DRIVEN
Self-motivated to lead and help where needed

TEACH ME MORE
Always open to learning and sharing new ideas and methods

Core Focus™

Our Purpose, Cause and Passion
Helping people create "A-Ha" moments

Our Niche
Providing Energy Solutions

10 Year Target™

Our goal is to provide Energy Solutions within 250,000 buildings/properties by 2030

TABLE OF CONTENTS

SKYFI BLU⁺

MES strives to stay at the forefront of LED lighting innovations, with an emphasis on quality and efficiency. We're excited to offer new products that are either sensor-ready, CCT Tunable, watt-selectable and more!

Our aim is to provide your business w/ cost-effective, energy-efficient lighting, designed for easy install and control, capable of adding a touch of beauty to any environment for years to come. Our standard **7-Year Warranty** will provide a higher level of quality assurance and value in every lighting category.

As you take a peek inside, we hope you like what you see. When you're ready to order, remember we're just a click away at **maverickled.com** or just a phone call away at **214.571.6374**

LILAC GSR
LED Volumetric Troffer Retrofit
- Sensor Ready
- Selectable Wattage
- CCT Tunable

P. 21

SPRUCE GSR
LED BACKLIT THIN PANEL
- Sensor Ready
- Selectable Wattage
- Available in 2x2, 2x4

P. 31

PINE SSR
LED LINEAR HIGH BAY
- ZSR Sensor Ready
- Selectable Wattage
- Available in 2FT or 3FT

P. 38

LION SSR
LED AREA LIGHT
- ZSR Sensor Ready
- Selectable Wattage
- Available in Black, Bronze, White & Silver

P. 50

ASH SSR
LED Round High Bay
- ZSR Sensor Ready
- Dimmable
- 6KV Surge Protection

P. 35

Wolverine
LED Stadium Light
- For installations above 25 feet.
- 10K surge protection
- Adjustable U bracket Included

P. 55

MES GLOSSARY

Look for the following features on our line of products:

ZSR Sensor Ready Technology
Our ZSR Sensor Ready Technology badge indicates that this product provides an optimal lighting solution in seconds with the ability to add a wide array of control devices to your fixture.

Dimmable
The Dimmable symbol denotes MES products with dimming capabilities.

High Lumen
Products with the Selectable Wattage badge offer energy-effecient, cost-saving solutions by allowing users the ability to quickly decrease or increase the LED wattage.

Selectable Wattage
Products with the Selectable Wattage badge offer energy-efficient cost-saving solutions by allowing users the ability to quickly decrease or increase the LED wattage.

MES Standard 7-Year Product Warranty
MES fixtures come standard with a best-in-class 7-year warranty.

Patent Pending
Products that display this badge has original, MES-created technology pending a patent, but ready for commercial use.

Sensor Ready
MES products with the Sensor Ready badge come with designated receptacles allowing quick and convenient sensor plug in.

Correlated Color Temperature (CCT) Tunable
MES products with the CCT Tunable badge have the ability to deliver varying light color from 3000K to 5000K.

MES Optional 10-Year Product Warranty
MES offers an optional 10-year warranty for products and labor.

SkyFi Blu+
No gateway or Internet needed. Safe and easy installation. Wireless Bluetooth mesh connection. Area/Group control & linking

MODEL DESCRIPTIONS

MODEL	TIER	DESCRIPTION
B	Bronze	Single wattage, Single CCT, Non-Sensor Ready
BSR	Bronze SR	Single wattage, Single CCT, Sensor Ready
BWS	Bronze WS	Single wattage, Single CCT, with Sensor
S	Silver	Selectable Wattage, CCT Tunable, or Non-Sensor Ready
SSR	Silver SR	Selectable Wattage, Single CCT, Sensor Ready
SWS	Silver WS	Selectable Wattage, Single CCT, with Sensor
G	Gold	Selectable Wattage and CC Tunable, Non-Sensor Ready
GSR	Gold SR	Selectable Wattage, CCT Tunable, Sensor Ready
GWR	Gold WS	Selectable Wattage, CCT Tunable, with sensor

IP RATINGS

IP ratings featured on our line of products:

IP20
MES products w/ this rating are protected against being touched by hand or large tools.

IP44
MES products w/ this rating offer protection against invasive small objects larger than 1mm, such as a wire, and protected against splashes of water projected from any direction.

IP54
MES products w/ this rating are protected against dust and splashes of water from any direction.

IP64
MES products w/ this rating are dust-resistant and protected against splashes of water from any direction.

IP65
MES products w/ this rating are dust-resistant and protected against jets of water projected from any direction.

IP67
MES products w/ this rating are dust-resistant and fully protected against immersion in water for 30 minutes to a depth of 1 meter.

CERTIFICATIONS

For more than 100 years, Underwriters Laboratories has been non-profit organization dedicated to public safety. UL sets standards for different product categories and tests products to make sure they meet the standards.

The ETL Mark is proof of product compliance to North America safety standards. Authorities Having Jurisdiction (AHJs) and code officials across the US and Canada accept ETL Listed Mark as proof of product compliance to published industry standards.

To see MES products in this catalog that meet UL or ETL standards, look for the UL or ETL badge.

DesignLights Consortium®

The DesignLights Consortium (DLC) is a non-profit organization promoting high-quality, energy-efficient lighting products in collaboration w/ utilities and energy-efficiency program members, manufacturers, lighting designers, and federal, state and local entities.

To find MES products in this catalog that meet DLC standards, look for the DLC badge.

LED TYPE A, B, A+B TUBES

Description:
LED Type A, B, A+B tubes are ideal for customers with older fluorescent ballasts who want to maximize efficiency with high system efficacy, guaranteed system compatibility, and the greatest overall performance.

Features:
- Frosted glass; eliminates pixelation
- Instant startup
- Suitable for retail, schools, offices, healthcare and other various commercial applications

HIGH LUMEN

LED TYPE C TUBES RETROFIT

Description:
Our External Drive LED Type C tubes are ideal for customers with older fluorescent ballasts who want to maximize efficiency, but don't want to install Type B linear voltage retrofit lamps. Our External Drive LED system can be integrated with robust dimming and control functionality. Our Type C LED tubes offer high system efficacy, guaranteed system compatibility, and the greatest overall performance.

Features:
* Frosted glass; eliminates pixelation
* Instant startup
* Suitable for retail, schools, offices, healthcare and other various commercial applications

## LED MAGNETIC STRIP RETROFIT (HIGH LUMEN)

Description:

Our High Lumen Magnetic Strip Retro series is a family of LED Magnetic retrofit kits, which are used to update existing 2x4 fluorescent luminaires to LED. This family of retrofit also simplifies installation: simply replace your fluorescent tubes with the Magnetic Strips and the fixture's ballast with the included high-performance LED driver. Installation can be completed in as little as 5 minutes. These kits includes LED Strips, an external driver, a connector, and attached magnets for a quick install

Features:
- LED strips, LED drivers, connector
- Suitable for retail, schools, offices, healthcare, and other various commercial applications

LED STRIP FIXTURE RETROFIT (LILY)

Description:
Our Strip Fixture Retrofit (SFR) kit includes everything needed for a seamless quick retrofit of existing 4' and 8' fluorescent strips along with other industrial fixtures to LED, in as little as two minute. It's the industry's fastest LED strip retrofit kit!. The SFR includes housing with pre-wired drivers, installation brackets, lenses, and hardware with each retrofit kit.

Features:
- AL+PC with an acrylic lens, removable for quick cleaning
- Suitable for retail, schools, offices, healthcare, and other various commercial applications

Order Code	Description	Wattage	CCT	Voltage	Color	Function

LED VOLUMETRIC TROFFER RETROFIT (LILAC)

Description:
The Slim Line LED retrofit kit for troffers simplifies the conversion from existing fluorescent 2x2 and 2x4 recessed troffer fixtures to energy efficient LED fixtures using the back housing of the existing fixture. This Troffer Retrofit kit can be retrofitted into most existing troffers in less than 15 minutes.

Features:
- Can be retrofitted into most existing troffers.
- Continuous dimming (0-10V) comes standard.
- Suitable for retail, schools, and other commercial applications

HID POST TOP RETROFIT

Description:
Our LED HID post top 360°retrofits are perfect for retrofitting your post top fixtures while providing 360° of high output LED light. These retrofit options are UL listed and enclosed fixture rated. With a reversible E39 mogul base, you can have either up or down light. Replace your metal halide lamps in your post top fixtures today with these beautiful LED replacements in 30 or 60 watts, available in 4000K or 5000K color temperature (CCT).

Features:
- E39 Mogul Base, die cast aluminum body with white finish
- Suitable for warehouses, gymnasiums, shopping centers

HID OUTDOOR RETROFIT KIT WITH EXTERNAL DRIVER (TULIP B)

Description:
This Outdoor Retrofit Kit is a multi-function retrofit solution for commercial and outdoor fixtures. Replace old metal halide fixtures with this LED retrofit kit and get up to 130 lumens per watt for better energy efficiency. The fixture can be mounted horizontal or vertical, and can be used to retrofit HID wall packs, shoebox area lights and flood lights, canopy lights, and high bays. Simply remove your old bulb, bypass the ballast, and mount the retrofit kit inside your fixture with the included bracket mount and hardware.

Features:
- Heavy duty one-piece die cast aluminum heat sink with an integral thermal control sensor with external Meanwell driver
- Retrofit: wall pack shoebox, flood light, canopy, high bay

UL | DLC | 7 YEARS | IP65 RATED | DIMMABLE

LED SOFFIT CANOPY RETROFIT

Description:
This slim and sleek LED Petroleum Canopy Light is a high performance fixture, capable retrofitting any soffit or canopy. Because of its unique design and features, it's the best outdoor lighting fixture applicable to any industrial or commercial premise but most particularly for gas stations. The 120-degree beam angle is perfect for illuminating large spaces without leaving dark spots. Comes with 12, 15, 18 inch plates in bronze or white making it versatile for all applications.

Features:
- Die cast aluminum with integral heat sink
- Suitable for warehouse, factory, gas station, soffit, workshop

1. Choose fixture

2. Select plate size/color needed

LED WRAPAROUND FIXTURE

Description:
The LED Wraparound is the classic, all-purpose fixture for nearly every commercial and industrial setting. It features a durable steel body construction with a white polyester powder coat finish, along with a prismatic lens that masks the LED diodes, delivering a smooth, visually appealing look. For a quick and economic replacement of T12 or T8 wraps, the LED Wraparound is the perfect solution.

Order Code	Description	Wattage	CCT	Voltage	Color	Function

02471	LED 4ft Wraparound Fixture	40W	5000K	100-277V	White	Dimmable

LED VAPOR TIGHT FIXTURE

Description:
Designed to be used in moisture-filled or harsh settings, these fixtures have a durable housing that resists warping, fading, corrosion, and rust. The impact resistant lenses are able to withstand the weather, and are held in place by non-corrosive metal clips. LED vapor tight fixtures use half the energy of fluorescents, lowering energy cost. These fixtures also eliminate lamp replacement costs and compatibility issues by using integrated LEDs.

LED COVERED STRIP FIXTURE

Description:
The LED Covered Strip Fixture, available in 4' and 8', is designed as a direct replacement for fluorescent strips. This luminaire is delivers general ambient lighting in a variety of indoor settings, including schools, offices, hospitals and stores, and is the perfect choice for both new construction and retrofits. This luminaire provides long-life and uniform illumination, as well as standard 0-10VDC dimming capability.

LED VOLUMETRIC TROFFER (REDWOOD SSR)
Description:
Our Redwood SSR troffer is dimmable, has selectable wattage and comes sensor ready. Our troffers provide a quick and easy solution for warehouse and other commercial applications. Available in 2'x2' and 2'x4' versions.

Features:
- Mountable in an existing troffer fixture
- Durable steel housing with an acrylic lens that is removable for quick cleaning
- Suitable for retail, schools, offices, healthcare and other various commercial applications

LED DOWNLIGHT (WILLOW G)

Description:
Our 4", 6", 8" and 10" LED commercial downlights are wattage selectable, CCT tunable and can be programmed with a toggle switch, allowing the ability to choose multiple color temperatures for any setting. Designed to meet most recessed downlighting application needs. This downlight offers comfortable, diffused lighting, with quiet & flicker-free LED technology.
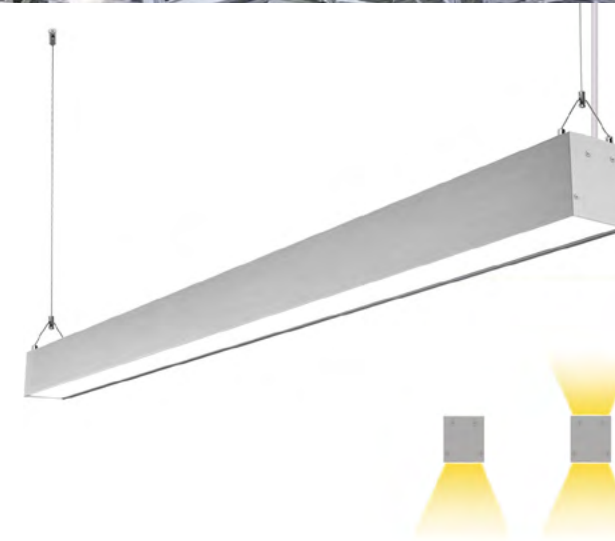

Features:
- High-grade aluminum housing
- Suitable for offices, conference rooms, retail stores, health care facilities

LED ARCHITECTURAL LINEAR STRIP LIGHT

Description:
This sleek, stylish light features up and down lighting, making this a highly effective lighting solution. These 4-foot LED direct/indirect suspended linear fixtures can be linked together are ideal for a variety of indoor and architectural applications where continuous linear lighting is desired. It is suitable for suspended mounting and can be used in continuous rows.

Features:
- Steel housing and acrylic lens
- Suitable for hospitals, offices, schools, stores

ZSR RECEPTACLE

PIR SENSOR

REMOTE CONTROL

ZSR SENSOR TECHNOLOGY?

It's the easiest way to add controls to illuminate fixtures. Our ZSR sensor ready technology provides an optimal lighting solution in seconds, delivering the quickest and safest route to add a wide array of control devices to your fixture.

INDUSTRY STANDARD

The ZSR receptacle is an industry standard interface for adding low voltage controls to 0-10V dimming fixtures. Look for the ZSR logo and you know your device is sensor ready and easy to control!

CONTROLS DEVICES

The ZSR receptacle works with a wide variety of control devices, including photocontrols, motion sensors, networked lighting controls including other third-party control devices identified as being compatible with ZSR.

Fixtures that include a ZSR interface work with controls that contain 3-in-1 functionality: Occupancy, Bi-Level Dimming, and Daylight Control. ZSR enabled fixtures provide plug-and-play controls functionality right out of the box.

LED ROUND HIGH BAY (ASH SSR)

Description:
These sensor ready LED Round High Bay are the energy efficient, cost saving alternative to a traditional metal halide lights. These commercial low-profile high bay fixtures provide a quick and easy solution for warehouse and industrial applications. The low-profile height allows for efficient packaging, as well as accommodates applications where a low hanging fixture is undesirable.

Features:
• Heavy duty cast aluminum with an integrated thermally efficient heatsink profile
• Suitable for garage, gymnasium, parking garage, workshop
• Comes with 6ft cord

LED ROUND HIGH BAY (OAK SR)

Description:
These sensor ready LED Round High Bay are the energy efficient, cost saving alternative to a traditional metal halide lights. These commercial low-profile high bay fixtures provide a quick and easy solution for warehouse and industrial applications. The low-profile height allows for efficient packaging, as well as accommodates applications where a low hanging fixture is undesirable.

Features:
• Heavy duty cast aluminum with an integrated thermally efficient heatsink profile
• Suitable for garage, gymnasium, parking garage, workshop
• Comes with 6ft cord

Order Code	Description	Wattage	CCT	Voltage	Lens	Color	Function

LED LINEAR HIGH BAY FULL BODY (MAPLE B)

Description:
This high bay fixture provides a quick and easy solution for warehouse and industrial applications. The linear profile allows for a one-for-one substitution with existing linear fluorescent high bay fixtures and is designed to replace traditional 150W-1000W T8 fluorescent-equivalent high bay fixtures.

Features:
• Extruded aluminum with polycarbonate frosted lens
• Suitable for factory, workshop, warehouse, gymnasium
• V-hook and chain included

LED LINEAR HIGH BAY (PINE SSR)

Description:
These commercial 2ft & 3ft linear high bay fixtures provide a quick and easy solution for warehouse and industrial applications. The linear profile allows for a one-for-one substitution with existing linear fluorescent high bay fixtures where the original chain suspension hardware can transfer directly over for an easy quick install.

Features:
• Heavy duty cast aluminum with an integrated thermally efficient heatsink profile
• Suitable for garage, gymnasium, parking garage, workshop
• Aircraft cable and 6ft cord included

LED SECURITY WALL PACK

Description:
The Security Wall Pack is a great addition to poorly lit areas. This fixture can be mounted directly to a wall, side of building, or above a walkway. Construction consists of a weatherproof powder coated aluminum housing with wiring and conduit knockouts and a polycarbonate lens. Easily mount the wall pack on a recessed junction box. With its built in photocell, this fixture turns on automatically when the environment gets dark and turns off by itself with the first glimpse of daylight.

Features:
- Die-cast aluminum with prismatic polycarbonate lens
- Suitable for security lighting, perimeter lighting, parking garage
- Photocell included

Order Code	Description	Wattage	CCT	Voltage	Color
05050	LED Wall Pack Security	15W		120V	Bronze

05058	LED Wall Pack Security	10W-15W-20W		120V	White

LED STANDARD WALL PACK (TIGER B)

Description:
The LED standard wall pack combines traditional wall pack design with high-output LEDs to provide an energy-efficient, low maintenance LED wall pack suitable for replacing Metal Halide fixtures. The traditional shape helps maintain building aesthetics when replacing only a portion of your building's wall packs at a time while also eliminating unwanted markings from the removal of older fixtures.

Features:
- Die-cast aluminum housing with hinged door frame
- Suitable for warehouse, factory, storage, pedestrian lighting
- Photocell included

LED DUSK TO DAWN (BARN LIGHTS)

Description:
- These LED Barn Lights are great addition to poorly lit areas This fixture can be mounted directly to a wall, pole, or to a new or existing mounting arm. Built with SMB technology providing up to 6,875 LM, the barn light produces radiant light for your outdoor activities. Its die casting aluminum housing gives great passive heat dissipation, shock, and erosion resistance. With its built in photocell, this fixture turns on automatically when the environment gets dark and turns off by itself with the first glimpse of daylight.

Features:
- Die cast aluminum with prismatic polycarbonate lens
- Suitable for security lighting, perimeter lighting, farm, garage, barn, yard, parkways
- Photocell included

LED POST TOP LIGHT

Description:
This beautifully designed LED post top light provides a style that can be used for traditional and contemporary applications. Some models offer CCT Tunable functionality, allowing the ability to change the light color temperature from a warm white (3000K) to a natural white (4000K) to a daylight white (5000K), giving this light the capability to fit all application necessities. For convenience, the photocell feature offers a maintenance-free dusk to dawn operation.

Features:
• Powder-coated aluminum, durable exterior, resists corrosion
• Suitable for corporate parks, downtown spaces, or retail parkways

LED EMERGENCY DRIVER

Our LED Emergency Driver provides constant power output to the load during emergency mode operation. It can be operated as NORMALLY-ON, NORMALLY-OFF, or SWITCHED LOAD. Included with a Charge/Power "ON" LED indicator light and push-to-test switch for mandated code compliance testing. This LED driver is suitable for installation inside, on top, or in remote mount of the fixture.

5 YEAR WARRANTY

ADVANCED FUNCTIONALITY

The MES SkyFi Blu + System supports area control, group control, and scene control.

Advanced siganl stabilation makes it suitable for office, school library, hospital, warehouse, and more.

Its motion sensor interaction and photon sensor help to maintain comfortable lighting.

Color temperature (Kelvin) can be changed depending on the time of day, which lets people improve their work effieciency.

EASY OPERATION

Our self-developed APP has a user friendly interface. It's simple setup and operation makes it quick and easy to program.

One smart phone can control all lights and scenes with one switch. Leaving the customer in complete control of their environment

LED V-SHAPE COLD CASE (COOLER) LIGHT

Description:
This 45° LED V-shape cold case (cooler) light with fixture bracket is ideally used for cooler lighting. The 45° V-shape design has a 160° beam angle that gives products a sharper look as more light shines towards them giving off a perfect 5000k natural white light. These LED lights contain no mercury and are in accordance with CE and RoHS testing standards, in addition to being ETL certified and come in 4', 5' and 6' variations.

Features:
- Aluminum polycarbonate lens
- Suitable for coolers, refrigeration, workshops, warehouses

Order Code	Product	Size	Wattage	CCT	Voltage	Color	Lens	Function
08072	LED Cold Case (Cooler) Light	4ft	18W	6500K	100-277V	White	Clear	Daisy Chain

08074	LED Cold Case (Cooler) Light	6ft	40W	5000K	100-277V	White	Clear	Daisy Chain
LED SPIDER GROW LIGHTS

Description:
Our full-cycle LED Spider Grow Lights are designed to target only the parts of the spectrum your plants need to thrive through both vegetative and flowering cycles. Continuous dimming (0-10V) comes standard. Suitable for use with dimmers and controllers. Multiple fixtures can be connected together using a single controller and then grouped together to be controlled simultaneously.

Features:
- Extruded aluminum with an acrylic lens
- Suitable for indoor and greenhouse

SOLAR MODULE

Description:
Solar modules convert sunlight to electricity via the photovoltaic effect. The high-power density solar modules yield great power per square meter, decrease labor installation time and decrease balance of system requirements. Dependent on the mounting application (roof or ground), the solar modules integrate various form factors and cell technologies: monofacial, bifacial, mono and poly.

Features:
* 30 year linear power warranty
* 12 year product warranty on materials and workmanship
* Heavy snow load up to 5400 Pa, wind load up to 2400 Pa
* IEC 61730, UL 61730 certified
* Suitable for ground mount and rooftop installations

SOLAR INVERTER

Description:
Solar inverters convert direct current to alternating current in a photovoltaic system. The grid tied inverter are designed to provide high yield and enable significant balance of system savings. Dependent on system requirements, the inverter are either single phase or three phase. Conversion efficiency yields up to 98.8% and a wide operating range.

Features:
* 10 year standard warranty, available to extend up to 20 years
* Maximum efficiency of 98.8%
* UL 1741 & IEC 62109.1 certified for safety
* IEEE 1547 & EC 62109.2 certified for safety & operability with utility grid
* Monitoring for real-time operational efficiency
