

# "Giraffe"

## DESCRIPTION

Our signature, our best seller. Thousands have been shipped worldwide, from Japan, to Brazil, to right here in New York City. They have been sought out by celebrities like Spike Lee, George Clooney, Melanie C, and Eartha Kitt.

Our giraffes are hand carved in Zambia from one piece of pure teak wood. Each giraffe has a unique, organic posture. Some are more elegant, exemplifying female giraffes. Others are more rigid and statuesque, exuding male characteristics. Giraffes that smaller in height are more fragile and delicate lend themselves to a child form. They are usually purchased in multiples, with each giraffe representing each member of one's family.

We have giraffes up to 14 feet tall. They are expertly packaged to arrive in one piece with no assembly required.
