WHITETAILFLYTIEING.COM

2019 Catalog

We are grateful for all of you that have purchased from Whitetail Fly Tying Supplies in the past and look forward to serving many new customers this year. We hope that this catalogue will assure all past and future customers that Whitetail Fly Tying Supplies will continue to carry a vast inventory as well as custom Deer Hair.

Place an Order: Call: 630-402-0423
Fax: 630-402-0424
Email: nancy.richardson55@gmail.com

Please visit <https://whitetailflytying.com> to purchase online. Current pricing and product information is updated weekly. We still welcome and encourage you to call to place an order or ask questions. After all, it is always great to hear what you are tying and where you are fishing!

Shipping: We ship all packages USPS unless otherwise requested. We have no intention of making a profit on shipping and make every effort possible to keep expenses down. Postage rates can vary due to weight, size and destination of package, therefore it is difficult to publish a firm shipping cost. Below is an **estimate** based on current postage rates and weight of package. Included is a shipping and handling charge to cover our costs. If you would like an exact amount for your order before shipping, please feel free to let us know and we will call or email the cost to you before shipping.

Package Weight	Shipping
Up to 3 oz.	First Class \$5.95
3.1 oz. to 13 oz.....	First Class \$7.95
13 oz. or heavier	Priority Mail Calculated based on weight & dimension

Note: any package with a dimension over 12" is subject to additional charges.

Shipping charges outside of the U.S. are subject to prevailing rates and restrictions.

Payment: We accept Visa and MasterCard, Personal Check, Money Order or Cashier's Check.
RETURNED CHECKS ARE SUBJECT TO A \$30.00 CHARGE. NO C.O.D. SHIPMENTS
ILLINOIS RESIDENTS ARE SUBJECT TO 8% SALES TAX.

Business Hours: We do not post “Shop Hours” because the shop is in our house and City Regulations would consider it a “Retail Store”. We welcome visitors/customers to the shop; **please call before coming to set up a time.** We are generally here and will take appointments, phone orders or return emails **Monday – Saturday 8:30 A.M. to 6:00 P.M. CLOSED ON SUNDAY**

Custom Cut Deer Hair

We have over 75 hides to choose the specific piece of hair you are looking for. We hand select and process the hides based on season, color, and quality of the animal. You will notice we offer a standard 2” x 3” piece of hair but also we “Custom Cut” a piece to your desired size. Pricing is then based on square inches. We are happy to discuss just what hair will work the best for the fly you are tying.

Most everything we list in this catalog we generally have in stock. We are happy to special order items you need but do not see listed. The exception to this is the Whiting Farms inventory. We list their entire catalogue, but their availability can be limited due to harvest timing. We do have over 1,100 Whiting items in stock.

International Orders: We will ship orders internationally, however, many animal materials have to be inspected by the US Fish and Wildlife Service. Inspection Fees are \$95 per order. If you are an International Customer, please contact us by email or phone to go over all regulations and requirements.

We look forward to serving you and hope to meet you in the future.

Mike and Nancy Richardson

Catalog

Item Name	Part #	Pack	Color	Size	Price
Adhesives, Glues, Head Cement, and Paint					
3M Super Strength Adhesive					
A general use adhesive, 10 minute work time, waterproof. Bonds to wood, china, glass, fabric and most plastics. Dries clear. 1 oz. tube.	9293				3.95
3M Ultra Flex					
Two part High - Flex adhesive. Excellent all purpose adhesive, fast acting, long-lasting adhesion. Bonds and seals fabrics to all pliable materials. Catalyst and resin easy to use.	9296				3.95
Accessory Tips for UV Resins					
These tips will fit Bug Bond Lite, Clear Cure and Hydro Clear UV Resins.	2964	6			4.95
Aqua Seal by Gear Aid					
Patch any leak or tear. Adhesive and sealant. Great for waders and boots. 3/4 oz. tube	9297				6.95
Bond 527 Multipurpose Cement					
An excellent all around cement for securing eyes and coating the front of flat face bass bugs, repairing splits in jungle cock eyes, coating ringneck pheasant church window feathers for hopper wings and numerous other uses in fly tying and around the house. Medium viscosity. Dries in about 15 minutes. Per 1 oz. tube.	2637			1 oz	3.50
Bug Bond™, Lite					
Multi-Purpose Fly Tying UV Cure Resin. Use UV LED flashlight to cure. 20ml bottle.	9244				25.00
Bug Bond™, Original					
Multi-Purpose Fly-Tying UV Cure Resin. 20ml bottle. Clear. Use UV LED flashlight to cure.	9243				25.00
Bug-Bond™, Tip Kit					
Five tapered nozzles and a replacement cap that accepts the Luer Lock stopper that is included.	9968				6.95
Cascade Crest Feather Tough					
This is a non-toxic spray on material to seal feathers from splitting. Simply mist turkey quills or other wing material to create a tough, protective, flexible finish. Bottle has a hand pump sprayer. Per 1 oz. bottle.	2641				4.25
Clear Cure Goo Accessory Tips					
Package contains two fine curved tips, two curved tips, two small brown and two black fine tips.	2554				11.00
Dye for Fly-Tiers					
These dyes are specially prepared for dyeing feathers, furs and any other natural materials. Instructions are included. Colors: Black, Blue Dun, Light Blue, Dark Blue, Kingfisher Blue, Teal, Dark Brown, Fiery Brown, Cinnamon, Fluorescent Chartreuse, Dark Claret, Light Claret, Coral, Crimson, Ginger, Fluorescent Green, Bright Green, Dark Green, Insect Green, Highlander Green, Grey, Iron Blue, Magenta, Brown Olive, Dark Olive, Golden Olive, Green Olive, Medium Green, Olive Dun, Fluorescent Orange, Hot Orange, Peach, Purple, Scarlet, Fluorescent Red, Summer Duck, Golden Yellow, Bright Yellow, Fluorescent Yellow, Sunburst Yellow.	9893			15 grams	7.50
Enrico Puglisi 1 Minute Epoxy					
Quick setting, crystal clear epoxy, will not yellow. One minute working time.	9299				5.95
Exo-Flex					
Clear drying, self leveling, flexible adhesive. Ideal for saltwater baitfish flies, scud backs and over coating stick - on eyes. Cap is designed so fly can be directly dipped into the bottle if desired. 2 oz. bottle	2522			2 oz	5.00
E-Z Shape Sparkle Body					
A material that can be used in the place of epoxy, silicone, hot glue, and other similar material used to create durable bodies, heads, and eyes on both fresh and saltwater flies. This material does not require any mixing and is non-toxic. It does not require rotating to prevent sagging. Colors: silver, shrimp pink, silver scale, red gill, fluorescent yellow, pumpkinseed, white, and sand. Squeezable bottle.	2496				3.75
Flex Seal					
For use as a feather glaze on pheasant tails, turkey quills, sealing the deer hair on the bottom or face of hair bugs. The coating keeps barbs from splitting feathers. Apply with a bodkin or toothpick. 1 oz. bottle.	2537			1 oz	3.75
Flex Seal Thinner					
Used to thin Flex Seal. Thin one drop at a time to desired consistency.	2519				3.75
Flexloc Head Cement					
Specially formulated for synthetics. Quick drying, flexible. Can be thinned with methyl ethyl ketone. 1 oz. bottle	2623				3.95

Adhesives, Glues, Head Cement, and Paint

Fly Head Cement Thinner					
As with any head cement thinner use a small dropper to transfer a drop to the head cement.	2630			1 oz	3.00
Fly Rite (FlyTite) Non-Toxic Head Cement					
Dries clear and flexible, only likely needs thinning after three or four year of not being used. Has no odor. Works well with all materials, but particularly with deer, elk, squirrel, and every other hair. The base material is denatured alcohol base, that if you ever do want to thin the Fly Tite you can purchase the denatured alcohol at the drug store. Any time you want to set a clump of bucktail, squirrel hair, calf tail or body hair, etc., a drop of Fly Tite is placed where the thread will cover the material. When wrapping the head, particularly on larger flies, make a couple of wraps, place a drop of cement on the head area, then continue building the head with flat wraps of thread into the cement. Do the whip finish and the process is complete. 2 oz. bottle.	2544				6.55
Fly Tyers "Z-Ment"					
This is thin formula Zap a Gap in a half ounce bottle with an applicator brush. This method of applying the Zap is much neater and eliminates over applying the cyanoacrylate and having it run where you don't want it. It has dozens of uses in fly tying from attaching metal bar bell eyes, locking in parachute wing posts, bonding material that you don't want to move, placing on knots, etc. This formula replaces the original "Brush On Fishin Glue" and "Fly Tier's Glue" which had been so popular. Dries in 10 to 15 seconds. Can also be used as a head cement. It has a very long shelf life if the cap is kept on the bottle when not in use, and in between applications during tying sessions. Per 1/2 ounce bottle.	2547				7.25
Gloss Coat Head Cement					
For creating shiny heads on steelhead, salmon, and show flies. Does not permeate well, but ideal for a glossy appearing head. 1 oz. bottle.	2545				4.30
Gloss Coat Thinner					
One fluid ounce bottle. Use an specially designated old eye dropper to transfer the thinner into the Gloss Coat bottle. If you spill and thinner on your fingers wash your hands.	2541				3.75
Glue Gun, Mini - 5/16"					
For more heads, eggs and whatever you can hot glue.	9300				8.25
Glue Sticks, Mini - 5/16"					
Pack of 4 glue sticks. Colors: Black, Champagne, Red, Orange Roe, Chartreuse, Neon Yellow, Salmon, Oregon Cheese, Neon Pink, Saltwater Pink, Pearl.	9301	4			2.50
Head Cement Applicator Jar					
For head cement. Glass bottle with a hex-shaped nylon dubbing needle placed through poly-seal cap. 1 oz. bottle.	2625				4.00
Head Cement Applicator With Brush					
By removing 1/3 to 1/2 of the brush bristles with a new double edged razor blade of the new brush, the smaller brush remaining is perfect for controlling the amount of head cement on the smallest heads. If you tie mostly small dry flies and nymphs, remove all the bristles except four or five. Hold the brush in your left hand, place the new razor blade against the base of the bristles, and turn the brush applying moderate pressure with the blade.	2527				5.50
Head Cement Plastic Squeeze Bottle					
Plastic squeeze bottle with needle insert for the tube. Half ounce capacity. The convenient and neat method to control the amount of head cement applied. Eliminated those "lost drops" that fall on your tying bench from the open bottle (that might spill) when using a bodkin. You are able to pinpoint the precise spot where you want to place the cement and control the amount. Works best with the Fly Rite (Fly Tite)head cement. If you use lacquer base head cement or Dave's Fleximent (not recommend because of its toxicity), you will need to thin the cement frequently to maintain a thin viscosity to keep the tube from clogging up.	2525				4.55
Lacquer Paint					
Quick dry paint for heads, and using a nail or skewer stick to paint eyes on streamers, saltwater patterns. Colors: red, black, yellow, white, olive, orange, brown, and pearl. 1 oz. bottle	2629				4.50
Lacquer Thinner					
Use with Lacquers, Gloss Coat, Pearl, Fly head cement and epoxy.	2628				2.50
Liquid Fusion					
Water based clear urethane that glues and works like epoxy without the mixing or smell. For eyes, heads, and wingcases. Can be thinned with water for a more penetrating thin formula. 2 oz. bottle.	9302				7.50
Loon Hard Head Finish					
For a high gloss head finish on your steelhead and salmon flies as well as any show fly. This is a water base cement. 1 oz. bottle.	2600			1 oz.	6.95

Item Name	Part #	Pack	Color	Size	Price
-----------	--------	------	-------	------	-------

Adhesives, Glues, Head Cement, and Paint

Loon Hard Head Finish - Black					
For a high gloss head finish on your steelhead and salmon flies as well as any show fly. This is a water base cement. 1 oz. bottle.	2601			1 oz.	6.95
Loon High Tack Swax					
It is probably best applied by rubbing your index finger on the tube and work it on to the thread. Taking the dubbing from the package with a thin coat on your thumb and index finger will make it easy to hole the dubbing before applying to the thread. Another for this dubbing wax is to put this wax on the thread if you are having a difficult time when building a tapered and had and the slips past the spot when you want that wrap to lie. Per tube.	1233				5.25
Loon Low Tack Swax					
Don't let the low tack label fool you. Britt Phillips turned me on to a technique using this product. He said that he tried every other wax on the market and this was the only one that worked. It works well with the "touch" dubbing method. Use fox squirrel dubbing. After a couple of swipes of the wax on the thread hold the thread taught while rotating it as the dubbing is "touched" to the thread. Makes an excellent collar in small nymphs. Per tube.	1231				5.25
Loon UV Clear Fly Finish Fluorescing					
UV cure resin that you can apply to any pattern and make it Fluoresce. The fly becomes more sensitive to the light that is available uderwater, making it more visible to fish. Includes brush and applicator tips.	9954			1/2 oz	16.35
Loon UV Clear Fly Finish Flow					
Water thin UV cure resin. Thinnest UV-curing resin from Loon Outdoors. Cures in seconds when exposed to sunlight or artifical UV light source. It can be used to coat heads and bodies, adding strength and durability. Unlike other resins, Flow is thin enough to penetrate tying materials and serve as a head cement replacement. Includes brush and 2 applicator tips.	9953			1/2 oz	14.10
Loon UV Clear Fly Finish Thick					
No mixing or waiting is required. It remains workable until exposed to direct sunlight or Loon's UV lamps, at which point it will cure in a matter of seconds. Use as adhesive for eyes, a head cement, quick-building clear back for scuds, or instant repair for damaged flies.	1639			1/2 oz	13.95
Loon UV Fly Finish Thin					
	10000			1/2 oz	13.95
Loon UV Paint					
Liquid polyurethane fly paint and head finish that adheres to hackles, metal, and plastic. Cures in seconds in sunlight so you can change a fly's color right on the water with no waiting for air drying or solvent evaporation. Works extremely well with saltwater patterns. Contains no toxic solvents. Use direct sunlight or an optional UV Power light for the tying bench to provide instant drying. Colors: orange, red, and yellow. Per 1/2 oz. Tube.	2499				14.10
Loon UV Wader Repair					
Reliable field repair. Uses natual UV Rays to cure outdoors or use UV light indoors.	9298				5.00
Loon Water Base Head Cement					
A good all around cement with a water base for those concerned about toxic thinners. In convenient squeeze bottle with applicator tube and needle insert. 1 oz. bottle.	2592			1 oz	6.75
Miscellaneous - Adhesives					
	8000				
Soft Body Thick					
Water based non-toxic plastic resin that is available in two formulas. It dries crystal clear and hard. The THICK formula works well on epoxy type bonefish flies or with any synthetic material. Use a fine tipped brush or bodkin to apply. Dries thoroughly in 24 hours. No fumes. Two ounce jar. Best to use a drying wheel with this product.	2516			2 oz	5.95
Soft Body Thin					
The THIN formula is well suited to natural fiber materials and can be used as head cement. Two ounce jar.	2491			2 oz	5.95
Softex™					
Developed specifically to fly tying applications that can be used for coating eyes, heads, and wing cases. Dries clear in 2-4 hours and is 100% waterproof. If you need to do some home repairs on ceramic, metal, wood or fabric this product will work just fine. 2 fl. ounce bottle. This material contains toluene and has a strong odor, and it is considered a carcinogen. Best to apply in a well ventilated area, preferably outside.	2511				12.75
Solarez UV Resins					
Waterproof, non-yellowing, quick setting and best yet...tack free Polyester resin formulas. Comes in 5 gram tube or 2 oz bottle. Comes in Thin Hard, Thick Hard and Flex formulations.	2046				4.65

Item Name	Part #	Pack	Color	Size	Price
-----------	--------	------	-------	------	-------

Adhesives, Glues, Head Cement, and Paint

Super 77-3M An aerosol spray can adhesive for gluing two or more sheets of foam together. Foam remains flexible after drying. Sets up in about thirty minutes. After placing the two sheet together, place a fairly heavy object on the two sheets of foam to aid in bonding of the two sheets. Per can (net weight 4.4oz)	2503				12.50
SuperLaq Head Cement (formerly Prolac) Don Bastian uses this as the final coat on all of his black headed wet flies and streamers. Provides a beautiful hard gloss finish. A bottle of this cement will last for years. When using the cement caution is recommended to not accidentally put any on the wing or body material of the fly. The material will penetrate the area where it isn't wanted and cannot be removed with thinner. Available in Black and Clear.	2535				3.95
SuperLaq Thinner (formerly Prolac) 1 oz. bottle. As with the Gloss Coat thinner, use an old eye dropper to transfer the thinner into the Prolac bottle. If you would get some thinner on your finger wash your hands.	2539				2.75
Tear Mender A non-toxic fabric and leather repair adhesive to bond rabbit strips together for the double bunny fly. Bonds in three minutes. The product also has dozens of uses for non fly tying related projects. 2 oz. bottle.	2645				10.45
Tuffleye Core Clear Acrylic This is a light cured clear acrylic that cures in 10-20 seconds with correct light. It requires no mixing, is harder than epoxy and will not yellow over time. Odorless, insoluble in fresh and salt water, biologically and ecologically safe. Made in the USA.	3021	1		30cc	22.25
Vinyl Cement The original feather glaze. Apply with a small paint brush or bodkin. Only one application required to eliminate feather barbs from separating. Feathers remain pliable after drying. 1 oz. bottle.	2533				3.50
Vinyl Cement Thinner 1 oz. bottle. Each.	2531				2.50
Zap Debonder Removes cured Super Glues from skin and work surfaces.	9292				4.99
Zap Flexy Tips For flow control and dry out prevention. 10 tips per bag.	9990	10			3.55
Zap Kicker Super glue accelerator with spray applicator. If you want your Zap product to dry instantly, just spray a small amount on the glue. 2 oz. bottle.	2512				7.25
Zap PT- 27 Gel Won't run or drip. Perfect for eyes. 3 grams.	7116				2.00
Zap Quick Set Epoxy Quick set formula, 5 minute epoxy in plunger pack. 1/2 oz.	9291			1/2 oz	4.75
Zap Silicone Tape A new item recently added to the Zap line. Versatile, easy to use product. Fuses to itself with no sticky residue, bond is permanent and waterproof. Resists saltwater and UV rays; is completely flexible. Seals wet or dry leaks. Great item for emergency repair of broken rods, waders and other gear while on the stream.	9030				10.00
Zap Z- Poxxy 30 Minute This is a clear drying epoxy for saltwater flies or freshwater flies. Won't yellow for months if the flies are properly stored. Easy to use.	2514				16.60
Zap Z-Poxy 15 Minute PT-35 Clear formula. Set time is 15 minutes. Tough permanent bond. Includes resin and hardener. 2 fl.oz. each, 4 fl.oz total.	8069				12.10
Zap-A-Gap 1/4 oz. bottle (PT-04) A quick drying glue for securing parts to flies, forming knots, leader-line connections and accessory repairs. Use Zap Kicker® to accelerate cure. Medium viscosity.	2506				4.00
Zap-A-Gap Brush On Medium viscosity. Has a brush for easy and more precise application. The brush on method eliminates the probability of using too much glue. Dries in approximately 15 seconds. 1/4 oz. bottle.	2633			1/4 oz	4.25
Zap-A-Gap PT-13 Handy brush cap for neat, quick and precise glue application. Perfect for fly tying, forming knots, leader-line connections and accessory repairs. 1/4 oz. bottle. Medium viscosity.	7118				4.25
Zap-A-Gap Single Use PT-105 Single-use Zap-A-Gap includes just the right amount of glue for one use. Each of the 5 tubes comes with a self-piercing, precision applicator tip. Medium CA+.	8070				5.00

Item Name	Part #	Pack	Color	Size	Price
-----------	--------	------	-------	------	-------

Adhesives, Glues, Head Cement, and Paint

Zap-A-Gap Thin Formula

This is the super penetrating formula. The manufacturer has 60+ formulas, and this is one of the thinnest. 1/4 ounce bottle. The Thin Formula Zap a Gap is the same formula that is in the Wapsi Brush on Z-ment. 2501 4.00

Zap-Goo

This is a fairly thick glue for securing eyes on wool or other synthetics. Does not run. Numerous other uses in fly tying and repairing broken objects around the house. Dries in 1-2 minutes. One ounce tube. 2507 4.50

Beads, Bar Bells, & Plastic, 3-D, and Flat Eyes

3D Big Fish Eyes - 1/2"

These eyes are for larger patterns. Available in silver and super pearl. 10151 18 1/2" 13mm 3.75

3D Big Fish Eyes - 3/8"

These eyes are for larger patterns. Available in silver. 10150 20 Silver 3/8" 4.55

3D Molded Stick on Eyes

These eyes have a slight tackiness on the back, but must be glued with Zap Glue or a similar product to have a solid hold on the fly head. Available in prism red, prism silver, prism orange, prism chartreuse, pearl white and abalone. 20 eyes per pack. Abalone and Orange are limited to current stock.

10152	20		3.5mm	3.50
10153	20		2.0mm	3.50
10154	20		3.0mm	3.50
10155	20		2.5mm	3.50
9031	20		5.0mm	3.50
9032	20		6.0mm	3.50

Anodized Cone Heads

For wooly buggers, muddlers, saltwater patterns etc. The colors are vivid and will not wear off or fade from the cone head even in saltwater. Available in red, pink, green, silver, blue, black, and yellow. Size 3/16" fits hook sizes 6-10.

10156	20		3/16"	3.75
10157	20		3/8"	3.75

Bead Chain

Bead chain is used for both fresh and saltwater pattern to add weight to the fly. Available in gold, black, silver. 18" per bag. To attach these eyes to the hook, use 50 or 75 denier gel spun thread along with some Wapsi Z-ment. Place a little Z-ment on the hook shank, wrap a small thread base where the eyes are to be placed. Build two small humps of thread leaving just enough space to place the bead chain between the thread humps. Figure 8 three or four firm thread wraps and then add a little more Z-ment to those wraps. Make a few more figure 8 wraps over the Z-ment and half hitch or whip finish the thread. Attach nylon or polyester thread of an appropriate denier to complete the fly.

10161			X-Small 5/64"	3.00
10162			Small 3/32"	3.00
10163			Medium 1/8"	3.00
10164			Large 5/32"	3.00
10165			X-Large 3/16"	3.00

Black Beads (for eyes) - 3mm

Half round Black eyes for deer hair mouse and sculpin patterns. Available in black, 225 per package. These eyes can be painted any color with spray paint. To install the eyes, use the Fly Tier's Hotpoint to burn 3mm holes in the deer hair. Brush out any burned hair with fine point scissors to create a clean socket. Place a small amount of Bond 527 glue in each socket and install the eyes. The easiest way to pick up the eye is to wet your index finger with a little saliva, press the finger onto the eye and it will adhere to the finger for easy placement in the socket. 10167 Black 3mm 1.25

Brite Beads

Designed exclusively for fly tiers using a two-diameter hole. Brite Beads represent the best balance among weight, silhouette, and hole diameter. For additional weight and to lick bead in place, tie on a few extra wraps of lead and push it up inside the larger hole at the rear of the bead. Will not tarnish. Available in 1/16", 5/64", 3/32", 7/64", 1/8", 5/32", 3/16", 7/32" and 1/4". Price varies by size.

10170	25	Black Nickel		3.70
10171	25	Gold		3.70
10172	25	Copper		3.70

Bug Collars

Bug collars are doughnut shaped beads that have a small cone on one side and a countersunk hole on the other. The cone side is designed to fit snugly behind most similarly sized or larger beads or cones. Colors: Fluorescent Chartreuse, Fluorescent Orange, Fluorescent Pink, Fluorescent Red, Fluorescent White.

7800	25		2.9mm	4.25
7801	25		2.5mm	4.25
7802	25		3.7mm	4.25

Clear Cure Real Eyes

Adhesive stick on eyes.

---	------	--	-------	-----	------

Edson Gold Metal Eyes

In the 1930s and 1940s Bill Edson was a well known fly tier, particularly for his streamer flies that were used in New England for brook trout and land locked salmon. He developed metal eyes to use in place of jungle cock, which was relatively expensive even in those days. Over a period of time customers insisted on having these eyes on any of his patterns which included those such as the Light Edson Tiger and Dark Edson Tiger. Edson flies are featured in Joe Bate's book "Fly Tying and Fishing Streamers". Package of 50 eyes.	10166	50			4.95
--	-------	----	--	--	------

Firefly Hot Head Beads

Imported from England. Use these soft and flexible beads for brightening the heads on nymphs. Available in fluorescent green, fluorescent red, fluorescent yellow, and fluorescent orange. 3mm for 10, 12, and 14 hooks.	10198			3mm	3.00

Fishing Small Flies (signed copy)					
Paperback by Ed Engel. Most small-fly books concentrate on the fly patterns, but presentation and tactics are just as important as the pattern itself. Small-fly fishers must carefully observe the trout and constantly adjust their techniques as they go. Engle covers the difficulty of detecting strikes and how to best play trout caught on small flies and gives advice on the aquatic insect orders and how to fish the hatches, depending on the water and the stage of the hatch. Covered too are special considerations for rods and reels for small-fly fishing and tactics for light tippetts. Engle describes fishing specific waters, including tailwaters, freestone rivers, and spring creeks.	450				29.95

Colors: Orange, Burnt Orange, Bleached Ginger, Gray, Brown, Rusty Brown, Olive, Black, Golden Stone, Golden Olive, Natural Brown, Dark Olive.	1179				14.55
Beaver Dub Rates with rabbit as an easy material to dub. About 50 or 60 years ago the theory was to use water based animals such as the beaver for dry flies, and land based animals for nymphs. That theory hasn't applied in at least 20 years. Beaver can be mixed with a small amount of synthetic dubbing to create a blend with just a bit of sparkle. A small coffee grinder is all that is required to make the blend. Colors: black, rust brown, natural (gray), caddis green, golden stone, ginger, rusty spinner, mahogany brown, sulfur orange, blue dun, Adam's gray, callibaetis, blue wing olive, amber, pale morning dun, dark tan, pale yellow, light Cahill, rusty brown, tan, olive. Per package.	1164				2.50

Fly Rite Extra Fine Poly Dubbing					
This is true polypropylene dubbing, not polyester. It has a density that is less than water and therefore floats. Easy to dub to a fine radius over thread that allows making a thin tapered body. This product has stood the test of time and remains a popular dubbing material both in the US and Europe. Colors: #2 black, #3 dark olive, #5 rust, #7 dark gray, #10 blue winged olive, #11 orange, #17 golden brown, #19 light tan, #20 dark tan, #22 light Cahill, #24 tiny blue wing olive, #29 western olive, #30 march brown, #32 rusty olive, #34 quill Gordon, #35 inchworm green, #38 pale watery tallow, #40 caddis pupa green, #41 pale olive, and #42 dark olive brown and #43 camel. Per package.	1223				3.00
Fly Rite Wallet Size Portfolio					
All 46 colors of Fly Rite dubbing in a large wallet size portfolio. In addition the colors are grouped together by shade and tint instead of color number for easy reference. Each.	1225				49.00
Fly Tying Wax Block					
Firmer less tacky wax.	1097				0.85

McLean's Velveteen Dry Fly Dubbing					
Avery fine dubbing, compares to Beaver and Super Fine Dubbing. It contains no guard hairs, dubs very easily, and is naturally extra clingy. Requires no wax with good dubbing technique. Velveteen dubs a slim body on tiny or medium size flies. Colors: insect green, sulfur orange, white, pale morning dun, medium brown, honey, salmon yellow, pale yellow, and red. Per package. NOTE: Availability limited to current stock,	1149				2.50
Mink Dubbing Dispenser					
12 color box.	9309				12.50
Miscellaneous - Dubbing					
	8022				
Mohair Plus Dubbing					
From Larva Lace, a long fibered dubbing with a bit of angel hair blended in. This is an ideal dubbing for use in a dubbing spinner and then combed out with a dubbing brush. Works very well on sculpin bodies. Also can be chopped up for a different look. Colors: black, B.C. brown, spectrum (light rusty brown), brown/olive, red and black. Other colors can be special ordered. Per package.	1127				2.50
Mohair Plus Dubbing Dispenser - Larva Lace					
Long fibered mohair blended with a small amount of Angel hair. Colors: BC brown, brown/olive, black/red, rusty brown, burgundy, black light olive, green olive, purple, red, damsel olive, and copper/black. Per 12 compartment box.	1123				16.75
Montana Fly Easy Dub (spooled)					
This material has actually been around for many years under the name Benecchi "New Dub." If you dread dubbing your flies that may be a partial answer to your concerns. It is a rope type material to wrap bodies that provides a natural dubbed appearance. The wrapped material has a slightly spikey appearance with just a hint of sparkle. To achieve a tapered look on dry flies, use a thread that lies flat such as Wapsi UTC 70 denier and build a slight tapered body before tying in the Easy Dub. This material can also be used on midge bodies as well as ribbing on nymphs. Colors: black, white, peacock, olive, brown, claret, light olive, gray, and light brown. Per 10 meter spool.	1111				3.25
Natural Fur Dubbing					
All natural un-dyed fur. Material includes: Beaver, Light Hares Mask, Dark Hares Mask, Mink, Squirrel Belly, Pine Squirrel, Australian Opossum, Coyote Mask, Gray Squirrel, Camel, Muskrat, Fox Squirrel. Per package.	1177				2.75
Natural Fur Dubbing Dispenser					
A collection of all natural fur dubbings. 100% pure. Materials: Olive Hares Mask, Dark Hare's Mask, Light Hares Mask, Pine Squirrel, Gray Squirrel, Fox Squirrel, Australian Opossum, Camel, Coyote Mask, Mink, Beaver, Muskrat.	9493				15.00
Nature's Spirit, Emergence Dubbing Dispenser					
12 compartment box with holes for easy removal of the dubbing. This is a fine, short fibered synthetic. Easy to dub and provides spikiness. Ideal for tying various emerger patterns. Colors: olive, gray/olive, brown/olive, rust, cream, muskrat gray, caddis green, PMD brown, callibaetis, tan, amber and pheasant tail. Per box.	1147				15.45
Nature's Spirit, Hare's Mask Dubbing Dispenser					
12 compartment box. Hare's mask blended with just a little sparkle synthetic dubbing. Colors: olive, brown, light olive, gray olive, brown olive, tannish yellow, muskrat gray, black, caddis green, natural, and bleached ginger. Per box.	1189				15.90
Polar Dub Dispenser					
A long fiber soft synthetic dubbing with moderate sparkle. Very easy to dub or use in a dubbing loop. Colors: black, olive/dun, caddis green, dark tan, olive, rust, brown, yellow, olive/brown, chartreuse, red, light olive. Per 12 color box.	1125				16.00

Item Name	Part #	Pack	Color	Size	Price
Dubbing					
Prism Dub					
An easy to dub synthetic sparkle dub. Colors: peacock, orange, black, bright yellow, olive, hares ear, electric blue, chocolate brown, fluorescent yellow, and pearl. Other colors can be special ordered. Per package.	1151				2.50
Prism/SLF Dubbing Dispenser #2					
This is 100 % synthetic dubbing similar to Ice Dub. Colors: clear, ice pearl, shrimp pink, electric blue, hot purple, charcoal, sand, bright yellow, amber, red, rusty brown, brown olive. Per box.	1162				14.25
Prism/SLF Dubbing Dispenser #1					
A synthetic that is similar to Ice Dub. Very easy to dub and no dubbing wax required. Colors: Cream, Burnt Orange, Light Gray, Tan, Light Olive, Caddis Green, Olive, Black, Chocolate Brown, Peacock, Hares Ear, Pearl.	1160				14.55
Quick Descent Dubbing					
This is a very fine metal dubbing almost like steel wool. It can be used in a dubbing loop to create a beautiful head on a streamer, or mix it with Woolhead dubbing and/or deer hair for muddler and sculpin heads. Another use is to chop it up into fine pieces and blend it with rabbit, mink, beaver, or other natural fur. Does not absorb water and adds a little extra weight to the fly. Color: olive, caddis green, dark olive, rust, golden orange, silver, copper, pale olive, gray, light olive, and red. Note: The golden orange color has been dropped by Hareline Dubbin so availability is limited to a few packages in inventory.	1070				2.00
Renee Harrop Professional Dubbing					
This is a fine synthetic dubbing that is especially appropriate for dry flies in the size 10 to 22 range. It has long, very fine strands, and can be pulled directly from the package in minute amounts for use on thread sizes of 70 denier and smaller. Colors: Adams gray, brown olive, PMD, white, black, mahogany, pink Albert (pale pink), pale yellow, orange, Hendrickson, caddis green, brown, dark honey, callibaetis, trico, yellow, amber, light olive, gray olive, sulphur orange, olive, and light cahill. Per package. The majority of the colors listed are from the "Professional Series" Fine Natural Dubbing, and there are few colors from the "Fine and Natural " Dubbing Series that has been discontinued by Renee Harrop.	1155				3.50
Salmo Supreme Dubbing Dispenser - Larva lace					
Inspired by Salmon fly tiers in Norway and Sweden. Blend of Angel Hair and tri-lobal nylon fibers. This combination gives Salmo Supreme a sprackle, while being slightly course to create an excellent spiky or buggy effect when you dub it. 12 Colors: Hot Pink, Purple, Silver Gray, Midnight Black, Hot Yellow, Kingfisher Blue, Pheasant Crest, Fiery Brown, Hot Lime, Fiery Orange, Fiery Red, Rainbow.	9314				16.75
Senyo's Laser Dub					
Customer blend mix developed by Greg Senyo from Holland, Ohio and Hareline Dubbin. Use for wings, collars, dubbed bodies, or veiled- wool style heads, and in dubbing loops. It is a mix of Ice Dub and 3/4" to 1" acrylic staple fiber. Use for salmon and steelhead patterns. Colors: brown, black, gray, white, tan, sculpin olive, rusty bronze, purple, dark tan, silver minnow belly, olive, yellow, red, shrimp pink, fluorescent chartreuse, fluorescent hot orange, green chartreuse, light olive, and hot pink.	1145				2.65
Senyo's Laser Dub Dispenser					
Use as a dubbing, or swept back streamer collar, or head on steelhead and salmon flies. All 12 colors in a dubbing dispense box. Colors: Black, Brown, Fluorescent Blue, Fluorescent Chartreuse, Fluorescent Fuchsia, Fluorescent Hot Orange, Grey, Hot Pink, Olive, Purple, Tan, White. Per box.	1143				19.95
Senyo's Shaggy Dub					
Micro size Life Flex that can be mixed in with any dubbing or used as is. Inserting Shaggy Dub in a dubbing loop is the best method for working with this product. You will end up with crazy buggy flies. Colors: Black, Gray, Hot Orange, Hot Pink, Olive, Pheasant Tail Brown, Purple, Red.	7806				2.65
SLF Master Class Dubbing					
Featured in Oliver Edward's book "Fly Tyer's Masterclass." River & Stream. Colors: BAETIS: 1 brown olive, 2 green olive, 3 yellow olive, 4 dark iron blue, and 5 pale watery HEPTAGENIA sulphurea nymph 6 yellow may, 7 sulfur dun& emergers (yellow may) EPHEMERELLA, 8 cinnamon sedge ISOPERLA, 12 yellow sally PERLA, 13 large stone flies GAMMAROUS PULEX 14 shrimp watery olive, and 15 shrimp breeding orange, sand fly, dark yellow mayfly Per package. Wapsi special packages these for our shop. They are no longer offered in individual packages in their wholesale catalog.	1101				3.50
	1103				3.50

Use lead tape on the shank of the hook and Woolhead for the body. Absorbs water and will help get the fly down. Colors: black, brown, brownish tan, coral pink, gray, olive, olive brown, tan, and white. Per package.	1129				2.00

DVDs

A Conversation with Flip and Lefty by Flip Pallot and Lefty Kreh	5683				29.95
A River Runs Through it This is the deluxe edition of the 1992 Oscar winning movie. The DVD is fully remastered for the best picture ever. It also contains a 32 page scrapbook packed with never before seen production photos, new essays, behind the scenes stories from the film and much more.	494				21.95
Advanced Art of Fly Casting by Chico Fernandez	571				29.95
Advanced Classic Wet Flies with Don Bastian. Don is the master of tying the traditional classic wet flies that were popularized by Ray Bergman. This DVD is a follow up to his first DVD "Classic Wet Flies." The patterns demonstrated are more difficult than basic traditional wet flies. He demonstrates a new method for marrying wings which eliminates confusion and difficulty often associated with handling wing quills and tail snips. Running time 1 hour 50 minutes.	626				24.95
Advanced Hair Trout Flies with Chris Helm This is the updated version of the earlier production "Hair Trout Flies." Also included in this DVD is an overview of hackle, the parts of the bird, the parts of the correct terminology for feather parts, etc. The flies demonstrated include a thorough explanation of the correct material, thread, and anything else that makes flying the fly simpler. Patterns demonstrated include: Muddler Minnow, Black Nose Dace, Comparadun, Irresistible, Elk Hair Caddis, and Humpy. Running time 1 hour, 56 minutes.	606				24.95
Advanced Streamer Fishing With Kelly Gallop Angling action from the Wind, Madison and South Fork of the Snake Rivers. Chapters: Streamer Thinking, Old School, Articulation, Jigging Streamers, Gear & Good-Bye. Kelly demonstrates both dry and sinking line presentations. 90 Minutes. Shot in HD.	3699				29.95
Advanced Tactics For Emergers & Dries With Rich Hafele & John Smeraglio Learn about emergence behavior of mayflies, stoneflies, caddisflies, and midges. All patterns for fishing the surface and subsurface, tactics for key stages of major insect types, presentation methods for picky trout, how to select the right patterns. 2 DVD Set. 1 hour 63 minutes.	3704				29.95
All About Hair with Chris Helm This is the complete video on working with hair including all the important information about deer hair that a beginner should understand. In addition to the tying sequence which incorporates all the techniques into one bass bug, the thread, tools, hooks, and other materials essential to tying hair bugs is explained. Running time 1 hour 23 minutes.	604				24.95
Andy Burk's World of Fly Tying Vol. 1 Andy ties nine excellent patterns including the two-tone Hunchback, Jiggravator, the H.B.I., the Sno-Chute, the Aggravator, the Bottom roller, the Mayfly roller, the Tiger Leech and Chameleon Nymph.	484				29.95
Articulated Streamers by Kelly Galloup	7011				24.95
Basic Fly Tying (DVD) With Martin Nolte. This two DVD package covers those patterns that are in the Stackpole book by the same name. Covers seven of the most popular patterns of all time. Running time 138 minutes.	466				34.95
Basic Saltwater Fly Tying	5673				24.95

Item Name	Part #	Pack	Color	Size	Price
DVDs					
Beyond the Basics a Hooked on Fly Tying Video					
This is an overview on more advances techniques for still water and streams, reading the water, casting skills, and entomology. Running time 1 hour and 30 minutes.	573				19.95

Cool Flies for Hot Fish					
Effective patterns for Great Lakes Steelhead with Jerry Darkes and Brian Flechsig present a variety of simple to tie egg and attractor patterns. Patterns covered include flash bugger, egg fly, egg cluster, and sparrow nymph. Running time 1 hour.	582				29.95
Czech Nymph (DVD)					
Join Johan Klingberg in his exciting sessions with some of the world's best nymph fishermen. Shows the Czech national team fishermen up close as they reveal their methods that were for a long time kept secret.	3710				25.00
Dave Whitlock DVD Series: Volume I					
Tying the Dave's hopper and the Whit hopper. In addition to tying instructions Dave shows how to fish these flies and what a real hopper looks like in the water.	584				24.95
Dave Whitlock DVD Series: Volume II					
Tying the Matuka Sculpin. Covered in this video is the history behind the fly, specific materials necessary to tie the pattern, detailed demonstration on tying this fly, and how to fish it.	586				24.95
Dave Whitlock DVD Series: Volume III					
Tying the Red Fox squirrel Nymph. Why and how he originated the Squirrel Tail Nymph that Dave considers his most versatile fly. A complete background on the origin of the pattern, how it is tied, and where and how to fish the pattern. Emphasis is placed on where fish are most likely to feed on them.	588				24.95

Item Name	Part #	Pack	Color	Size	Price
DVDs					
Dave Whitlock DVD Series: Volume IV					
Tying the Sheep Minnow Series. Dave describes how he developed his best minnow pattern for still and moving water. Materials are completely described along with detailed instructions on tying this versatile pattern. He also describes how to cast a strip, and strike this effective minnow pattern.	590				24.95
Dave Whitlock DVD Series: Volume V					
Tying the Near Nuff Sculpin and Near Nuff Crayfish. An overview of the history of both of these patterns, the correct materials required, and a detailed description on how they are tied. Also provided is on the water instruction on how to cast and present both patterns.	592				24.95
Dee Strip Wings Flies					
by Harry Lemire	7006				24.95
Deer Hair Bass Bugs with Chris Helm					
The first pattern is a top water flat faced popper. The Spinning and Stacking of deer hair are featured in this video. The body of the fly is spun except for the red band made by a very old process that Chris refers to as a Split Hair technique. Chris demonstrates how to tie in the weed guard round rubber legs flesh material hackle tails and a skirt. The techniques for trimming and proportioning symmetrical bugs are clearly shown. Chris also ties a sunfish pattern emphasizing hair stacking as well as building a body of marabou. Run time 60 mins.	551				24.95
Designing & Tying Saltwater Flies					
with D.L. Goddard. This is a comprehensive look at tying flies that take little time to tie and yet are extremely effective in representing the prey of saltwater fish. Patterns demonstrated include D.L.'s Mantis Fly, D.L.'s Pulsator, D.L.'s Glass Minnow, D.L.'s Mylar Minnow, D.L.'s Firecracker. Running time 1 hour 20 minutes.	638				24.95
Discoveries America - Ohio					
	5667				24.95
Drift					
By Confluence Film Production. This film covers fishing in Oregon, Utah, Colorado, Montana, Belize, The Bahamas and Kashmir, India. It takes you across the big flats of Belize and the Bahamas, down the tail waters of the Green, Frying Pan and Big Horn, spey casting the Deschutes, and exploring the exotic rivers of Kashmir, India. Running time 65 minutes.	482				24.95
Durable Parachutes					
with Julie Nielsen. Learn the techniques to tie effective parachutes that land upright, ride low in the water, float like a cork all in a manner that will increase your tying speed. Techniques emphasized include making a solid post and tying in the hackle that wont pull free, fish after fish. Patterns include Robert's Yellow Drake, Trico, Foam Post Spinner, Two-Tone PMD, and Adams. Running time 1 hour 5 minutes.	646				24.95
Dynamics of Fly Casting					
by Joan Wulff	5664				24.95
Essential Patterns with Oliver Edwards Vol 1. Quick Ties and Favorite Flies					
This DVD is designed more for the beginning to intermediate tyer. As the title implies, these patterns are easier and quicker to tie than Oliver has done on most of his other videos/DVDs. The camera work and the close ups are top notch. Flies include CDC Dun, Semi Circle Spinner, Bubble Wing Caddis, Velis Fluttering Willow Fly, Griffith's Gnat, See Thru Buzzer, Plaited Abdomen Damsel Fly, "F" Fly, Foam Ant, and the Bibio Hopper. Running time is 2 hours and 52 minutes. Suggested retail \$47.71.	518				39.95

Hackle (Whiting)

American Hen Capes The feathers from the hen cape of the Whiting Farms American Hackle are some of the most broadly versatile tying feathers available. They have a greater density of web than any other hen hackle and typically the roundest tips. In addition the feathers are both long and broad with a more substantial quill. These characteristics are applicable to a myriad of fly tying realms, including: Trout Flies: Dry fly wings, caddis wings, spinner wings, trico and thorax wings. Wet: nymphs, wing cases, tailing and legs for stone flies, caddis flies, mayflies and attractors, pectoral fins for matuka and sculpin flies. Salmon and Steelhead Flies: whole feather wings, body veiling, collars, palmered hackle, throats and sides. Bass Flies: popper legs, crawdad and crab claws, divers, sculpins	8059				25.00
American Hen Capes - Black Laced White The feathers from the hen cape of the Whiting Farms American Hackle are some of the most broadly versatile tying feathers available. They have a greater density of web than any other hen hackle and typically the roundest tips. In addition the feathers are both long and broad with a more substantial quill. These characteristics are applicable to a myriad of fly tying realms, including: Trout Flies: Dry fly wings, caddis wings, spinner wings, trico and thorax wings. Wet: nymphs, wing cases, tailing and legs for stone flies, caddis flies, mayflies and attractors, pectoral fins for matuka and sculpin flies. Salmon and Steelhead Flies: whole feather wings, body veiling, collars, palmered hackle, throats and sides. Bass Flies: popper legs, crawdad and crab claws, divers, sculpins. (Whiting) \$30.00	3022				30.00
American Hen Saddle Exceptionally good and sometimes unique tying feathers. They have a greater density of web than any other type of hen saddle, creating an almost velvety texture with a solid silhouette. The generous breadth and length of the feathers provides greater size and density for those flies that demand it. Yet quill is not overly large or stiff, and along with only modest taper, allows easy wrapping. Available in an array of natural and dyed colors and black laced white natural or dyed. Applications include Salmon and Steelhead flies, Streamers, Skirts and tails on poppers, Matuka and Sculpin flies, Atlantic Salmon flies, Saltwater flies. Use wherever collars, legs, wings, or beards are componets fo a fly pattern.	8062				20.00
American Hen Saddle Black Laced Exceptionally good and sometimes unique tying feathers. They have a greater density of web than any other type of hen saddle, creating an almost velvety texture with a solid silhouette. The generous breadth and length of the feathers provides greater size and density for those flies that demand it. Yet quill is not overly large or stiff, and along with only modest taper, allows easy wrapping. Available in an array of natural and dyed colors and black laced white natural or dyed. Applications include Salmon and Steelhead flies, Streamers, Skirts and tails on poppers, Matuka and Sculpin flies, Atlantic Salmon flies, Saltwater flies. Use wherever collars, legs, wings, or beards are componets fo a fly pattern.	8061				30.00
American Hen Soft Hackle with Chickabou Chickabou is short for chicken marabou and "soft hackle" flank feathers. Can be used for a wide variety of patterns to provide a terrific amount of action. Use for Soft hackle collars, size 10-2, Marabou wrapped hackle collars, soft hackle sections at thorax of Dragon flies, Marabou tails, soft hackle for Salmon and Steelhead flies, complete Marabou bodied flies for Bass and Pan Fish, collars on Salt Water patterns. Articulated Wiggle-Shank for Trout Flies

A Nymph Head product. An easy way to tie an articulated "wiggle-tail" or rear body section on various trout flies in the #6 to #18 hook size range. This innovative product eliminates the need to "sacrifice a hook" to get a shank. By design the shank can be bent if a curved tail is desired on the fly, and the long shank is easily trimmed to the tail length needed to match the size of fly you are tying.

9003	20				3.55
------	----	--	--	--	------

Articulated Wiggle-Shank, Nymph Head

For trout flies in the #6 to #18 hook size range. An easy way to tie an articulated "wiggle-tail" or rear body section. This innovative product eliminates the need to "sacrifice a hook" to get a shank. By design the shank can be bent if a curved tail is desired on the fly, and the long shank is easily trimmed to the tail length needed to match the size of fly you are tying. The wire is thin enough to tie articulated flies as small as a #18 and even light enough for dry flies.

9489	20				3.30
------	----	--	--	--	------

Brooch Pins

Bright gold salmon style hook pins with a moveable pin clip to attach to a hat or coat. Decorative flies can be tied for a hat or coat, or used as a boutonniere for wedding grooms. Point has a gold bead attached to avoid any pokes. Size 1 only. Per pin.

Hook Box, Pro Model 20					
20 compartments to conveniently store hooks, beads, or plastic eyes. Each compartment has its own outside lip so the hooks or beads drop into your hand into the next compartments. Curved bottom for easy hook removal. Inside of cover has insert on which to write hook model and size. Per box.	2487				8.55
Hook Box, Spirit River Pro Compartment					
Each hook box compartment has a curved bottom on the front side to easily slide a hook up the side of the compartment. These clear plastic boxes have perfect lid sealing assuring that hooks do not drift or slide into another compartment. One flip top lid on each side with easy snap releases. Available in 10 or 20 compartments.	2497				4.50

Partridge of Redditch Q - Double Low Water Double low water salmon hook. Black finish. Up eye. Sizes 2, 4, 6, 8, 10 and 12. Per package of 10. For medium weight salmon and steelhead patterns.	3555	10			11.20
Partridge of Redditch SALAR CS14T/1S Salmon Tube Single Salmon Tube Single by Mikael Frodin. Modified Bartleet bend, short shank, beaked-point, perfectly tapered eye. Ideal for contemporary salmon, sea trout and steel head patterns. Sizes 3, 5, 9 and 11. Package of 10.	7074				8.00
Partridge of Redditch SLD 2 XF Short Barbless Dry Fly Hook Surehold barbless dry fly hooks. Black nickel finish. Sizes 10, 12, 14, 16, 18, 20. Per package of 25. Designed for lightweight dry flies. The barbless design coupled with the up curved point and down turned eye ensures superb penetration and positive hook holds. This is an excellent hook for trout and grayling standard dry fly and emerger patterns. The shank length would be equivalent to a 1 xs in most Japanese models. The perfect hook for Al Troth's elk hair caddis fly.	3557	25			6.95
Partridge of Redditch SUD Surehold Upwing Dry Fly hook, Barbless Surehold upwing dry fly hook, barbless flash point. Black nickel finish. Sizes 8, 10, 12, 14, 16, 18, 20. Per package of 25. Has a straight spear toward the point. In general British style hooks tend to have a slightly shorter shank than Mustad and all the Japanese hooks. The SUD is what the British refer to as a "long front" hook. The shank length is the same as the standard dry fly hooks of the other hook manufacturers.	3559	25			6.95
Partridge of Redditch Universal Predator Hook CS 86 Black Nickel / Straight Eye. Wide gape, micro-barbed, strong predator hook for all freshwater, estuary and saltwater applications. Sizes: 4/0, 2/0, 1/0, 1, 2, 4, 6. Per package of 10. Price varies by size.	5464				7.25
Partridge of Redditch Universal Predator Hook CS 86X Black Nickel / Straight -Eye. Wide gape, micro-barbed, heavy weight, extra strong predator hook for all freshwater, estuary, and saltwater applications. Sizes: 8/0, 6/0, 4/0, 3/0, 2/0, 1/0. Price varies by size.	5594	10			7.00
Partridge of Redditch V1B Double Waddington Shanks Double Waddington shanks. Black finish. Sizes 15mm, 20mm, 25mm, 35mm, 45mm, 55mm. Per package of 25. In England and Scotland as well as several of the Scandinavian countries these shanks have been popular for many years for Atlantic salmon and sea trout patterns. A straight eye single, double, or treble hook can be attached for fishing. They can also can be used for Intruder flies with a single straight eye trailing hook.	3565	25			7.00
Partridge of Redditch X1 OutPoint Treble Outpoint treble. Bronze or Black finish. Sizes 1, 2, 4, 6, 8, 10, 12. Per package of 10,	3567	10			11.20

Item Name	Part #	Pack	Color	Size	Price

Leader & Tippet Material

Anchor Lead Double-Cut Round Camo Dispensers Anchor Split Shot is a patented double cut design. They are easy to remove and reuse, hang centrally, cast smoothly, tangle free and super soft. Grips the most delicate Tippet. 4 sizes per dispenser.	1972				7.50
Angler's Image Ultra Thin Fly Boxes 77 Slits hold micro to medium sized flies. The ideal small midge box.	1588			4.5" L x 3" W x	7.95
Beartooth Braided 'Splice Loops' with Heat Shrink Ideal for connecting leaders to fly lines.	2722	3	Clear		5.00
Climax Polytaper - 6 Ft. Trout Sinking Leader Has built in loops available in 6 foot lengths. Sink rate 3 inches per second.	2691			3 ips	7.95
	2967			6 ips	7.95
Climax Polytaper - 8.5' Saltwater/Bass/Steelhead Leader Designed to turn over level tippet between 4 pound and 16 pound tippet. Use loop to loop connection. Length 8 1/2 feet. Specify type 3 (ips) or type 6 (ips). Each.	2693			Type 6	7.95
	5609			Type 3	7.95
Cortland LLC Vinyl Coated Lead Core Shooting Line This material can be cut to any length for shooting heads, sink-tips, or sinking leaders to match the line and rod that you are using. Gray color. 30 feet.	2679				17.95
Cortland Micron Fly Line Backing	7121		White		6.95
Cortland Mini Head Kit This kit allows you to custom build mini sinking heads to use with floating line. The kit includes a 12 foot piece of sinking line and braided loop connectors instructions included. Sink rates available include 3 and 9 inches per second.	2681				13.95
Dai Riki Knotless Tapered Leader	2720	1			4.95
Deep Blue Leader - Bonefish/Permit Tapered Frog Hair technology for Salt Water Big Game. Stiff Butt.	5268				5.95
Deep Blue Leaders - Dual Tapered Tarpon Frog Hair technology for Salt Water and Big Game Fish	5266				9.95
Deep Blue Tippet - Saltwater/Big Game Frog Hair product for saltwater fishing and also for largemouth bass, pike, lake trout, large trout such as the big brook trout of Canada. It knots beautifully and has a medium stiffness ideal for casting larger patterns, but it works well with a size 6 bonefish fly.	2677				7.95
Frog Hair - Bass Leaders Frog Hair tippet and leader material is superior because the material is subjected to Black Knight Industries' proprietary process. The process produces a material that offers exacting tolerances, super high tensile and knot strength and up to two times the suppleness and shock resistance when compared to all other brands of tippet and leader materials. For the angler, Frog Hair provides a more natural presentation with more hook-ups and a line that generates maximum fish fighting capabilities. Frog Hair products are truly a new competitive advantage. Our specially designed bass leader is engineered for powerful turnover of large poppers and flies.	2675				5.95
Frog Hair - Dual Tapered Muskie Leader Continuous, dual-tapered knotless design with a heavy, pre-looped stiff butt for maximum turnover. Mid class section for tackle protection and bite section that is abrasion resistant.	2686			9.5' 20# .035"	9.95
Frog Hair - Great Lakes Steelhead Leaders Formulated and designed to meet the demands required when dead-drift fishing the Great Lake tributaries.	2673				5.95
Frog Hair Leader - Stiff Butt Heavier, stiffer butt, ultra supple tippet, superior knot strength, incredible toughness, built-in shock resistance.	2671				5.95
Frog Hair -Supple Butt Leaders Extra supple butt section provides for tighter loops, superior knot strength, incredible toughness, built-in shock resistance, includes perfection loop.	2658				5.95
Frog Hair Tippet Frog Hair Tippet provides a more natural presentation, creates more hook-ups and provides maximum fish fighting capabilities for the angler. Super high tenacity mono, highest strength to diameter, built-in shock resistance, superior knot strength, ultra supple, exacting tolerances perfected, true competitive advantage	2669				7.95

Bug Partz - Mayfly Molded from durable silicon rubber, realistic and easy to tie.	9386	4			4.25
Bug Partz - Stonefly Molded from durable silicone rubber, realistic and easy to tie.	9387	4			4.25
Buggy Nymph Yarn A narrow twisted, bicolor yarn with small protruding filaments for nymph bodies. With a single wrap of this material it is well suited to hook sizes 10-14. May be double wrapped for larger size patterns. Colors: green olive, crawdad orange, golden yellow, black gnat, winter gray, rusty red. Approximately 25 ft.per card.	1237				1.25
Bugskin Larval Lace product. Strong yet flexible. It reacts to the slightest pressure from your tying thread securing firmly to your flies, The hundreds of microscopic spaces among the fibers allow it to "breathe" permitting the absorption and evaporation of moisture. This means when a "Bugskin" fly enters the water it absorbs and becomes more alive. It will create its own water weight for a natural drift. Even the texture and touch of the material is alluring to fish. Colors" Black, Brown	7168				5.35
Bumblebee/Wasp Bodies Yellow and black foam for bumble bee or bodies. Complete instructions in every package. Body widths 1/8", 3/16", 1/4", and 3/8".	1306	6			3.85
Cactus Chenille A bright nylon material extending out at a 90 degree angle from the core. It is used in the same fashion as standard chenille. The material extends 1/4" from the core. Colors: pearl, red, pink, hot orange, bright green, fuchsia, purple, yellow, chartreuse, peachy flesh, root beer, black, olive. 3 yard package.	1258			Large	3.90
Caster's Squirmito - Squiggly Worm The original squiggly worm material. Colors: Black, Glow in the Dark, Bright Red, Clear White.	7803	20			4.25
Centipede Legs - Montana Fly Company Round rubber strands approximately 12" long. Sizes: Mini, Small, Medium. Colors: Brown, Olive, Orange, Pink, Purple, tan, White, Yellow.	2039				3.00
Centipede Legs Speckled This round rubber has two colors banded throughout the length of the material. The primary color band is about 1/8" wide and the black band is 1/16" wide. The material is bundled with thread in the center to eliminate kinking. The legs can be used for X Stimulators, Parachute Madame X, Speckled Double Bead Stone Flies, Permit Crabs, and numerous Bonefish flies. Each piece is 6" long and there are approximately 40 pieces in each bag. All of the colors have a speckled 1/16" long black band. Primary colors: brown, chartreuse, gray, olive, olive/yellow, orange, tan, purple, pink, white, yellow, red/yellow/black. Thickness .025 in. Per package	1372 1374 1376			Medium Small Mini	3.60 3.60 3.60

Leg Material, Chenille, Foam & Body Material

Chadwick's 477 Yarn					
Imported from England. This is a close replica to the original yarn used by Frank Sawyer for the killer bug. It is a two ply yarn in a pinky-beige color. This pattern is a very basic pattern of only yarn and wire.	1268				4.00
Chenille					
Medium solid color chenille in Orange, Dun, Olive or Yellow. 3 yards per card.	9967			Medium	2.50
	9984			Small 1/8"	2.00
	9985			Large 1/4"	2.00
Crazy Legs					
Silicone skirting that is used in many fly patterns for both fresh and saltwater. Colors: Pearl, Silver Flake, Green Pumpkin, Gold Glitter.	1373	5			3.00
Crazy Legs - Barred and Speckled					
The barring and speckling gives a more natural looking fly. Colors: Bonefish Tan, Pumpkin, Gold Glitter Barred.	1371				2.95
Crosslink Sheet Foam (Rainy's)					
3 1/2" x 6 1/2" sheet. Colors: Golden yellow, white, olive, dark olive, chartreuse, insect brown, tan, black, yellow, cinnamon, gray, orange, cream, blue, brown, red.	1278			2mm	3.40
	1280			3mm	3.40
	1282			4mm	3.40
	1284			6mm	3.40
	1286			.5mm	3.40
	1287			1mm	3.40
Crystal Antron Chenille					
A dense Antron body chenille with mini crystal flash woven throughout. Creates a very neat, uniform body for buggers and nymphs etc. Colors: black, white, dark olive, light olive, yellow, red, chartreuse, medium brown, purple, fluorescent insect green, fluorescent fire orange, chocolate brown. Per 3 yards.	1247			2mm Small	2.45
	1251			6mm Medium	2.50
Crystal Egg Balls					
These are designed to eliminate making egg flies. Slide the hook point through the middle of the ball on to a thread base. Use these for standard egg flies or egg sucking leeches. These have crystal material extending from the ball. Medium size. Colors: flame, chartreuse, cheddar cheese, and bubble gum pink. 12 eggs per package. Limited to current stock.	1594				4.00
Daddy Legs, Pheasant Tail					
Double knotted for Daddies.	9485		Natural		3.95
Daddy Legs, Pheasant Tail - Knotted on Quill					
Knotted center tail piece, with each fiber double-knotted (daddy legs). Colors: Red, Natural and Orange	9483				6.75
Damsel and Dragonfly Bodies					
Use this for the extended bodies on these patterns. Color: White/Cinnamon Barred. Sizes: 1/8", 3/64", 3/16".	1311		White/Cinnamon Barre		3.45
	1312		Damsel Fly Blue		3.45
Damsel Fly Bodies - 1/16"					
Woven nylon over zlon stranded body, 1 1/2" - 1 3/4" lengths. Easily colored to shade if desired. Attaches to hook easily for building damsel flies. Colors: yellow, blue and olive.	9399	10		1 1/2" - 1 3/4"	4.00
Damsel Fly Body Material					
Extra small, 1/16 inch diameter, woven mylar tubing for bodies size 12 or smaller. 18" per package.	9398		Damsel Fly Blue		2.00
Dancing Legs					
This silicone leg material is round and considerably stronger reducing the probability of cutting with thread pressure. Available in fine and medium. Fine is for terrestrials and smaller trout flies, and the medium for bass bugs. Colors: tan/orange, white/silver flake, black/blue, chartreuse/gold. About 24 strands six inches long.	5276			Fine	2.50
	5277			Medium	2.50
Danville Speckled Crystal Chenille					
A pearly, multicolored synthetic chenille with fibers just a bit shorter than Estaz. Colors: Pearl/Black/Red, Pearl/Black/Yellow, Pearl/Green. Pearl/Black/Rust, Pearl/Black/Olive, Pearl/Black/Peacock	9962			Medium - 4 yar	2.50
	9963		Pearl/White	Large -4 yards	2.50
	9964			Small - 4 yards	2.50
Diver Heads, Rainy's Foam

Leg Material, Chenille, Foam & Body Material

Fly Tails					
These are "curly tails" similar to the rubber tails used on lead head jigs. These add action to bass and saltwater flies. Made with silicone. This material does not harm fly boxes. They do make some noise when casting, but are very effective in the water. Colors: olive/black, yellow, pumpkin/black flake, orange/pearl/silver, black, white/silver flake, pumpkin/orange/black, chartreuse/silver flake. Size small. Suited to a size 6 or 8 2xl nymph hook.	4708			Small	3.00
Fly Yarn Glo Bug					
Burnt Orange and Flame. 10 Yards.	5627				2.50
Foam Bug Bodies - Ant #10					
Individually sized and cut foam bodies. Colors: Black and White. Can be custom colored.	9393	24		Ant #10	1.75
Foam Bug Bodies - Ant #6					
Individually sized and cut foam bodies. Colors: Black and White (for custom coloring).	9395	12		Ant #6	2.10
Foam Bug Bodies - Ant #8					
Individually sized and cut foam bodies. Colors: Black and White (for custom coloring).	9394	18		Ant #8	2.10
Foam Bug Bodies - Spider #10					
Individually sized and cut foam bodies. Colors: Black and White (for custom coloring).	9397	24		Spider #10	2.10
Foam Bug Bodies - Spider #12					
Individually sized and cut foam bodies. Colors: Black and White (for custom coloring).	9396	24		Spider #12	1.75
Foam Cylinders for Hoppers & Small Flies - 1/16"					
High density foam cylinders to tie naturally high floating hoppers and extended body flies. Can be sanded. Color in stock is Gray. Special Order: White, Yellow, Orange, Tan, Brown, Red, Blue, Olive, Black, Chartreuse.	9389	10	Gray	1.75mm 1/16"	2.50

Makes tying ant bodies quick and easy. Red or Orange tip on foam. 10 per package	1304	10		1/16"	4.25
	1307	10		1/8"	4.25
Hi Viz Ant Bodies - Sizes 10 -20					
Makes tying ant bodies quick and easy.	1309	18	Black Yellow		4.25
High Tack Embossed Minnow Foam					
For the "crease" fly and other similar minnow bodies. Two millimeters thick. Package contains two 3" x 4" sheets. Colors: white, olive, and black (pearl green/ rust blend). Per package.	1294				3.25
Hopper Legs					
From Shane Stalcup. Colors: black, orange, tan. 12 pairs per bag. Limited to current stock.	1384				6.00
Hopper Legs, Knotted Rainy's					
	5604	18			4.60
Hopper Legs, Legs-On-A-Stick					
Montana Fly Company product. Pheasant feathers knotted to form hopper legs. Colors: Black, Natural, Yellow.	9481				5.00
Hopper Legs, Pheasant Tail					
50 pre-knotted tail fibers, single knotted for Hoppers.	9484		Natural		3.95
Hopper Legs, Realistic					
Phasant feather knotted to form realistic looking hopper legs.	9482		Black		2.75
Hopper Legs, T.N.T.					
Realistic legs are molded from actual hopper legs, and they float! Colors: Cream, Yellow, Tan, Brown, Olive, Black, Fluorescent Chartreuse. 12 pair per package.	9491				3.75
Hot Tip Tenacles					
Montana Fly product. Colors: Yellow/Orange, Yellow/Olive, Red/Black.	1377			Large	3.00
Ice Chenille					
Similar to Estaz and Cactus Chenille but with shorter fibers. Ideal for small hook patterns. Pearl can be easily dyed with Rit dye or a prismatic marker. Colors: Black, Fiery Orange, Yellow, Olive, Pearl, Red. Approximately 10 ft. per package.	1536			Large	3.35
Jay Fair's Long Schuck Sparkle Chenille					
A "cactus chenille" type of material in some wonderful colors. One technique is to cut the material shorter and it gives a case caddis look to a bonefish fly. Colors: Glimmer medium olive, glimmer pink, glimmer chartreuse, glimmer red, glimmer orange, glimmer pearlescent, leech brown, gold, peacock, burnt orange, rust, black and brown/olive. Per package.	1256				3.75
Kreel Claws					
Made of a specially formulated material that will move naturally in water but will retain its softness after repeated wettings. Precisley cut to perserve balance for crawfish, shrimp, patterns, as well as tails on popping bugs. Colors: Black, White, Tan, Olive, Brown.	9380	10			2.50
Krystal Flash Chenille					
The fibers radiating from the core are the same material as Krystal Flash. The material is slightly twisted. The length of each fiber is 7/32". Colors: black, blood red, brown, olive, pearl, pumpkin, bonefish pink, bonefish tan, rusty brown, peacock, steelie blue, yellow, chartreuse. Per 3 yard bag.	1249				3.90
Leech Yarn Mohair					
Also called Canadian Mohair. Long Angora hair twisted into a yarn. Breathable fibers are best used for streamers and hair nymph bodies. Colors: Dark Olive, Rusty Brown, Olive, Sculpin Olive, Maroon, Red, Canadian Leech, Black, Brown Mohair, Tan.	1561				2.00
Lizard Legs					
Cascade Crest product. Unique for rubber leg hackle. There is a base color, one side has a bar of one color and the opposite side barring is a third color. Blue/Black/Silver, Black/FI. Lime/FI. Yellow, Black/Silver/Orange, Tan/FI. Lime/Orange, Brown/Gold/FI. Lime.	1369				3.75
Loco Foam					
1/8" closed cell foam with a metallic or pearlescent coating on one side that gives a reflective appearance. Can be used for beetles and crickets. Comes in 4" x 6" sheets. Colors: pearl chartreuse, motor oil, pearl yellow, red, dragon fly blue, tiger beetle green, pearl orange, copper, blue swirl, silver, damsel blue, olive.	1310				4.60

Item Name	Part #	Pack	Color	Size	Price
-----------	--------	------	-------	------	-------

Leg Material, Chenille, Foam & Body Material

Loco Legs Beautiful colors that will enhance any fly. Great for everything from bass to saltwater flies. Colors: Bonefish Pink, Chartreuse, Grey, Green Turtle Grass, Olive, Olive Dun Turtle Grass, Orange Shrimp, Pink Shrimp, Pumpkin, Sand, Tan, Tan Turtle Grass, UV Violette	9070	4			2.95
Lucent Chenille (Spool) A 1/16" wide sparkle chenille ideal for sizes 10-14 hooks. May be double wrapped on larger hook sizes. Colors: black, white, peacock, red, olive, tan, orange, chartreuse, rust, dark gray, and red rainbow. Per 3 meter spool.	1254				2.90
Magic Shrimp Foil This Czech product is similar to Scud Back. Approximately 1/8 inch wide, very thin and has transparency. Available in orange, light grey, green olive, brown. 20 strips per bag.	1700	20		1/8"	2.00
McFly Foam Easier to use than egg yarn. Colorfast, strong stretchy yarn. Use for sculpted patterns like sculpins and woolheads flies. Colors: dark orange, baby blue, dead egg, brown, cream, red, iliamna pink, early girl, chartreuse, white, McCheese, gold, cream delight, deep red, light yellow and orange Per package.	1592				3.55
Micro Brite Extra Fine An English product, very small braid with lots of sparkle embedded in a coarse tiny yarn-like braid, Ideal for small fly body material especially midges etc. Colors: Peacock, Pearl, Red. Limited to current stock.	9375				4.25
Micro Brite Plus An English product. A very small braid with lots of sparkle embedded in a coarse tiny yarn-like braid. Ideal small fly body material especially midges etc. Colors: Red, Peacock, Pearl. Limited to current stock.	9374				4.25
Micro Ice Chenille (Kreinik) Similar to Estaz and Cactus Chenille but with shorter fibers. Ideal for small hook pattern. Replacement for Peacock Herl. Great for Nymphs, Streamers, Trout and Smallmouth Bass Flies. Colors: Pale Yellow, Peacock, Rootbeer, Black, Pearl.	9965			3 yards	2.50
Micro Pearl Core Braid Thin pearl braid with a dyed core giving a dual color depth that will add that little extra to any Fresh or Salt Water patterns. Colors: Black, Brown, Chartreuse, Damsel Blue, Gray Ghost, Olive, Orange, Pearl, Pink, Purple, Red, Root Beer, Tan, Yellow.	1723				3.00
Micro Tubing, Hareline For wrapping midge bodies or tiny nymphs - size 18 and smaller. This is hollow tubing that has some stretch. Colors: brown, black, orange, light olive, pheasant tail (reddish brown), clear, red, light golden stone, peacock, cream, rust and olive.	1410				2.00
Micro Yarn Glo Bug For the "dot" in the egg. Colors: burnt orange, and flame. Per package.	1582			Micro	2.00
Midge Lace, Larva Lace© Finest material available for tying wet flies, nymphs and midges ranging from size 18 to 28. Colors: clear, black, brown, olive, orange, shrimp, gray, red, copper, and fluorescent chartreuse. 4 feet per package.	1402				1.85
Miscellaneous - Leg Material, Foam & body Material	8011				
Mohlon Mohlon Yarn: 100 % acrylic fibers makes this one of the best "fuzzy" yarns for use in nymphs and streamers. Its easy and can be "picked out" for a shaggy look similar to leech yarn.	7186				1.25
Nymph Rib, Larva Lace© Larva Lace© product constructed in a solid half-round format. Provides the effect of highly detailed body segmentation. Stretchability makes it adaptable for all sizes of nymph patterns. Colors: black, blood red, brown, clear, fluorescent chartreuse, green, gray, olive, orange, red/brown, shrimp, yellow, maggot ivory, copper, clear yellow and fluorescent orange. 8 feet per package.	1406				1.85
Oliver Edward's Caddis Yarn The original material that he used in his videos and books is no longer available. This was made on a one time only basis by a university textile department in England. Limited to current stock.	9459		Caddis Green		4.00
Palmer Chenille (Spirit River) Pearlescent, one-sided chenille can be palmered for tails and collars on streamers. Colors: Chartreuse, Peacock, Red, Orange, Olive, Fluorescent Pink, Pearl, Black, Rootbeer.	9337				3.00

Item Name	Part #	Pack	Color	Size	Price
-----------	--------	------	-------	------	-------

Leg Material, Chenille, Foam & Body Material

Parachute Posts					
Effective sight indicators for all flies. Aides in floatation. Can be used in place of traditional hair parachutes or quill wings or even as terrestrial bodies. Colors: Yellow, Pink, Chartreuse, Orange, Yellow Chartreuse.	1313	10		1/8"	3.45
	1314	10		1/16"	3.45
	1315	10		3/32"	3.45
Parachute Posts - 3/32" (WTFT)					
Effective sight indicators for all flies. Aides in floatation. Can be used in place of traditional hair parachutes or quill wings or even as terrestrial bodies. Colors: Hot Pink and Chartreuse.	1317	20		3/32"	3.45
Pearl Chenille					
Strong dense chenille made of pearl mylar. Similar to Estaz. Approximately 10 feet per package. Green is the only color in stock but other colors and sizes can be ordered. Call for information.	9334		Green	Medium	2.95
	9339			X-Small	2.95
	9340			Small	2.95
Pearl Film Embossed					
Strong but light sheet pearl film, perfect for flashback nymphs etc.	9349				3.95
Pearl Film Plain					
Strong but light sheet pearl film, perfect for flashback nymphs etc.	9350				3.95
Pearlescent Sheeting (Veniard)					
Imported from England. use this sheeting for scud backs and flashback type nymphs. Smooth or embossed. Per sheet.	1390				3.50
Polar Chenille					
Synthetic chenille with 3/4" to 1" fibers. Popular with steel headers, also adaptable to bonefish, carp, bass patterns. Colors: amber, tan, clear, light pink, fluorescent orange, chartreuse, olive, fluorescent flame, royal blue, shell pink, black, hot orange, fuchsia. Five yards per package	1534				3.95
Poly Tron					
Zelon on a spool. Can be used for spinner wings, body wings, nymph wing cases, etc. Extremely translucent, 30 ft. spool.	9326		Amber		2.25
Rainy's Stretch Flex					
A great substitute for latex for shell backs, nymph bodies, wing cases, etc. Colors: olive, clear, black, dark reddish brown and golden stone.	1343			1/4"	3.35
	1344				3.35
	1345			5/32"	3.35
Rayon Chenille					
This is Danville's standard type chenille that has been around for decades. The material can be stripped from the core much easier than Ultra Chenille or Vernille to tie material to the hook. The most popular colors: black, olive, brown, purple, pink, light yellow. This is an easier chenille to use for a beginner who is tying buggers, wooly worms, basic streamer or nymphs. The finished wrapped body is not as dense as Ultra Chenille.	5225			Medium	1.95
Realistic Antennae					
Very fine natural looking fibers, making very fine antennae for flies. Approximately 175 per package. Limited to current stock.	9392		Black	2"	3.95
Round Rubber					
Incredibly fine, flexible round rubber for small nymphs. Will tie down to sizes in the 20s. Colors: black, tan, white, olive, yellow, crayfish orange, purple, and fluorescent yellow.	1362			Micro	2.50
	1364			Mini	2.50
	1365			Small	1.50
	1368			Fine	1.50
	5254			Medium	3.00
	5258			Large	3.45
Rubber Hackle					
Actual fine rubber strands woven to a dubbing loop. Can be used in many types of tying requiring a palmer body or collar. Colors: Yellow/Brown, Yellow/Black, Halloween, Brown/Olive, Tan/Brown.	9410				4.50
Rubber Legs - Grizzly Barred					
Sizes: fine and small. Colors: black and white barred only.	1378				6.75

Item Name	Part #	Pack	Color	Size	Price
-----------	--------	------	-------	------	-------

Leg Material, Chenille, Foam & Body Material

Scud Back					
For back material on scuds and shrimp. Also known as Body Stretch, Stretch Flex, and Magic Shrimp foil. Flexible translucent. 1/4". Colors: amber, pink, dark olive, gray, light olive, yellow, chartreuse, tan, clear. 3 ft. per package.	1325			1/4"	1.75
	1348			1/8"	1.75
Sexi-Floss					
This is a stretchable rubber type floss that has a slightly irregular surface. What differentiates this body wrap from Span Flex and other similar materials is that it floats. About 1/16" wide. Colors: Amber, Brown, Copper Brown, Cream, Olive, Tan.	9158				2.50
Sili Legs - Barred					
Printed Black barring gives these colors a unique fishy look. 5 bands of 23 legs per package. Colors: Orange/Orange-Black, Pumpkin/Green-Orange, Yellow/Gold-Black, Olive/Green, Fluorescent Chartreuse.	9048				3.00
Sili Legs - Fire Tip					
Flexible leg material that can be used on a wide range of patterns. Two bands of color with black speckling. Tips are brighter color. Colors: Black/Red Tip, Clear/Fire Orange Tip, Pumpkin/Orange Tip, Olive/Orange Tip, Chartreuse/Fire Orange. Other colors can be special ordered.	9049				3.00
Sili Legs - Nymph					
Smaller size of the Perfectly Barred Sili Legs. Available in barred and solid colors. Black is the only in stock color but other colors can be special ordered.	9051				3.00
Sili Legs - Nymph Barred					
Sili Legs are silicone impregnated legs. Made of silicone, they have a translucency and flexibility that is unmatched by conventional rubber legs. The nymph size is especially good for making legs on size 12 or smaller flies.	9500				3.00
Sili Legs - Perfectly Barred					
Flexible leg material that can be used on a variety salt water and fresh water of patterns. Evenly spaced black bars. Colors: Brown, Amber, Sand. Other colors can be special ordered.	9050				3.00
Sili Legs - Sili Chrome					
Sili legs with lots of flash. Can be used for a wide variety of salt water and fresh water patterns. Colors: Silver/ Black, Copper/Pumpkin, Copper/Black. Other colors can be special ordered.	9052				3.25
Sili Legs - Speckle Flake					
These are very flexible material that works well on many different flies from bonefish to small mouth bass. Each package has 5 bands of 23 legs that are 5 1/2 inches long. Colors: Crawdad Pumpkin, White/Silver Flake, Chartreuse/Sliver Flake, Pumpkin/Black Flake, Olive/Black Flake, Chartreuse/Black Flake, Amber/Gold Flake, Sand/Orange-Black Flake. Other colors can be special ordered.	1380				3.00
Silicone Micro Mini Legs - Cascade Crest					
This material is made from 100% silicon using a special process that makes these the smallest silicon legs available. This material will not rot. All have black barring mixed with the following colors: pearl, olive, chestnut, orange, olive with green flake, chartreuse. About 36 eight inch strands per package.	5274				4.50
SpanFlex (Wonder Wrap)					
This stretchable material is used as a body wrap on a large variety of hook sizes and also as legs on spiders, beetles, ants, and hoppers. Also good for ribbing, tails, feelers, legs and bodies. Colors: brown, black, light olive, caddis green, amber, gray/dun, purple.	1541			Large	2.95
	1542			Small	2.95
	1543			Medium	2.95
Sparkle Emerger Yarn					
Crinkly trilobal antron dyed to match mayfly and caddis emerger colors. Colors: Tan, Amber in stock. SPECIAL ORDER Colors: Black, Brown, Burnt Orange, Clear White, Cream, Dark Olive Dun, Fluorescent Yellow, Ginger, Gray, Light Olive, Light Tan, Olive, Olive Brown, Orange, Pale Yellow.	9327				2.50
Sparkle Organza					
Very bright stong fibers are easily teased apart and can be used for emergers, dries, and streamer wings. Colors: White, Bright Red, Dun, Fluorescent Green, Fluorescent Neon Pink, Tan.	9402			3 1/2" x 10"	2.95
Sparkle Yarn					
Similar to John Bett's famous "Z lon" use in trailing shucks caddis and spinner wings. Colors: black, brown, tan, white, light olive, medium dun, dark dun, yellow, amber, olive, rust. Per card.	1418				1.75
Speckled Sexi Legs					
Montana Fly product. Colors: Red, Copper Brown, Golden Yellow, Orange, White, Tan, Olive.	1375				3.00
Squirmy-Wormies™					
A strong but soft wiggly material, 3" long, 1/4" wide. Colors: Inch Worm Green, Neon Glow, Purple, San Juan Red	9382	10			2.50

Item Name	Part #	Pack	Color	Size	Price
-----------	--------	------	-------	------	-------

Leg Material, Chenille, Foam & Body Material

Standard Hollow Tubing, Hareline Great for Charley's, Nymphs and Stoneflies.	9266		Clear		1.50
Swiss Straw (Raffia) Thin straw -like , 4000 denier water absorbant material. Use for nymph wing cases, scuds, sowbugs and crawfish etc. Colors: dark brown, black, brown, silver gray, chartreuse, pink, copper, amber, ginger, orange, worm green, olive, cream, yellow, brown, blond, clear. 15 ft./card.	1388				1.90
Tentacles - Montana Fly Very flexible rubber legs for use on nymphs, crawdad patterns, small bass bugs, etc. Colors in small (.004): brown, black, copper. Colors in medium (.008): chartreuse, black, copper, olive.	1382				3.00
Thin Skin Thin Skin is a transparent, .004" thick sheet material. Suitable for size 18 and larger hooks. It is stretchable and transparent with a matt finish on one side and a shiny finish on the other. The backing allows easy cutting with a straight edge and a razor blade, Exacto knife, or scissors. Best suited for wing cases and backs on scuds, sow bugs, crayfish, caddis larvae and shrimp. Colors: Transparent: Clear, Cream, Yellow, Burnt Orange, Gray, Tan, Ginger, Brown, Rusty Brown, Wine, Red, Light Olive, Olive, Black, Amber, Gray Brown, Chartreuse, Shrimp Pink and Bighorn Pink. Mottled Bustard: Natural, Yellow, Orange, Olive, Clear/Black, Golden Stone. Mottled Oak: Natural, Orange, Olive, Clear/Black, Golden Stone. Fly Specks: Clear/Black, Tan/Black, Olive/Black and Olive Black.	1346				2.65
Thin Skin Fly Specks Large and small speckle dots make for great Scud backs and Shell back Nymphs.	1351				2.65
Thin Skin Gator Thin Skin is a transparent, .004" thick sheet material. Suitable for size 18 and larger hooks. It is stretchable and transparent with a matt finish on one side and a shiny finish on the other. The backing allows easy cutting with a straight edge and a razor blade, Exacto knife, or scissors. Best suited for wing cases and backs on scuds, sow bugs, crayfish, caddis larvae and shrimp. Colors: Tan/Black, Olive/Black.	1340				2.65
Thin Skin Mottled Bustard The sweet spot of a Bustard feather printed on our Thin Skin. A fine natural looking pattern great on Stoneflies and Nymphs. Colors: Natural, Yellow, Orange, Olive, Clear/Black,	1349				2.65
Thin Skin Mottled Oak The best part of a grade # 1 Mottled Oak Turkey quill reproduced on Thin Skin. Best for wing cases on big Stone Flies and shell backs on Crawfish. Colors: Natural, Orange, Olive, Clear/Black, Golden Stone.	1347				2.65
Tinsel Chenille Danville chenille is made of Flashabou®-like material. Colors: DYED over PEARL: Copper, Peacock, Fluorescent Orange, Fluorescent Chartreuse, Dark Olive. METALLIC: Red, Silver, Gold, Black.	9333			Medium	2.95
Trilobal Antron Chenille Suited to size 4 and larger hooks. This chenille has a fuzzy or furrier look compared to Ultra Chenille or Standard Chenille. Large size only. Small and medium can be ordered. Colors: white, black, fluorescent chartreuse, olive, tan, brown, yellow, purple, fluorescent oregon cheese, fluorescent fire orange. 10 feet per bag.	1525			Large	2.25
Tube Bodiz Tube Bodiz allows tiers to rapidly create, with a wide range of styles, using a manufactured body profile and surface impression. Choose from midges to steelhead and salmon to accommodate hooks from 1/0 - 24. Can be colored for easy matching. Colors: March Brown, Blue Wing Olive, Adam's Dun, Pale Morning Dun.	9401	12		12 -14	5.50
Tungsten Fly Humps Sizes: Small (16 - 18), Medium (14 - 16), Large (12 - 14), Xlarge (10 -12).	1600				3.75

Leg Material, Chenille, Foam & Body Material

Ultra Chenille or Vernille

This is a "chenille type" material that is much denser than rayon chenille, makes a more beautiful, tighter body. Colors: White, Cream, Yellow, Orange, Light Gray, Tan, Worm Brown, Brown, Cinnamon, Red, Light Olive, Olive, Purple, Black, Dark Gray, Sculpin Olive, Fluorescent Orange, Fluorescent Green, Fluorescent Chartreuse, Fluorescent Pink, Fluorescent Cerise, Fluorescent Peach, Dark Olive. Approximately 15 feet per package.	1260			Micro	1.75
	1262			Standard	1.75
	1264			Medium	1.75

Ultra Suede

For ears and tails of deer hair mouse pattern. Consistent thickness. Wet or dry it remains supple. Colors: Light Gray, Dark Gray, Coffee Cream (Taupe), Black and Aztec Brown. 4" x 6" piece.	1350			4" x 6"	2.00
---	------	--	--	---------	------

Ultra Tube, WTFT

A fine, hollow tubing (thickness .023") with some stretch that can be used as a body wrap on midges. Colors: black, red, amber, chartreuse, and olive.	1396				1.50
--	------	--	--	--	------

UnderBody Foam, Rainy's

Perfect for building up and shaping fly bodies. Open cell foam, pre cut strips are 5/16" wide, 12" long, 1/8" wide. Colors: Gray, Olive, Green, Brown. Limited to current stock.	9278				2.00
--	------	--	--	--	------

UTC Vinyl "D" Rib

Midge for hook size 16-20, Nymph hook size 12-16, Medium hook size 6 -12, Large hook size 1-8 (selected colors) This material is similar to the V rib and Larva Lace® except that it is shaped like the letter "D". This shape provides a distinct segmentation when wrapped on a hook shank. D Rib is a solid material with considerable stretch allowing the tying of flies down to size 24. Colors: Clear, Yellow, Orange, Gray, Copper, Tan, Brown, Wine, Red, Green, Olive, Purple, Black, Amber, Rust, Shrimp Pink, Fluorescent Pink, and Fluorescent Chartreuse.	1408			Midge	2.35
	1409			Nymph	2.35
	1411			Medium	2.75
	1413			Large	2.75

UTC Vinyl Round Rib

Translucent round vinyl perfect for small segmented bodies like midges. Colors: Orange, Tan, Red, Green, Olive, Shrimp Pink.	1407				2.35
--	------	--	--	--	------

--	------	--	--	--	------

Variegated Chenille - Medium

Colors: Black/Olive, Orange/Rust, Rust/Peacock, Brown/Tan, Tobacco/Tan, Orange/Peacock, Brown/Yellow, Orange/Black, Olive, Chartreuse/Black, Black/Yellow, Black/Orange.	9966			Medium 4 yard	2.50
--	------	--	--	---------------	------

Whisper Body Yarn

Early on, we discovered this product and easily saw its possibilities as a dubbing rope for small fly patterns size #16 and down. Works wonderfully for midges, scuds, nymphs as well as some dries. Composed of 70% Kid Goat Mohair plus 30% nylon on 18ct strand. 3 yards per card. Made in Italy. Colors: Tan, Olive, Gray, Rusty Brown, Dark Brown and Golden Olive.	1521				2.50
--	------	--	--	--	------

Wispy Chenille

These chenille-like fibers are not a true series of woven yarn material but a collection with similar properties very adaptable to bodies, wings, palmering, and collars. Woven on double 18 gauge yarns with radiating fibers 1/4" - 1" length. Carded 3 yards. Colors: Sparkle Black, Sparkle Dun, Olive/Green/Olive combo, Black/Olive/Chartreuse combo, Chartreuse, Black (extra fine).	9988			Fine	2.00
	9989			Medium	2.00

Wonder Wiggles

This material is Strong-Stretch™ and can handle thread wraps. Great for tails, legs, or bodies. Comes in 16 assorted colors per bag.	9381	16			2.25
--	------	----	--	--	------

Wool Yarn

Numerous old style patterns call for wool yarn. This is a four strand yarn that can be separated if a smaller number of strands is required for smaller hooks. Colors: black, red, yellow, brown, white, dark brown, and orange. Per card	1414				1.50
---	------	--	--	--	------

Wooly Bigger Chenille

Slightly different in appearance than rayon or Ultra chenille. It is the densest antron chenille available. Pearl mylar tinsel is mixed in for just the right amount of flash. Sizes available are small and medium. Colors: black, olive, sculpin olive. These are by far the most popular colors. There are 20 additional colors that may be SPECIAL ORDERED including white, cream, yellow, orange, burnt orange, light gray, tan, rusty brown, red, medium brown, purple, gray brown, rust, fl. yellow, fl. orange, fl. fire orange, fl. shell pink, fl. chartreuse, fl. pink, dark olive. Carded.	4546			Medium	2.75

Leg Material, Chenille, Foam & Body Material

Zudbubbler Popper Bodies

Easy to tie with and will give a great pop on the strip. Colors: Black, Chartreuse, Green, Orange, Pink, Purple, Red, White, and Yellow. 9124 6 5.00

Line Cleaners & Floatants

Angling Evolutions Renew Line Solutions

Provides for a one step cleaning and conditioning of your fly line. This non-toxic water based solution is formulated with friction reducers, plastic conditioners, UV blockers, and a dust repellent so your fly line will cast further and last longer. Just use a soft pad or clean cloth and reel or pull the line through the solution. Per 1 oz. bottle. 2737 5.75

Black Duck Dry Fly Flotant

Easy squeeze bottle with easy close flip top. This silicone flotant has a medium viscosity. Per bottle. 2725 3.50

Black Duck No-Film Flotant

This flotant is a stiff paste that needs to be rubbed with your thumb or index finger. It won't run even in the hottest weather. When the fly lands on the water, there is no oily ring. Per tin. 2727 2.95

BT's Float-Ezy

This is an excellent fly flotant that doesn't become liquid when the temperature rises. E-Z flip off top. Per tube. 2729 3.50

Cortland XL Fly Line Cleaner and Dressing

Cleans and conditions your fly line plus acts as a dressing for floatation. 3000 1 oz 5.75

Fly Sauce by Angling Evolutions

Keeps your fly floating higher and longer. Made from a perfect blend of silicones. Will not leave an oil slick around your fly. Odorless and temperature stable. 3002 1/2 oz 3.95

Frogg's Fanny Double Duty Fly Treatment

A floating aid for streamside use that will provide immediate drying results to aid dry flies to float well and nymphs to trap air. Bottle comes with attached brush to work the material into the fly. Per bottle. 2731 5.65

Glide Line Dressing

(Not recommended for RIO or Scientific Angler lines.) Per 1 oz. bottle 2719 5.95

Lee Wulff Line Dressing

Dressing can be used to clean and condition sinking or floating fly lines, and can be applied directly to wet lines. 2502 1 oz 5.75

Loon Aquel

Premium gel silicone-base, temperature-stable floatant that won't melt when it's hot or harden when it's cold. 1228 5.50

Loon Easy Dry

The fastest and easiest way to dry soggy flies. 1029 7.50

Loon Ice-Off Paste

1031 7.50

Miscellaneous - Line Cleaners & Floatants

8012

Mucilin - Green Label

Silicone has been added to the standard formula. Per canister. 2711 3.50

Mucilin Red Label

Fly floatant, imported from England. It comes as a solid in a paste form in a plastic container with an easily removeable cap. Use to 2709 3.50

RIO Wonder Cloth Fly Line Cleaner

Dip the sheet in water and wipe down any fly line to remove dirt. Helps line shoot better. Line will not be sticky to the touch. 5 sheets per package. Per package. 2717 4.95

Scientific Anglers Cleaning Pads

For any line that has built in conditioners, such as the Scientific Anglers "AST" series or the Cortland 555 lines. Two wads per package. 2715 2.95

Scientific Anglers Fly Floatant

Can be used on flies leaders and fly lines to improve floatation. 3001 1/2 oz 3.50

Scientific Anglers Fly Line Dressing

Includes a cleaning pad. Easy to use, pop-up dispenser bottle. Per 1.1 oz. bottle. 2713 6.95

Shimazaki Dry Shake

Powder dries and floats the fly. 1025 14.50

Umpqua Russ Peak Line Dressing

Per 1 Oz. bottle. 2721 11.99

Item Name	Part #	Pack	Color	Size	Price
-----------	--------	------	-------	------	-------

Line Cleaners & Floatants

Watershed

A liquid for permanent waterproofing of flies and materials. Requires about 8 hours to dry. Per bottle. Use a small artist type paint brush to apply the liquid to your flies. 2733 4.60

Popper Body Materials

Cone, Half Hard Foam w/ Hooks

Solid core, hard foam popper bodies that include the hook. Size #1. Colors: White and Chartreuse. 1049 4 #1 4.75

Cones, Full

Colors: White, Yellow, Chartreuse 1001 6 Medium 2.00
1036 6 Small 2.00

Cones, Half

Great all-purpose shape. Pre-shaped for ready -to-go-flies. Colors: White, Chartreuse, Yellow. 1038 6 Small 2.00
1040 6 Medium 2.00

Cylinder Poppers 1"

Used for nearly all types of fishing. Use as is or can be shaped and painted. Colors: White and Yellow in stock. Chartreuse, Orange, Red, Blue and Black can be SPECIAL ORDERED. 1044 3 1" 2.95

Cylinder Poppers 1/2"

Use for a variety of types of fishing. Use as is, or shape your own. We stock white which can be painted using Rainy's Popper Paint. Other colors can be SPECIAL ORDERED. Yellow, Chartreuse, Orange, Red, Blue and Black. 1048 5 White 1/2" 2.95

Cylinder Poppers 3/4"

Used for numerous types of fishing. Use as is, or shape your own. Recommend Popper Paint if you want to paint them. We stock White but other colors can be special ordered. Yellow, Chartreuse, Orange, Red, Blue, Black. 1045 4 White 3/4" 2.95

Cylinder Poppers 5/8"

Use for numerous types of fishing. Use as is, or shape your own. Can be painted. We recommend Rainy's Popper Paint. Colors: White in stock. Yellow, Chartreuse, Orange, Red, Blue and Black can be SPECIAL ORDERED. 1046 5 White 5/8" 2.95

Decorator Tapes

Geometric, prism, metallic patterns. Waterproof, self sticking 2" x 6" tapes. Peel and apply to popper bodies, freshwater and saltwater. Can be cut to any size. Colors: Hot Pink, Purple, Green, Silver, Black, Yellow, Red, Maroon, Orange, Transparent Pearl, Transparent Pink, Mirror, Gold, Chartreuse. 1575 3 2.59

Diving Lips

These are perfect lips for the B. P. Musky Fly and the BULL, IT Fly demonstrated in Bill Sherer's new video "Musky, Pike, and Bass Flies, Proven Patterns." The lip makes the fly have a distinctive wobble. Sizes: Small (#10-1/0), Medium (#2-#4), Large(#1/0-#4/0), Xlarge (#5/0). 3126 10 4.00

Miscellaneous - Popper Body Materials

8013

Perfect Popper Soft Foam w/ Hooks - Saltwater

Size: 2 in White in stock. Other colors and 2/0 can be SPECIAL ORDERED. Colors: Yellow, Black, Chartreuse. 10 hooks and 10 poppers per package. 1551 White #2 7.35

Perfect Poppers Hard Foam, Pencil

Classic pencil shaped popper for imitating small baitfish on topwater. Sizes: 1 and 4. 1557 10 White 4.25

Perfect Poppers hard Foam, Salwater Pencil

Extra thick body, largest size popper. Sizes: 2 and 2/0. 1560 10 White 4.60

Perfect Poppers Hard Foam, T.C.S.

Classic Bass Bug shape. Tapered, Cupped and Slotted. Sizes: 1 or 2, 4, 6, 8. 1553 10 White 3.75

Perfect Poppers Soft Foam w/ Hooks

Sizes: 1 and 6. Colors: White in stock, Yellow, Black and Chartreuse can be SPECIAL ORDERED. 1550 10 White 6.25

Performance Saltwater Popper w/Hooks

Preslotted and ready to be epoxied to the hook shank. Colors: Silver Minnow, Red/White, Blue Mackerel. Tying Tip: as a general rule, popping bugs work best with a sparse tail. Over-dressing greatly hampers their action. Limited to current stock. 1569 3 2/0 3.95

Senyo's Thin Intruder Trailer Wire

Match your trailer hook wire to your fly! For hook sizes 6 or smaller. Colors: Black, Blue, Chartreuse, Gray, Orange, Pink, Purple, Red. 4 yards per package. 1584 5.40

Item Name	Part #	Pack	Color	Size	Price
-----------	--------	------	-------	------	-------

Popper Body Materials

Ultra Pop Body

Soft, durable foam bodies, perfect for creating effective surface poppers for bass and panfish. Hand painted for professional fly to fly consistency. Colors: Fluorescent Orange/Purple, Fire Tiger (green/orange), Fluorescent Green/Frog (green/olive). Limited to current inventory.	1562	6		#6	4.75
	1563	6		#10	4.75

Thread and floss

Benecchi Ghost Thread

A clear monofilament thread for tying small dry flies and saltwater patterns where a clear head on the fly is desired. 60 denier. Thickness .004. 100 meter spool.	1014			60 D	2.95
--	------	--	--	------	------

Benecchi Iridescent Thread

This is a metallic type thread that can be used for wrapping bodies or heads on larger patterns ribbing, etc. twisted. 30 meters. Colors: olive, rainbow, white, light pink, orange, yellow, hot orange, red, violet, indigo (dark blue), light lilac, peach, light olive, and sapphire. This material is the same product as the "Midge Body Thread" listed in this product category. The colors are more geared to trout pattern than the Midge Body material.	988				3.25
--	-----	--	--	--	------

Benecchi Polyfloss

Medium size colors: black, light dun, red, orange, yellow, fuchsia, electric blue, emerald green, light blue, fluorescent lime, fluorescent orange, fluorescent yellow, fluorescent hot pink.	1050			Medium	2.25
	1051			Small	2.25

Benecchi Thread

This is one of the more popular threads. It is an un waxed polyester made in Italy. A good choice for midges, dry flies, nymphs, small salmon flies, Carrie Stevens streamers or any other patterns where the bulk must be minimized. Colors: white, light dun, olive, dark dun, sandy dun, green, dark gray, light yellow, brown, orange, wine, red, pink, tobacco, emerald, damsel fly blue, dark blue, magenta, and dark brown. Breaking strength 15 oz. Per 100 meter spool. Giorgio Benecchi closed his wholesale materials business in December 2012. We have a fairly good supply remaining of this size thread.	982			12/0 70 denier	3.50
	984			10/0 120 denie	3.50
	986			8/0 150 denier	3.50

Benecchi Ultra Strong Thread 55 denier.

Breaking strength 3 lbs. plus. Gel spun Polyethylene material. White only. Per 50 meter spool.	950		White		4.50
--	-----	--	-------	--	------

Cobweb Superglo Fluorescent 6/0

Imported from England, this is an excellent quality thread, extremely fine, strong and lightly waxed. 100 meters per roll. Colors: Orange/Red, Green, Orange.	1613				2.50
---	------	--	--	--	------

Cobweb Thread 134 denier - 6/0

Imported from England. A twisted thread for tiers tying medium to small hair flies such as "The Skunk." Being twisted provides considerably greater strength than a thread that is semi-twisted or flat. Note the denier is only 134. It is a couple of pounds stronger than a flat 140 nylon or polyester. Breaking strength 4 lbs. 3 oz. Colors: black, white, brown, olive gray, and claret. Per 100 meter spool.	1000				2.50
--	------	--	--	--	------

Danville 6/0 Un-Waxed 70 denier

Color: black, white, pale yellow (primrose), and red. 70 denier. Unwaxed. Per 200 yard spool. Preferred by some tiers for salmon flies and dries.	1024			6/0 - 70 Denier	1.50
---	------	--	--	-----------------	------

Danville Acetate Floss

For bodies, tags, tails and by dipping in acetone you end up with fused floss bodies. Colors: Yellow, Red, Olive, Fluorescent Yellow Chartreuse, Orange, Black, Insect Green. 10 yard spool.	1616				2.25
--	------	--	--	--	------

Danville Depth Ray Nylon Wool

This product has been a staple of Danville for years. It is a narrow two strand yarn. Colors: All Fluorescent - Red, Orange, Blue, Green, White, Fire Orange, Pink, Hot Pink, Yellow. Per 10 yard spool.	1037				1.00
--	------	--	--	--	------

Danville Flat Waxed Nylon 210 denier

For saltwater patterns and deer hair work. Colors: black, white, gray, olive, yellow, tobacco brown, fluorescent red, signal green, fluorescent pink, fluorescent yellow, fluorescent orange, fluorescent fire orange, red, blue, and brown. Waxed. Breaking strength 2 lbs. 14 oz. Per spool. Prior to gel spun this thread was used by many hair bug tiers, and there are still one or two that use it. If you use small clumps of hair (a pencil or two in size) it will probably work and you might break it every now and then.	1028			210 Denier	2.25
--	------	--	--	------------	------

Danville Fluorescent 4 Strand Nylon Floss 210 denier

All Colors are Fluorescent: Green, Yellow, Blue, White, Fire Orange, Pink, red, Orange. 10 yard spool.	1615			210 Denier	2.25
--	------	--	--	------------	------

Item Name	Part #	Pack	Color	Size	Price
-----------	--------	------	-------	------	-------

Thread and floss

Danville Flymaster Nylon

The old standard in the fly tying industry that has been around since the 1930's. Nylon that lays flat. Appropriate for medium to large dry flies, nymphs, streamers and Atlantic Salmon flies. Breaking strength 11oz. Waxed colors: black, white, olive, light olive, orange, beige, pale yellow, cream, peacock, charcoal, dark brown, purple, gray, tan, tobacco brown, yellow, red, burgundy, fluorescent orange, fluorescent yellow, fluorescent green, fluorescent red, fluorescent fire orange, fluorescent blue, and fluorescent pink. 70 denier. Per 200 yard spool.

1022				70 Denier 6/0	2.40
------	--	--	--	---------------	------

Danville Flymaster Plus

Danville adds an extra twist for strength on this thread. For medium to small hair bugs, saltwater and other large patterns. Waxed. 100 yard spool. Breaking strength 3 lbs.

1030				210 Denier	2.25
1032				140 Denier	2.25

Colors: black, white, tan, red, pink, gray, fluorescent orange, fluorescent green, maize, light olive, olive, coffee, fluorescent blue, fluorescent yellow, wine, fluorescent chartreuse, fluorescent red, fluorescent fire orange, cream, peacock, beige, orange, pale yellow, charcoal, and tobacco brown. Lays flat.

The following are all Fluorescent colors: Red, Yellow, Orange, Green, Fire Orange, White, Copenhagen Blue, Pink. Per 10 yard spool.

1035					2.25
------	--	--	--	--	------

Danville Monocord 3/0 116 denier

A medium heavy thread for large nymphs, small to medium saltwater patterns, light deer hair work, etc. Breaking strength is 1 lb. 10 oz. Pre waxed 100 yard spool. Color: black, white, gray, beige, olive, yellow, orange, brown, red, charcoal, fluorescent chartreuse, tobacco brown, pale yellow, burnt orange.

1026					2.50
------	--	--	--	--	------

Danville Monofilament Fine

A fine clear mono thread. Diameter .006" - 100 yard spool. Colors: Clear and Smoke.

1018				.006 Fine	1.50
------	--	--	--	-----------	------

Danville Monofilament Ultra Fine

A fine clear mono thread. Diameter .004" - 100 yard spool. Colors: Clear and Smoke.

1020				.004 Ultra Fine	1.50
------	--	--	--	-----------------	------

Danville Silk

Limited to current stock. Colors: Red, White and Black.

1617					3.00
------	--	--	--	--	------

Danville Spiderweb

A fine mono thread for the tiniest of flies. 30 denier. Per spool.

1016					2.00
------	--	--	--	--	------

Danville Stretch Nylon Floss

Single strand floss in bright colors for steelhead, shad, and salmon patterns. Colors (all fluorescent): white, black, red, tobacco brown, olive, peacock, green, dark brown, yellow, orange, fire orange, blue, fire red, light olive, and pink. Per 20 yard spool. This material is good for tags on salmon flies, also bodies. It lays very flat and the nylon material has a bit of stretch which is a practical feature.

1064					1.75
------	--	--	--	--	------

Dynacord Gel Spun

This was the first gel spun thread introduced in the mid 1980's. Only colors remaining: gray, red, orange, blue/green, black. Breaking strength 7 lbs. 9 oz. Per 50 meter spool.

940				150 Denier	3.00
942				55 Denier	3.00

Euro Thread

From Cascade Crest Tool. A 45 denier, 12/0 thread in polyester. A very good substitute for Gudebrod 10/0. 100 yard spool. Colors: light yellow, red, gray, golden yellow, black, white, olive, tan, brown, orange, olive green, wine, and chocolate brown.

967				12/0	2.45
-----	--	--	--	------	------

Glo Brite Fluorescent Floss

The brightest floss on the market. All colors are Fluorescent: Fuchsia, Hot Pink, Red, Flame, Fire Orange, Hot Orange, Orange, Sunburst Amber, Hot Yellow, Yellow, Yellow Chartreuse, Chartreuse, Highlander Green, Blue, Purple, White. 25 yard spool.

3296				25 yards	3.20
3297				100 yards	3.50

Gordon Griffiths Sheer Ultrafine (14/0)

Single ply, lightly waxed with incredible strength. Ideal for midges. Colors: Black, Brown, Cinnamon, Claret, Dun, Gray, Green, Olive, Orange, Primrose Yellow, Red, White.

It corresponds to the other gel spun threads of the same denier (see thread chart). With these two sizes a fly can be tied from the smallest hair fly to a 3/0 bass bug. Imported from France. Color: white. Per 50 yard spool.	980		White	130 denier	4.65
	981		White	50 denier	4.65
Lagartun Silk Floss					
Made in France. Silk floss for salmon flies, traditional wets, and tags on various patterns. Colors: white, black, yellow, red, silver doctor blue, kingfisher blue, orange, green. 8 yards per spool.	5585				5.15
Lagartun Thread					
Imported from France. Arguably the best polyester thread available today for the modern fly tier. This thread and the Wapsi nylon 70 and 140 are my favorite threads for tying dries, wets, nymphs, and streamers. The strength tests that Bill Merg ran on this thread proved Lagartun to be the most consistent of all the various thread brands currently available. Although it is priced higher than all other polyester and nylon threads, it is worth the money. Most tiers can easily get by with three or four colors, so the cost is really not that excessive. Also no other thread is available in the in between size of 95 denier that is perfect for so many patterns. Lays flat. Colors: black, white, olive, iron gray, burnt orange, marron (brown), fluorescent orange, red, rust, fluorescent red, and beige. Per 100 yard spool.	1008			74 denier	4.65
	5590			95 denier	4.65
	5592			150 denier	4.65
Micro Floss					
Fine single strand floss similar to one strand of Danville 4 strand floss. TIEING TIP: if you have rough hands use a bobbin or purchase a pair of silk gloves from Winter Silks and the fraying issue is solved. Colors: black, white, red, purple, peacock, blue, insect green, olive, yellow, light purple, green. Per spool.	1062				1.75
Midge Body Thread					
A very fine twisted metallic thread material that can be used on midge bodies or as ribbing on nymphs, streamers and even dry flies. It is very similar to the Benecchi Iridescent thread. Colors: black, olive, blood red, dark gray, golden olive, light olive, rust, green rainbow, red rainbow, purple. Per 35 meter spool.	990				2.79
Miscellaneous - Thread & Floss					
	8014				
Montana Fly Company Premium Thread					
As with most polyester and nylon threads around 70 denier the breaking strength tested 14 ounces. Suitable for tying from sizes 6-18 dry flies and nymphs. Colors: black, white, light olive, olive, dark olive, light brown, purple, brown, blue, dark gray, fluorescent orange, chartreuse, cream, yellow, orange, sand, rusty brown, fluorescent fire orange, fluorescent red, grey, fluorescent pink, fluorescent yellow, green, red. Per spool.	992			8/0 72 denier	2.00
	994			6/0 110 denier	2.00
	996			3/0 135 denier	2.00
	998			350 denier Stre	1.50
Pearsall's Gossamer Silk Thread					
This thread is on small spools requiring use of a Wasatch Micro Bobbin or similar bobbin. Colors: black, white, java brown, purple, brown, light olive, gray, jasper, lemon yellow, golden yellow, pale yellow, amber, olive green, dark claret, highlander green, and antique gold. Per spool.	1054				6.30
Pearsall's Marabou Pure Silk Floss					
This floss is on a small spool requiring use of a Wasatch Micro Bobbin or similar small spool bobbin. Colors: white, cardinal, olive, brown, highlander green, hot orange, lemon yellow, black, light brown.	1052				5.95
Roman Moser Powersilk (GSP)					
Breaking strength 5 1/2 lbs. This thread is for very large saltwater patterns. Colors: light fluorescent green and fluorescent yellow. 150 denier. Per 50 meter spool. Roman sizes this thread 1/0. This thread could be used for hair bugs and large saltwater patterns as well as for attaching lead bar bell eyes to your hooks.	944			1/0 150 denier	6.89
	946			6/0 115 denier	6.89
	947		Gray	8/0	6.89
	948			10/0	6.89
Semperfli Classic Waxed Thread					
Sizes 6/0, 8/0, 12/0. All colors are not available in all sizes. 6/0 & 12/0 Black & White only. 8/0 colors: Black, Brown Olive, Dark Mocha Brown, Grey, Hot Orange, Medium Olive, Orange, Pale Olive, Primrose, Red, Shell Pink, Tan, White, Yellow. 240 yards per spool.	7124				4.00
TMC 16/0 30 denier					
Extremely fine thread for midges or any pattern where minimizing bulk is essential. Breaking strength is 8oz. 200 meters per spool. Black and Olive.	5593				6.15

Thread and floss

Tough Thread™ (Spirit River) Gel Spun material comes in white only. X Fine and Fine. 50 yards per spool.	1701		White		3.00
Tungsten Thread This wire thread is extremely strong and well suited to tying small nymphs. The x-fine (.001) can tie down to size 28 patterns. The fine size (.003) is suited to tie sizes 12-20. Color is black. 50 yards per standard size spool.	1006				3.75
Ultra Gel Spun (GSP) Thread GSP is the strongest thread, boasting a steel-like strength for its weight. You can really put the pressure on when tying. Made of polyethylene it ties flat. Approximate breaking strength is 6 pounds. Use for fresh and saltwater flies. Colors: White, Yellow, Orange, Brown, Red, Green, Olive, Black.	972 971 973 975 978		White	50 denier 75 denier 100 denier 130 denier 200 denier	3.35 3.75 3.75 3.75 3.75
Ultra Monofil Monofilament thread from Wapsi. Great for scud and sow bug ribbing. Colors: Clear and Smoke	9466 9467 9468			.006 .008	1.75 1.75 1.75
Ultra Thread The 70 denier has a breaking strength of 13 oz. and is recommended for size 14-32 flies. Nylon thread has an estimated 25% stretch factor. It has two twists per inch and easily lays flat. Lightly waxed to reduce fraying. The colors are vivid and do not change color when wet. Colors: black, white, cream, yellow, hopper yellow, blue dun, tan, rusty brown, red, dark brown, olive brown, olive gray brown, olive green, fluorescent orange, fluorescent fire orange, fluorescent yellow, fluorescent shell pink, fluorescent cerise, fluorescent chartreuse, fluorescent green, fluorescent pink. brown, wine, yellow olive, purple, dark gray, wood duck, peacock blue, light olive, burnt orange and watery olive. Per 100 yard spool.	1041 1042 1043			70 denier 140 denier 210 denier	2.10 2.10 2.10
UNI Big Fly Designed specifically for big saltwater flies, bass bugs and other tying applications where a very strong, easily-handled thread is necessary. Same material (polyester) as UNI 6/0 & 8/0 so it won't dull fly-tying scissors. 4 times stronger than a 6/0 thread and four times bigger also. Untwists quickly and easily for flat-thread applications. 80 yard spools. Colors: Dark Brown, Gray, Other colors can be SPECIAL Ordered.	9896			400 D	3.00
UNI Caenis The smallest thread ever. Spooled on bobbins of 200 yds. Single ply construction. Colors: Black and White.	9470				2.10
UNI Glo Yarn This white phosphorescent yarn emits light in total darkness for up to three hours. The phosphorescent material is extended into the fiber so that it cannot be washed out. Uses include trailing shucks tags bodies wing cases, etc. Per 7 yard spool.	1066		White		2.10
UNI Mono Thread 3/0 180 Denier. A flat polyester thread for large nymphs small to medium saltwater flies and light deer hair work. Waxed. Breaking strength 2lbs. 1 oz. Colors: black, white, gray, yellow, olive, brown, and light cahill. Per 100 yard spool.	1004				2.25
UNI Neon Floss 600 denier, 2 ply polyester floss that is strong and shiny. Use on flies with built up bodies such as the humpy. Colors: Lemon, Hot Orange, Chartreuse, Hot Green.	9895			600 D	1.75
UNI Nylon Stretch Rather thick stretchy material that compresses and lays flat and smooth. Ideal for shaping underbodies. Colors: Aqua Blue, Black, Brown, Camel, Chartreuse, Chinese Red, Fluorescent Fuchsia, Fluorescent Green, Fluorescent Hot Pink, Light Gray, Olive, Fluorescent Orange, Pumpkin Orange, Purple, Light Pink, White, Wine, Red and Fluorescent Yellow.	9063				1.75
UNI Nylon Thread 210 Denier Lays extremely flat excellent for streamers, tying bass bug tails, tube flies, etc. Keeps bulk to a minimum. Breaking strength approximately 3 lbs. Stretch is approximately 25%. Colors: black or white. 100 yard spool.	1002			210 denier	2.25
UNI Nylon Thread 70 Denier Lays extremely flat excellent for streamers, tying bass bug tails, tube flies, etc. Keeps bulk to a minimum. Breaking strength approximately 3 lbs. Stretch is approximately 25%. Colors: black or white. 100 yard spool.	1614			70 denier	2.25
UNI Single Strand Floss 600 denier High quality floss for general tying. Can be divided with a fine point bodkin for smaller fly bodies. Colors: white, bright yellow, rusty orange, orange, light blue, silver doctor blue, purple, dark blue, black, brown, red, wine, gray, green, olive, pink, royal blue, and green highlander. Best to apply with a large tube standard bobbin. 600 denier. Per 15 yard spool.	1058			600 denier	1.50

Item Name	Part #	Pack	Color	Size	Price
-----------	--------	------	-------	------	-------

Thread and floss

UNI Trico 17/0 White only. 200 yard spool.	4030		White		2.80
UNI Underbody Wrap 560 denier A flat nylon used to wrap flat, smooth underbodies on any streamer, classic salmon fly, or nymph hook. Use before wrapping tinsel or other material for the outer body. The material is a heavier version on Unit-Stretch. Lays flat and tapering bodies is easy with this material. Color: white. Per 30 yard spool.	1060			560 denier	1.50
UNI Yarn A very smooth yarn and a good choice for slamon, steelhead and traditional wet flies. Colors: Black, Brown, Burnt Orange, Chartreuse, Chinese Red, Cream, Dark Gray, Gray, Olive, Pale Yellow.	9317				2.00
UTC Thread Wax A special light formula for waxing UTC threads. Prevents fraying and adds a "bite" to threads. Also works well with fine dubbings. Comes in resealable snap-top tub.	1113				1.85
Veevus GSP Thread 150 denier Very strong, good for spinning deer hair. 67% more thread than comparable products on the market. Colors: Black and White.	7097			150 denier	3.35
Veevus GSP Thread 30 denier It is less than half the size of the typical 70 denier polyester or nylon and twice as strong. The breaking strength is one pound seven ounces. It has been used to tie a broad range of flies from large streamers to midges, and it is an optimal size on just about any pattern except larger bass bugs and saltwater flies. White only. 75 meters per spool. If you like to tie very small flies under size 18 this is the thread to use. It is also excellent for smaller hair flies such as Goddard Caddis, Irresistibles, small muddler and hopper heads. If you tie parachute patterns this thread allows you to tie off the hackle on the parachute post and you won't see the thread.	938		White	30 denier	4.00

Tieing Hair

Antelope Dyed Colors Antelope is the most buoyant hair of all the ungulates used in fly tying. Most antelope have tips that are broken off so it is not suitable for collar material. It flares with minimal thread pressure. Because the hair is more fragile than any of the other hair we use for spinning and stacking, it is recommended that the 140 denier or 210 nylon thread that lays flat be used. Colors: Bleached White, Black, Yellow, Red, Orange, Olive, Dun, Fluorescent Chartreuse, Green.	770			2" x 3"	3.75
Antelope Hock	736		Natural		2.50
Antelope Natural The natural color of antelope is either light reddish brown or white. This is the most buoyant hair of all the ungulates used in fly tying. Most antelope have tips that are broken so it is not suitable for collar material. It flares with minimal thread pressure. Because the hair is more fragile than any of the other hair we use for spinning and stacking, it is recommended that the 140 denier or 210 nylon thread that lays flat be used.	8057		Natural	2" x 3"	3.75
	9567		Natural	3" x 4"	7.50
	9568		Natural	Custom Cut	0.63
Axis Deer	9939		Natural	2" x 3"	3.75
Bucktail The average hair length of a whitetail buck or doe tail is 3". Tails with this length hair is the norm in both white and dyed colors, so these are longer than average. Hair texture runs from very straight to wavy. Like the hair on the body of a winter coat whitetail, no two tails are alike. Most tiers request straight hair for trout streamers. Wavy hair is a good choice for small to medium length saltwater patterns and all around patterns such as Clouser Minnow. Although the wavy hair doesn't look as good in the vise, the action in the water makes up for that by a considerable margin. On most bucktails regardless of hair length, only the top two thirds of the tail should be used. The hair near the base of the tail is "transitional hair", very similar to the rump hair of the whitetail which the coarsest hair on the whitetail. This coarse hair will flare far more, even with moderate flat thread pressure, than what will work for tying a properly proportioned streamer. Colors: White, Orange, Purple, Red, Fluorescent Red, Olive, Fluorescent Green, Fluorescent Orange, Fluorescent Yellow, Insect Green, Chartreuse, Gray, Yellow, Silver Doctor Blue, Tan, Pink, Hot Pink, Brown, Royal Blue, Lavender, and Root Beer, Pale Pink, Cream, Claret, Mahgony, Peach, Sculpin Olive, Butterscotch, Khaki, Black, Medium Blue, Ocean Blue, Fluorescent Blue, Light Yellow, Dun, Dark Olive, Cinnamon, Dark Lavender, Fuchsia, Buckskin, Light Blue, Fluorescent Blue, Aqua, Green.	836				5.35
Bucktail - Premium Bucktails overall length is 10" - 12" with hair length over 4". Colors: White, Light Blue, Lemon Yellow, Pink, Salmon Pink, Bright Yellow	843				8.50

Item Name	Part #	Pack	Color	Size	Price
-----------	--------	------	-------	------	-------

Tieing Hair

Bucktail - Small/Medium

This size tail is well suited for tying small trout (hook size 6-12) and some Atlantic salmon patterns. The Thunder Creek pattern created by Keith Fulsher requires very straight, short hair in the 2" range. Colors: White, Light Blue, Olive, Dark Olive, Rusty Brown, Red, Black, Orange Sunburst, Yellow, Salmon Pink, Salmon, Red Orange, Dark Gray, Silver Gray, Fluorescent Yellow, Tan, Pink, Orange, Brown, Bright Yellow, Lemon Yellow, Fuchsia, Purple.

832				Small/Medium	4.65
-----	--	--	--	--------------	------

Bucktail Select

The average length of a whitetail buck or doe tail is 3". Saltwater bucktails have hair that is a minimum of 4" long. The hair near the base of the tail is "transitional Hair", in other words, very similar to the rump hair of the whitetail which is the coarsest hair on the whitetail. Bucktail hair 5" or 6" is quite rare. Frequently customer request this extra long hair. If the need of the tier is to have a consistent supply of hair 5" or longer, saltwater goat hair or Yak hair both natural and synthetic should be use. Streamer hair is also a good choice. Colors: white, fluorescent blue, lime, green, silver doctor blue, fluorescent orange, red, yellow, orange, purple, dun, dark gray, silver gray, pink, brown, olive, dark olive, medium olive, lime, tan, lavender, fluorescent yellow, fluorescent chartreuse, black, claret, ginger, rusty beige, burnt orange, khaki, pale pink, sea foam, aqua.

840					6.35
-----	--	--	--	--	------

Calf Body Hair

A fine straight hair, excellent for dry fly wings and tails. Colors: White, Yellow, Dun, Brown, Salmon, Fluorescent Pink, Orange, Yellow Chartreuse, Gray, Green Chartreuse.

9894				2" x 3"	3.00
------	--	--	--	---------	------

Calf Tail

Used for dry fly wings and tails, and also for small fly streamer wings. Colors: white, black, tan, gray, yellow, chartreuse, green, brown, pink, root beer, fluorescent green, hot orange, purple, olive, hot pink, red, gold, light brown, fluorescent orange, fluorescent blue, fluorescent red, and fluorescent yellow. TIEING TIP - soak natural white calf tails in Dawn dish detergent for several hours in warm water to remove any natural oils that seeps from the tail bone. Rinse thoroughly with warm water. Shake out the excess water and hang tail(s) up to dry or lay on a piece of card board. You will find tying with these really clean tails much more enjoyable to use, as the hair will be softer and have a wonderful feel. The cleaning process also makes stacking the hair easier.

845					5.55
-----	--	--	--	--	------

Caribou

Caribou hair is hollow much like Elk and Deer, but possessing softer texture. Best hair for Irresistibles and small spun hair body flies. Bodies that are extremely dense can be tied using a 30 or 50 denier gel spun thread. Natural color varies from off white to a soft gray.

772			Natural	2" x 3"	3.50
-----	--	--	---------	---------	------

Caribou (Dyed)

Caribou hair is hollow much like Elk and Deer but possessing softer texture. The perfect hair for small spun flies such as Irresistibles or Goddard Caddis and small spun hair body flies. Colors: red, orange, chartreuse, olive, hot pink. Limited supply.

774				2" x 3"	3.50
-----	--	--	--	---------	------

Coastal Blacktail Deer Hair

This is true coastal hair from the Columbia Blacktail deer. For tying dry fly wings or caddis. Black only.

749			Black	2" x 3"	3.75
-----	--	--	-------	---------	------

Coastal Deer Hair

This hair is not from the true Coastal Blacktail Deer, but from early season Mule deer. The characteristics of the are similar to the Coastal Blacktail deer. For comparaduns in small sizes 10- 16. Dun, Olive, Black, Natural, Bleached.

748				2" x 3"	3.75

Deer Hair Premo Strips

Very high grade, tanned and dyed deer hair for spinning hair bass bugs. Available in Natural Brown, Bleached, Yellow, Orange, Gray, Tan, Golden Brown, Rusty Brown, Red, Green, Dark Brown, Blue, Olive, Olive Green, Purple, Black, Scuplin Olive, Black Raspberry, Fluorescent Chartreuse, Fluorescent Pink, Fluorescent Cerise, Dark Olive, Dark Dun. About 25 to 30 percent of a high quality late season northern whitetail hide has the longer 2" hair, and that is not on every deer. Many late season whitetail have hair that is only between 1 1/2" and 1 3/4". We do our best to have 2" hair available for customers that are tying 1/0 and larger hair bugs. The shorter hair on these hides are useful for sculpin and muddler patterns, hoppers, extended body mayflies, etc. These hides come mainly from Minnesota, Wisconsin and some from Montana. The best hair for spinning and stacking comes from three whitetail subspecies, the Northern Woodland Whitetail, the Dakota Whitetail, and the Northwestern Whitetail. The video "All About Hair" has considerable information about the various seasons of the hair for various types of hair flies.

754				3" x 12"	13.25
-----	--	--	--	----------	-------

Elk Hock

Natural, olive, black, natural dark brown and bleached. Per 2" x 3"

808				2" x 3"	3.50
-----	--	--	--	---------	------

Item Name	Part #	Pack	Color	Size	Price
Tieing Hair					
Elk Mane					
Can be used for wings, tails and bodies.	9925		Natural	2" x 3"	3.50
	9940		Bleached	2" x 3"	3.50
Elk Mane, Extra Long					
Can be used for wings, tails and bodies.	9927		Natural	2" x 3"	3.75
	9941		Bleached	2" x 3"	3.75
Elk Rump Hair					
Elk rump is extremely coarse hair and has limited uses. The tips of the hair are frequently broken, but it is very durable. The natural color is a creamy tan. Bleached and dyed are also available. It can be use for wrapping bodies on dry flies, and it can be spun with gel spun thread. If you like to experiment, there are some untapped possibilities with this material. Per 2"x 3" piece.	798			2" x 3"	3.75
Elk, Bull Body Hair					
Medium length 1 1/2" - 2" long with tan tips and light gray on the lower 2/3 of the hair. Bull elk is not as widely used as cow elk. It can be used on the Stimulator, and on Elk Hair Caddis if no cow elk is available.	794		Natural	2" x 3"	3.50
Elk, Bull Body Hair (X-Long)					
Length of hair is 2" - 3" long with tan tips and light gray on the lower 2/3 of the hair. Bull elk is not as widely used as cow elk. It can be used on the Stimulator, and on Elk Hair Caddis if no cow elk is available.	847		Natural	2" x 3"	3.75
Elk, Cow Body Hair - XL					
Good choice for tailing.	9924			2" x 3"	3.75
Elk, Cow Body Hair					
Short 1" - 2" hair excellent for caddis, bass hair and spinning. Grayish brown with short tan tip.	786		Natural	2" x 3"	3.75
Elk, Cow Body Hair - for Comparaduns					
Use for comparaduns.	9921		Natural	2" x 3"	3.75
Elk, Cow Body Hair - Bleached					
This is premium quality hair. It can be used for a variety of hair wing patterns including bullet heads, caddis down wing, or up wing patterns. This is the best hair for tying humpies. Cow Elk hair has minimal taper.	785		Bleached	2" x 3"	3.75
Elk, Cow Body Hair - Early Season					
From prime Colorado early season cow elk that we process. Average hair length 1/4" - 3/4". Untanned piece. Can be used for comparaduns, hair-wing flies.	780		Natural	2" x 3"	3.75
Elk, Cow Body Hair - Early Season Bleached					
From prime Colorado early season cow elk that we process. Average hair length 1/4" - 3/4". Untanned piece. Can be used for comparaduns, hair-wing flies.	5620		Bleached	2" x 3"	3.75
Elk, Cow Body Hair - for Stimulators					
	9942		Natural	2" x 3"	3.50
Elk, Cow Body Hair - for Tailing					
Can be used for stimulators.	9922			2" x 3"	3.50
Elk, Cow Body Hair - Short Fine					
Good for tying caddis.	9923		Natural	2" x 3"	3.75
Elk, Cow Body Hair Dyed					
Colors: bright orange, dark dun, brown, light dun, yellow, black, dun, dark olive, gold	9511			2" x 3"	4.10
Elk, Yearling					
Yearling Elk has well defined tips. This enables the tier to tie a great range fo hair wing flies. It also has great spinning properties which are a favorite for tying Humpy and Caddis patterns. Colors: natural, olive, bleached, dun, and black.	806			2" x 3"	4.10
Elk, Yearling - Early Season					
This is immature hair. Only after its second season does it become mature. Charateristics include, one half the diameter of cow elk and well defined tips. Enables the tyer to tie a wide range of hair-winged flies from size 24 up to size 8. Early Season Yearling Elk has excellent spinning qualities, generally 1/2" to 1" long. Natural and Bleached.	9513			2" x 3"	3.75
Florida Whitetail					
A very fine medium length hair for wings and tails on dry flies.	733			2" x 3"	3.75
Florida Whitetail Bleached					
A very fine medium length hair for wings and tails on dry flies.	734		Bleached	2" x 3"	3.75
Fox, Gray Mask					
	4230				13.75
Impala - Natural					
	9944		Natural	2" x 3"	2.50

Item Name	Part #	Pack	Color	Size	Price
Tieing Hair					
Impala - Natural White	9943		Natural White	2" x 3"	2.50
Kid Goat Hair					
A hair varying in length between 2" and 4" suitable for hair wing salmon flies, streamers, and saltwater patterns. Colors: silver gray, black, silver doctor blue, orange, green, pink, chartreuse, purple, yellow, blue, and brown. TIEING TIP - when tieing in thin hair like kid goat put a drop of Fly Rite head cement where the thread will be wrapped. This step makes for a more durable wing, and helps in keeping the hairs from falling out during use. Use a flat thread such as Wapsi UTC 70 or 140 denier, or Lagartun 74 or 95 denier for the heads on streamer style pattern for better material control, and a smoother head.	822			3" x 3"	4.00
	823			2" x 3"	2.50
Miscellaneous - Tieing Hair	8015				
Moose Body Hair					
Dark stiff hair that works well for large dry fly tails.	7107		Natural	2" x 3"	4.25
	9946		Natural	3" x 4"	6.50
Moose Body Hair - Bleached					
Dark, stiff hair. Great for large dry fly tails.	9933		Bleached	2" x 3"	4.25
Moose Body Hair Dyed					
Colors: Brown, Black and Hot Orange.	9947			3" x 3"	8.25
Moose Hock					
	9935			2" x 3"	3.25
	9936			1 1/2" x 2"	2.20
Moose Mane Extra Long					
Very long hair that can be used as a quill body substitute.	9948		Natural		10.25
Moose Mane Extra Long - Bleached					
Very long hair that can be used as a quill body substitute.	4020		Bleached	2" x 3"	10.25
Moose Mane Short - Bleached					
Hair can be used as a quill body substitute.	4021		Bleached	2" x 3"	3.25
Moose Mane Short - Speckled					
Hair can be used as a quill body substitute.	9897		Speckled	2" x 3"	8.25
Mule Deer Body Hair - (Short / Fine for Caddis)					
	4023		Natural	2" x 3"	3.95
Mule Deer Body Hair (Long/Coarse for spinning)					
Mule deer is the "Rodney Dangerfield" of the hair world. It doesn't get any respect! A good mature mule deer hide during any time of the fall is every bit as good as a quality whitetail deer. In some respects it is better than the whitetail, because the mule deer hair doesn't have as much taper and the quality level is more consistent from one mule deer to the next. Also the color is a dun gray that is a high demand color, and is found on most mule deer hides, rather than the great color variance of the whitetail. The hair texture is most enjoyable to tie with, regardless of the size of the fly. Try mixing mule deer and natural or dyed gray whitetail or yearling elk hair on Chris Helm's Deer Hair Mouse. Length: 1 1/4" - 1 3/4". Size 2" x 3" untanned. A limited supply of 4" x 6" pieces are sometimes available. If you live in any other area than Western North America, chances are you won't find mule deer in your local fly shop. We order hides from a deer processor in Montana and flesh, wash, stretch and dry the hides in our shop. The pieces are "green" or untanned and the skin lays flat making cutting the hair from the skin much easier. Call and let us know what you are tieing and we will select an appropriate piece for that type of fly. Although hides have been washed multiple times in our processing treatment the natural oils are still on the hair, where tanning removes all of the natural waterproofing oil that is secreted from the sebaceous glands.	713			2" x 3"	3.95
	714			4" x 6"	15.85
Mule Deer Body Hair (Long/Coarse for spinning) Custom Cut					
Used for spinning and bullet head hoppers. Hair is 1 1/4" to 1 1/2" long.	1626		Natural	Square Inches	0.66
Mule Deer Body Hair (Short Coarse) Early Season					
Early season mule deer hair is used for comparaduns. Hair is 1/2" to 1" long.	9353			2" x 3"	3.95
Mule Deer Rump Hair (for spinning)					
The coarsest and widest diameter hair on the mule deer and whitetail is found in a small 4' - 6" area just inside the very back of the hide. The texture is very similar to Antelope, but is not nearly as fragile. Length: 1 1/2" - 2" depending when the deer was harvested. Use for spinning, humpies and comparaduns. Size: 2" X 3" untanned.	711			2" x 3"	3.95
Muskkrat - Full Skin No Tail					
Underfur is very soft and highly water resistant. Works well for dry fly tails.	9549				42.00

Tieing Hair

Nature's Spirit Cow Elk for Comparaduns

Flank hair from the cow elk that has very short tips and a texture suitable for tying comparaduns, sparkle duns and similar patterns. Wings tied from this hair really hold their shape and are very durable.

2800				2" x 3"	4.10
------	--	--	--	---------	------

Nature's Spirit, All Purpose Deer Hair

Suited for spinning small bugs, muddler heads, hoppers, etc. Average hair length is 1 1/2". Colors: Olive, Yellow, Brown, Red, Claret, Black, Medium Dun, Orange, Natural, Bleached, and Fluorescent Chartreuse.

738				2" x 3"	3.00
-----	--	--	--	---------	------

Nature's Spirit, Bull Elk

This is the flank hair off the bull elk. The color varies from light ginger to creamy blonde (rarely almost white) with dark tips. Great for Stimulators, Humpies, and the classic hair for the Trout Elk Hair Caddis.

9937			Natural	2" x 3"	2.95
------	--	--	---------	---------	------

Nature's Spirit, Bull Elk Mane

Very long, fine hair which is beautiful when stacked for large Stonefly wings., Minimum compression for controlled flair .For dry fly tails finer than moose hair but stiff.

776			Natural	2" x 3"	3.25
-----	--	--	---------	---------	------

Nature's Spirit, Comparadun Deer Hair

Only a select few pieces of hair meet Nature's Spirit's strict standards for tying comparaduns and sparkle duns. The tips must be short and the hair fine, but not so fine that it won't compress. Correct compression in the key to a nicely tapered body and wing which will flair and stand up correctly. Colors; Medium Dun, Natural and Bleached.

731				2" x 3"	5.00
-----	--	--	--	---------	------

Nature's Spirit, Deer Belly Hair

Dyed over white belly hair. The hair length will vary between 1 1/2" and 2". Colors: Orange, Yellow, Lime, Olive, Purple, Royal Blue, Red, Green, White, Brown, Claret, Black, Medium Dun, Dark Olive, Tan, Pink, Hot Pink, Fuchsia, Fluorescent Orange, Fluorescent Chartreuse, Fluorescent Yellow, Fluorescent Blue, Fluorescent Sunburst. Please note that average white belly hair on a late season mature whitetail is 1 1/2". Two inch is not always available. Because these pieces are bleached, the skin portion of the piece is not usually flat, but curled up. If you want the skin to be flat purchase the tanned pieces.

721					3.50
-----	--	--	--	--	------

Nature's Spirit, Deer Hock - Bleached

Fine deer hair perfect for Comparaduns, Sparkle Duns, Mugly Caddis, Baby Boy Hoppers, Garcia's Mini Hots and anywhere else you want a quickly tapered well marked tip.

9545			Bleached	1 1/2" x 2"	2.75
------	--	--	----------	-------------	------

Nature's Spirit, Deer Hock - Natural

Fine deer hair perfect for Comparaduns, Sparkle Duns, Mugly Caddis, Baby Boy Hoppers, Garcia's Mini Hots and anywhere else you want a quickly tapered well marked tip.

9544			Natural	1 1/2" x 2"	2.75
------	--	--	---------	-------------	------

Nature's Spirit, Early Season Cow Elk

The best hair for Elk hair caddis, humpies, and bullet head patterns. Colors: Medium Dun, Natural, Bleached.

778				2" x 3"	4.50
779			Natural	6" x 6"	16.60

Nature's Spirit, Elk Rump

This hair averages around 3" in length. Most tiers use this dyed hair for hoppers and extended body May flies. Because of the length, the hair is easy to tie any length body, and also tie it in by the tips and fold it over for a thicker body. Colors: Yellow, Brown Drake, Olive, Pale Yellow, Golden Stone, Salmonfly, Black, Blue Damsel, Natural, Fluorescent Chartreuse, Frog Green and Green Drake.

796				2" x 3"	3.25
-----	--	--	--	---------	------

Nature's Spirit, Moose Body Hair

This hair is found on the lower part of the moose hide between the front and back leg. Because the hair is quite stiff, and does not flare excessively, it makes ideal tailing material for dry flies The color is usually black. Available in Natural and Bleached (a bit more expensive)

828			Natural	2" x 3"	4.15
-----	--	--	---------	---------	------

Nature's Spirit, Moose Body Hair - Bleached

This hair is found on the lower part of the moose hide between the front and back leg. Because the hair is quite stiff, and does not flare excessively, it makes ideal tailing material for dry flies but makes nice wings as well. Length varies from 1 1/2 " to 3".

826			Bleached	2" x 3"	4.00
-----	--	--	----------	---------	------

Nature's Spirit, Moose Hock

This hair is found on the lower part of the moose hide between the front and back leg. Because the hair is quite stiff, and does not flare excessively, it makes ideal tailing material for dry flies The color is usually black. Available in Natural.

829			Natural	1 1/2" x 2"	4.15
-----	--	--	---------	-------------	------

Nature's Spirit, Moose Mane

Moose mane is used mostly for wrapping bodies on dry flies such as the Mosquito. The hair typically has a mix of black and white hair. Tying in a single black and white hair and wrapping the body to create a barred look for the Mosquito body. It is not as well suited to dry fly tailing because of the excessive length and excessive taper near the tips. The length of moose mane is around 6" or slightly longer. TIEING TIP - use some Wapsi Z- ment (Zap product) on the body of the Mosquito before wrapping the moose mane. This step will bond the hair to the thread base and make the fly more durable.

824			Natural	2" x 3"	4.25

Tieing Hair					
Nature's Spirit, Moose Mane - Bleached					
Moose mane is used mostly for wrapping bodies on dry flies such as the Mosquito. The hair typically has a mix of black and white hair. Tieing in a single black and white hair and wrapping the body to create a barred look for the Mosquito body. It is not as well suited to dry fly tailing because of the excessive length and excessive taper near the tips. The length of moose mane is around 6" or slightly longer. TIEING TIP - use some Wapsi Z-ment (Zap product) on the body of the Mosquito before wrapping the moose mane. This step will bond the hair to the thread base and make the fly more durable.	825		Bleached	2" x 3"	4.25
Nature's Spirit, Premium Yearling Elk					
The very finest diameter elk hair. Graded for straightness, even tips and fine texture. Available in Natural and bleached.	726			2" x 3"	6.35
Nature's Spirit, Select Cow Elk					
Cow Elk hair is a premium product and is perhaps the best all around fly tying hair. This flank hair is grade for straightness, short to medium tips and texture that allows for compression yet maintains shape. This hair can be used for tails, wings, spun trout fly bodies, and bullet heads. Hair length is 1 3/4" - 2". Colors: Olive , Yellow, Orange, Brown, Dun, Black, Red, Natural and Bleached.	788			2" x 3"	3.75
Nature's Spirit, Speckled Moose Body					
Similar in length and texture to standard moose body hair only with a mix of white, brown, and black colors. An interesting material which can be used to wrap bodies as well as for tails and wings. Colors: Natural, Dun, Yellow.	830			2" x 3"	4.15
Nature's Spirit, Spinning Cow Elk					
Premium quality Elk hair for spinning. Tanned.	1627		Natural	6" x 6"	16.60
	813			2" x 3"	3.75
Nature's Spirit, Spinning Deer Body Hair Dyed					
Tanned, hair length is 1 3/4 - 2", superb quality. Colors: Black, Rusty Brown, Chartreuse, Yellow, Orange, Purple, Red, Brown, Frog Green, Light Olive, Olive/Brown, Olive, Claret, Medium Dun, Tan, Natural, Bleached and Bright Blue.	723			2" x 3"	3.20
	725			3" x 4"	6.45
Nature's Spirit, Spinning Yearling Elk					
This is a wonderful hair for spinning and stacking hair bugs with a texture between whitetail and cow elk. It has an average length of 2" to 2 1/4". Colors: Medium Dun, Yellow, Black, Bleached, Olive, Red, Chartreuse, Frog Green, Brown, Purple and Orange.	804			2" x 3"	3.75
Peccary					
Also known as a Javelina or Collared Peccary, this pig is native to southern Texas, New Mexico, and throughout Central and South America. The hair is very stiff and varies in color between white and black on a single piece of hair. Used mostly on trout flies for tails, antennae, and wrapped bodies on dry flies and nymphs. Hair length varies between 2" and 7". Per 1 1/2" X 1 1/2" piece. Some larger pieces available for between \$5.00 and \$8.00. Call for information.	851				3.50
Red Deer (Red Stag)					
	9552			2" x 3"	3.50
	9553			3" x 4"	6.95

Tieing Hair

Skunk, Custom Cut					
	3012			Square Inches	0.85
Texas Whitetail - Natural					
The color of the Texas Whitetail is very similar to the three major northern subspecies. The main part of the body will be a brownish tan, over the back bone the hair will be more melanistic, or dark brown to black, depending on the particular animal. The belly area will be white with a very light tan color just above the white hair. Hair length ranges 1" to 1 3/4". Good for Comparaduns and dry fly patterns.	744			2" x 3"	3.75
Texas Whitetail Dyed					
The Texas Whitetail is a slightly finer hair than the Northern Woodland Whitetail, or the Dakota and Northwestern Whitetail deer due to the climate in the southern US. Hair length range is 1" to 1 3/4". Short fine hair can be used for Comparaduns and dry fly patterns. Colors: Dun, Olive, Black, Bleached, and Dark Brown.	746			2" x 3"	3.75
Whitetail Deer Belly Hair - 1/2" - 1 1/2" (for spinning)					
Hair length is 1/2" to 1 1/2". Coarse hair for spinning, bass flies and wings.	9209		Natural White	Custom Cut	0.66
	9269		Natural White	2" x 3"	3.95
Whitetail Deer Belly Hair - 2" Long					
White whitetail belly hair that is 2" long is difficult to obtain consistently from the major fly tying material wholesalers. The reason for this is the average length of whitetail belly hair is 1 1/2" to 1 3/4". In addition, wholesalers do not hygrade the hair by length. To tie large hair bugs on a 2/0 or large wide gape bass hook 2" hair is needed. Less than 20% of late season whitetail have hair that is 2" long. This length is a product of the deer's age, size, genetics, and diet. The cost of a 2" x 3" piece of hair is \$8.00. Larger pieces are based on the number of 2" x 3" pieces equivalent in that piece.	3799		White	2" x 3"	8.00
Whitetail Deer Belly Hair - Natural					
Good spinning hair.	9929		Natural	2" x 3"	3.95
Whitetail Deer Belly Hair - Natural - Custom Cut					
Good spinning hair.	9930		Natural	Square Inches	0.66
Whitetail Deer Belly Hair - Short (wings and caddis patterns)					
This hair is from early to mid season whitetail deer. The shorter hair is popular for parachute posts, and down wing patterns such as the Western Coachman. Also can be used for small spun deer hair bodies. Length: 1/2" - 1 1/2". If you like to dye your own material this is the hair to use for trout flies.	719		White	2" x 3"	3.95
Whitetail Deer Belly Hair Dyed over White Large Package					
Great spinning hair for tying medium to large hair bugs. Belly hair is naturally white and dyed to bright vibrant colors. Available in Black, Bleached White, Brown, Chartreuse, Fluorescent Blue, Kelly Green, Olive, Orange, Purple, Red, Yellow, Bright Yellow, Dark Brown, Cerise.	9042				4.95
Whitetail Deer Belly Hair, Natural White - 2" Long - Custom Cut					
White whitetail belly hair that is 2" long is difficult to obtain consistently from the major fly tying material wholesalers. The reason for this is the average length of whitetail belly hair is 1 1/2" to 1 3/4". In addition, wholesalers do not hygrade the hair by length. To tie large hair bugs on a 2/0 or large wide gape bass hook 2" hair is needed. Less than 20% of late season whitetail have hair that is 2" long. This length is a product of the deer's age, size, genetics, and diet. The cost of a 2" x 3" piece of hair is \$8.00. Larger pieces are based on the number of 2" x 3" pieces equivalent in that piece.	3798		White	Square Inches	1.33
Whitetail Deer Body Hair - Dyed (for Spinning)					
	9512			2" x 3"	3.00
	9152			3" x 4"	4.25
Whitetail Deer Body Hair - Early Season					
For small flies. Hair generally measures 1/2"	7185		Natural	2" x 3"	3.75
Whitetail Deer Body Hair - Long Coarse (for spinning)					
Hair is generally 1 1/4" to 1 1/2" long.	9918		Natural	2" x 3"	3.00
Whitetail Deer Body Hair - Long Coarse (for spinning) - Bleached					
Whitetail hair is the most popular for spinning and stacking hair bugs. This hair is found on the side of the deer between the front and the back legs. Most whitetail have at least five different textures of hair on their hide. The hair must be selected based on length and texture. Although there are 17 subspecies of Whitetail deer in North America, the longest hair with the essential texture is usually found in only 3 of the subspecies in the northern latitudes after November 15th. Some whitetail do not have hair over 1 1/2" even in the late fall season. At least 50% of the hides inspected do not have the correct length and texture for tying large hair bugs. Hygrading the hides is critical and then selecting the correct hair from the right part of the hide is just as critical. Length 1 1/4" - 1 1/2".	709		Bleached	2" x 3"	3.00

Item Name	Part #	Pack	Color	Size	Price
Tieing Hair					
Whitetail Deer Body Hair - Long Coarse (for spinning) - Bleached - Custom Cut We will custom cut to desired size. Price is calculated per square inch. When ordering enter the number of square inches as the quantity. For example if ordering a 4" x 6" piece enter 24 in the quantity field.	710		Bleached	Square Inches	0.50
Whitetail Deer Body Hair - Long Coarse (for spinning) - Custom Cut We will custom cut to desired size. Price is calculated per square inch. When ordering enter the number of square inches as the quantity. For example if ordering a 4" x 6" piece enter 24 in the quantity field.	9548		Natural	Square Inches	0.50
Whitetail Deer Body Hair - Long Coarse, Light color (for spinning) Hair is generally 1 1/4" to 1 1/2" long. Hand selected for lighter color from hide.	708			2" x 3"	3.50
Whitetail Deer Body Hair - Long Coarse, Light color (for spinning) - Custom Cut Hair is generally 1 1/4" to 1 1/2" long. Hand selected for lighter color from hide. For tyers that may want more than a couple of 2" x 3" pieces or would rather not have multiple pieces. Tell us the amount you want in square inches and we will select a hide and cut the amount you want.	9919			Square Inches	0.58
Whitetail Deer Body Hair - Long Fine Length: 1"-2", used for wings and tails. Moderate flare for spinning. Available in Natural and Bleached.	701			2" x 3"	3.00
Whitetail Deer Body Hair - Long Fine - Custom Cut Length: 1"-2", used for wings and tails. Moderate flare for spinning. Available in Natural and Bleached.	703			square inches	0.50
Whitetail Deer Body Hair - Long Fine Bleached - Custom Cut	704			Square Inches	0.58
Whitetail Deer Body Hair - Short Coarse - Bleached	694			2" x 3"	3.75
Whitetail Deer Body Hair - Short Coarse - Light The short coarse light color deer hair is the most sought after hair the Whitetail deer has to offer. This hair is concentrated just above the white belly hair in an area that is about 6" x 14". Some similar length hair can be found later in the season in a small area on the lower rear leg of the whitetail. The hair is creamy color and has very short black tips or no black tips at all depending on the deer. Length: 1/2" - 1 1/4". This hair will flare easily and stand up with moderate thread pressure using a 70 denier nylon or polyester thread. Despite what you may read in some catalogues and magazine articles, fine hair does NOT make good Comparadun hair because the finer the hair the less it will flare. The idea is to have the hair stand at 90 degree to the hook shank!	695			2" x 3"	3.95
Whitetail Deer Body Hair - Short Coarse - Light - Custom Cut We will custom cut to desired size. Price is calculated per square inch. When ordering enter the number of square inches as the quantity. For example if ordering a 4" x 6" piece you would put 24 in the quantity field.	696			Square Inches	0.66
Whitetail Deer Body Hair - Short Coarse - Medium to Dark Color The much sought after Comparadun hair in a medium to darker color is found on the side of the Whitetail deer about three inches above the white belly hair. This hair, in any quantity, can only be obtained during the first 14-20 days of October during what is called the "early season". It is important to understand that this hair is found on northern (above 40 degree latitude) deer, including the Northern Woodland Whitetail, the Dakota Whitetail and the Northwestern Whitetail subspecies. In most states this is the bow hunting season. That isn't to say that a rare good hide can't be found in a more southerly deer, but the chances of that are remote. The reason this hair is more desirable for small flies is the black tips are very short or non existent. On the late season hair that is approaching 2", the black tips will be around 1/4" long. The only thing consistent about Whitetail deer hair is inconsistency! Length 1/2" - 1 1/4". Size: 2" x 3" or 4" x 6".	697			2" x 3"	3.75
Whitetail Deer Body Hair - Short Coarse - Medium to Dark Color - Custom Cut We will custom larger pieces to desired size. Price is calculated per square inch. When ordering enter the number of square inches as the quantity. For example if ordering a 4" x 6" piece enter 24 in the quantity field.	698			Square Inches	0.62
Whitetail Deer Body Hair - Short Fine - Custom Cut Hair length is 1/2" to 1". We will custom cut pieces to a desired size. Price is calculated per square inch. When ordering enter the number of square inches as the quantity. For example if ordering a 4" x 6" piece enter 24 in the quantity field.	700			Square Inches	0.50

Tieing Hair

Whitetail Deer Body Hair - Short Fine (for Caddis Wings) The finest short hair on the body of the Whitetail is found on the back during early season. Above 40 degrees north latitude, that period is during the first 15 -20 days of October. The hair will almost always be dark in color. It will flare some, but not as much as the hair on the side of the deer's body. Short fine can be used for dry fly wings, dark caddis wings, and tailing on size 12 and smaller dry flies. Length: 1/2 - 1". Size: 2" X 3". Remember that the Whitetail deer ranks in the top 5% of all mammals in terms of its body hair variation. No two Whitetail deer are exactly alike. Finding the "perfect" hide is not easy.	699			2" x 3"	3.00
Whitetail Deer Body Hair - Short Fine, Bleached The finest short hair on the body of the Whitetail is found on the back during early season. Above 40 degrees north latitude, that period is during the first 15 -20 days of October. The hair will almost always be dark in color. It will flare some, but not as much as the hair on the side of the deer's body. Short fine can be used for dry fly wings, dark caddis wings, and tailing on size 12 and smaller dry flies. Length: 1/2 - 1". Size: 2" X 3". Remember that the Whitetail deer ranks in the top 5% of all mammals in terms of its body hair variation. No two Whitetail deer are exactly alike. Finding the "perfect" hide is not easy.	705		Bleached	2" x 3"	3.00
Whitetail Deer Body Hair - Short Fine, Bleached - Custom Cut The finest short hair on the body of the Whitetail is found on the back during early season. Above 40 degrees north latitude, that period is during the first 15 -20 days of October. The hair will almost always be dark in color. It will flare some, but not as much as the hair on the side of the deer's body. Short fine can be used for dry fly wings, dark caddis wings, and tailing on size 12 and smaller dry flies. Length: 1/2 - 1". Size: 2" X 3". Remember that the Whitetail deer ranks in the top 5% of all mammals in terms of its body hair variation. No two Whitetail deer are exactly alike. Finding the "perfect" hide is not easy.	9928		Bleached	Square Inches	0.50
Whitetail Deer Body Hair - Short Fine, Dyed Dun This hair is a short fine dyed Whitetail hair that can be used for Caddis wings and upright wing material. Tanned piece.	758			2" x 3"	3.50
Whitetail Deer Body Hair (for Spinning) Bleached & Dyed This Whitetail hair is for spinning and stacking, or larger sculpin patterns. Colors: dark brown, hot orange, hot pink, bright yellow, yellow, purple, red, kelly green, black, dark olive. Length is 1" - 1 1/4"	735			3" x 4"	4.00
Whitetail Deer Body Hair Bleached & Dyed (for Spinning) Colors: Red, Hot Orange, Purple, Hot Pink, Kelly Green, Dark Brown, Bright Yellow, Purple, Black, Yellow, Dark Olive.	9938			2" x 3"	3.00
Whitetail Deer Body Hair Dyed - Extra Fine	9509		Light Dun	2" x 3"	3.50

Whitetail Deer Body Hair Dyed - Long Fine Specially selected, premium quality long fine, dyed whitetail body hair. Colors: yellow, dark dun, dark olive, light olive, green drake (for wings).	9508			2" x 3"	3.00
Whitetail Deer Body Hair for Muddlers This hair is hand selected for texture and hook size for tying muddlers. Hair texture is between coarse and fine. Sized for 1-8, 4-8, 8-12.	706				3.00
Whitetail Deer Body Hair, Gretzen This is taken from the center back strip from the neck to the tail of the deer. Average 3" to 5" wide strip of very fine hair. Hair length is 1/4" to 1". Used for winging and tailing.	9061		Natural	2" x 3"	2.50
Whitetail Deer Early Season (for small flies)	1213		Natural	2" x3"	3.75
Whitetail Deer Hock	9945			14 sq inches	7.00
Whitetail Deer Hock - Bleached	9932		Bleached	2" x 3"	3.00
Whitetail Deer Hock - Natural	9931		Natural	2" x 3"	3.00
Whitetail Deer Rump Hair - Long Coarse (for spinning) Because this hair is found just at the back of the hide on either side of the tail, the quantity is limited to an area about 6" in from the rump and 8" on either side of the tail. This is the longest and coarsest hair on the body. It can be used for spinning, comparaduns or humpies. Length : 1 1/2" - 2 1/4".	707		Natural	2" x 3"	3.00
Wild Boar Hair A stiff bristle used for tails, legs, and antennae. Colors: cream, gray, dun, light dun, tan and black.	849				2.10

Tinsel & Flash

Angel Hair

Similar to Flashabou only finer. makes great streamers and can be mixed with bucktail or super hair to add sparkle and flash. Works well on small streamers or large saltwater patterns. Eight inches long. Colors: baitfish, peacock, pearl/blue, gray, purple, chartreuse, rainbow, silver holographic, bright blue, electric yellow, copper, gold, orange, rusty olive, purple ice, green, electric lime, silver, lime, PMD, blacklight, fluorescent pink, electric pink, gold holographic, steelhead ice, light olive, pearl gold, chartreuse ice, golden stone, morrum copper, EM Burning, pink copper, crayfish, karneval, light brown, pheasant tail, root beer, brown, fire orange, electric lemon, dark orange, bronze, sea foam green, brown olive, peacock pearl, turquoise blue, dark blue, kingfisher blue, purple/blue, red, blue ice, red ice, fuchsia, black ice, black chartreuse, black, burgandy, pearl purple. Tying tip - if you have a dubbing brush making device the color combinations that can be made have no end for pike and musky flies, as well as saltwater streamers. Angel hair can also be cut into smaller pieces and blended with any natural dubbing.

3290					3.45
------	--	--	--	--	------

Big Fly Fiber - Curl

Natural hair action tying material for Flies, Streamers and Jigs. Curled at the top, 12" long. Colors: Black, brown, Honey, Silver/Gray, Copper, White, Yellow, Green, Blue, Red, Gold, Orange, Purple, T.B. Blue, Hot Pink, Lavender, Fluorescent Yellow.

9078					5.75
------	--	--	--	--	------

Big Fly Fiber - Curl w/ Flashabou

Natural hair action tying material for Flies, Streamers and Jigs. Multi color blend of fibers with Flashabou highlights. Curled at the top, 12" long. Colors: Sunrise, Sunset, Green Hornet, Firetiger, Arctic Blue, Golden Olive, Pink/Purple, Black/White.

9077					7.10
------	--	--	--	--	------

Crystal Mirror Flash

A slightly larger version of Krystal Flash with even more sparkle and flash. Favorite material to use on bass bug tails because it is a little more rigid than most of the other flash materials. It is also very useful on pike, general saltwater patterns, or on any pattern to be used in murky water. Colors: Pearlescent, Fluorescent Yellow, Root Beer, Hot Orange, Chartreuse, Red, Olive.

3250					5.00
------	--	--	--	--	------

Flash Blend SF

Steve Farrar blend. This material is a blend of Kinky Fiber and Angel Hair. Use for fresh and saltwater streamers in all sizes. Colors: off white, orange, misty blue, chartreuse, light pink, pink, gray, royal blue, natural, white, red, mullet brown, natural (pale mint green), wild olive, yellow, hot orange, bleeding gray, bronze back, rainbow, mackerel, dark green, midnight blitz, peacock, fluorescent chartreuse, midnight black, sea blue, camo, violet.

3288					7.10
------	--	--	--	--	------

Flash N Slinky

Just - Add - H2O product for full profile wings with subtle flash. White in stock other colors can be ordered.

9182					6.10
------	--	--	--	--	------

Flashabou

Arguably the two most popular flash materials are Krystal Flash and Flashabou. Each has its own properties and colors. Krystal Flash is stiffer and twisted, while Flashabou is flat and more supple. The amount of flash provided is determined to a certain extent by characteristics of the base material. Experiment with both styles, just tying one or two flies with each material in the same pattern and give them a test. See how they react in the water. How they look in the vise doesn't mean a thing. It comes down to how the fish responds. Colors: pearl, gold, silver, red, perch, orange pearl, Kelly green, salt & pepper, June bug, purple chub, electric blue, royal blue, bronze, solid black, black/pearl, purple, fuchsia, chartreuse/pearl, sunburst, rainbow, lime green, peacock/pearl, copper, ocean green, lavender/pearl, pink, bullfrog, speckled gold, speckled copper, speckled silver. Strands are 9" long.

3254					4.75

Tinsel & Flash

Flashabou, Holographic Supple Flashabou in 3-D colors. 10" long x 1/69" wide strands. Colors: gold, silver, rainbow, blue, copper and red.	3261				5.35
Flashabou, Saltwater Wider than the original flashabou to fit the needs of the saltwater tyer. Each strand is 1/16" wide. Colors: Red Pearl, Silver, Gold, Pearl, Blue Pearl, Chartreuse, Silver/Pearl.	9180				4.75
Flat Metallic Varnished "Plisse" Subtle pleats embossed into tinsel. Medium only. Color: copper. 5 yard spool.	3215				2.20
Fluoro Fiber A fine fluorescent micro fiber for use as an accent with other wing material. It can also be used as spinner wings, with bucktail, etc. Overall length 10 inches. Colors: white, hot orange, chartreuse, gray, hot pink, black, light pink, red, mackeral blue, salmon, shrimp, sea blue, olive, royal blue and live shrimp.	3286				4.55
Gliss 'N Glow (Comes Alive) Iridescent flash with corrugated strands that reflect light and simulates scales of a fish. This material can also be wrapped as a body, wing or tail material. Length is about 7 inches. Colors: dark gold, root beer, camo, baitfish green, live glow green, mother of pearl green, olive, bronze, mother of pearl, silver, electric blue and red.	3270				2.95
Glitterbody Gordon Griffiths product from England. Very easy to use round tinsel for nymph and streamer bodies. Will flatten with pressure on the material. Colors: pearl, silver, rainbow, copper, purple, copper/black. Per spool.	3306				1.75
Gudebrod HT Braid Similar to flat tinsel braid. A very impressive material for streamer bodies and saltwater patterns. Colors: red, purple, red/black, black, orange and silver. Per spool. Since Gudebrod stopped making and distributing fly tying material in 2006, stock limited to current inventory.	3210				3.95
Hackle Flash A smaller version of Hula Wrap Flash. Mylar yarn that has individual strands of Mylar mixed with pearl attached at a 90 degree angle. As easy as winding hackle. Used for "Mylar Speys", Buggers, Streamer collars, and Bonefish. Patterns: Silver, Chartreuse, Cerise, Olive, Root Beer, Black, Orange, Purple, Blue.	1544				3.25
Holographic Flash A multi-flash material that really reflects light. 1/32" wide. Great for murky water. Colors: silver, minnow blue, chartreuse, emerald green, olive, red, and peacock black. Per package.	3278				4.00
Hula Wrap Flash For the tier who wants bulk, flash and easy application. A one sided hackle with 2" blended fibers, using UV Pearlescent and silver Glimmer Flash. Can be trimmed for full silhouette patterns. Steelheaders will find this material useful, great for baitfish material. Colors: Peacock Black, Chartreuse, Orange, Silver, Pink/Purple. Per five foot spool.	1540				7.50
Ice Dub Minnow Back Shimmer Fringe Adds life and mobility to minnow patterns. Ice Dub fibers are fused on the ends which allows ease of use for winging and fly bodies. Colors: pink bronze back, pearl bronze herring back, pearl peacock back.	3292				6.00
Ice Dub Shimmer Fringe Ice Dub fibers are fused at the ends for complete ease of use for winging and fly bodies. Trim a piece off, tie in, add some eyes, hit it with some clear cure goo and fish! Colors: Peacock Eye, UV Pearl, UV Steelie Blue in stock. Other colors can be special ordered: Black Pearl, Dark UV Pearl, Fluorescent Chartreuse, Fluorescent Hot Pink, Fluorescent Shell Pink, Minnow Mix Pearl, Peacock Green, Pearl, Yellow.	3291				6.00
Ice Dub Shimmer Sheer Can be used for backs, cheeks and bodies. Flattened, fused and sheer.	9347		UV Pearl		4.95
Ice Wing Fiber Ice Dub material in longer fiber length (8") for use in streamers, nymphs, emergers and any pattern that you want to add a little extra flash. Colors: Gold, Gray, Lavender, Light Olive, Blue Steelie, Minnow Back, Polar Wind, Purple, Silver, UV & Pearl Minnow Mix, Yellow Pearl, Baitfish Mix, Peacock Green.	9348				2.95
Iceabou A clear non iridescent winging material. Other colors are offered by special order but supplier has limited quantities.	9957		Dark Olive		3.50
Kreinik Fine Braid A round braid for wrapping bodies. Colors: Blue Silversides, Salmon, Steelhead Pink, Red, Pearl Silver, Dolly Varden, Baby Brown, Brown Trout, Caddis, Gold, Brookie, Standard Minnow, Red, Pink, Black, Orange VF, Orange, Copper, Pearl, Electric Blue, Emerald HL.	3235				2.60

Item Name	Part #	Pack	Color	Size	Price
-----------	--------	------	-------	------	-------

Tinsel & Flash

Kreinik Heavy Braid					
For wrapping bodies. Colors: Salmon, Caddis Green, Kingfisher Blue, Peacock.	3240				2.95
Kreinik Medium Braid Large Spool					
For wrapping bodies. Colors: Brookie, Gold, Baby Brown, Dolly Varden, Silver, Standard Minnow, Emerald, Steelhead Pink, Blue Silversides, Pearl, Brown Trout, Caddis Green, Yellow/Orange, Red, Emerald HL, Silversides.	3238			11 yds	3.50
Kreinik Medium Braid Small Spool					
For wrapping bodies. Colors: Brookie, Gold, Baby Brown, Dolly Varden, Standard Minnow, Steelhead Pink, Blue Silversides, Caddis Green, Red, Emerald HL.	3239			5.5 yds	2.60
Kreinik Metallic Flash					
To add sparkle and flash to your patterns. Packaged in convenient clear plastic tube. Colors: gold, silver, red, black, electric blue, pearl, star yellow, copper, standard minnow, damsel green, bronze, emerald, baby rainbow. Glow in the dark colors: orange, white, green, yellow, and pink.	3242				2.95
Kreinik Ribbon Tinsel					
For wrapping bodies on streamers, bonefish, and other saltwater patterns. Colors: Yellow, Red, Yellow Gold, Peacock, Brookie, Pearl, Gold Hi Luster, Baby Rainbow, Lime, Caddis Larva Green, Salmon, Silver HL, Star Yellow, Black, Orange, gold, Emerald, Silver.	3228			1/8"	2.95
	3232			1/16"	2.95
Krinkle Mirror Flash					
Mirror flash with a slight crimp. Mimics falling scales. 800 Strands per package. Colors: Chartreuse/Lime, Olive, Fluorescent Yellow, Hot Orange, Pink, Gold, Red, Purple, Blue, Rootbeer, Pearlescent, Peacock Black.	9163				5.00
Krystal Flash					
An old standby to add a little flash to patterns. Somewhat stiffer than Flashabou or Kreink Flash. Essential for the Clouser Minnow. Colors: Copper, Red, Green, Royal Blue, Gold, Silver, Pearl. U.V. COLORS: Pearl, Pink, Orange, Gray, Tan, Herring Back, Blue, Purple. PEARL COLORS: Hot Yellow, Hot Orange, Root Beer, Red, Light Blue, Olive, Purple, Black, Pink, Lime green, Gray Ghost, Smolt Blue, Peacock, Lavender, Rainbow. Fluorescent colors: Yellow, Orange, Fire Orange, Chartreuse, Cerise, Shrimp Pink.	3245				4.75
Lateral Scale					
Saltwater size Flashabou, horizontally crimped. Adds a lot of flash to big flies when used as a lateral line. Colors: Red, Black, Gold, Silver, Pearl, Pearl/Orange, Pearl/Black, Pearl/Pink, Pearl/Fluorescent Yellow, Pearl/Fluorescent Blue.	9245				5.25
Midge Rainbow Flash					
This is a miniature Krystal Flash. Each strand is about half the size of a single strand of standard Krystal Flash. The colors are very rich and more radiant than the standard Krystal Flash. Colors: Dark Olive, Golden Olive, Fluorescent Green, Fluorescent Chartreuse, Light Orange, Hot Orange, Pink, Red, Fluorescent Red, Purple, Blue, Light Blue, Root Beer, Silver, Gold, Pearl, Black, Peacock Black, UV Pearl.	3280				4.25
Mirage Accent					
A highly reflective twisted material that radiates a brilliant pearlescent color with specks of blue depending on how the light strikes the material.	3247				4.95
Mirage Fringe Opal					
Mirage cut into strips with 1/4" band holding them together at top. One sheet 4" x 18". 1/24" wide for tube tying, accent and more.	9267				3.95
Miscellaneous - Tinsel & Flash					
	8016				
New Age Krinkle Flash					
This new flash material has terrific eye appeal. The colors selected are the most striking from the 13 blends available. The flash material is a blend of Cascade Crest's Krinkle Mirror, UV Enhancer, and Holographic Flash all blended and dyed to an irresistible color mix. Colors: winter run blue, sparkling wine, midnight rainbow, orange crush. Winter Run Blue is a combination of shades of Peacock Blue Holographic surrounded by Blue Krinkle and UV Fibers. The Sparkling Wine is Deep Scarlet UV fibers with a blend of Red Holographic and Krinkle. The Midnight Rainbow is Peacock Black Krinkle and red plus Blue Holographic with deep Purple UV Fibers. The Orange Crush is Gold and Orange holographic with Hot Orange Krinkle and UV Fibers. Per seven inch package bundled in the center with a cable binder.	5491				4.75
Opal Mirage, Lateral Scale 1/16"					
This is a wavy scale flash material that Hedron produces, and only available in the opalescent pearl color. Width is 1/16". Pieces are 9" long. Approximately 100 strands per package. Only a few of these strands are needed on each side of the fly to create adequate flash even in murky water.	5498			1/16"	5.25
Opal Mirage, Lateral Scale 1/69"					
1/69" Lateral Scale. Use on any minnow or baitfish pattern.	9346			1/69"	4.75

Item Name	Part #	Pack	Color	Size	Price
-----------	--------	------	-------	------	-------

Tinsel & Flash

Polar Flash

This is another of the wonderful Flashabou products from Hedron Corporation. The material is composed of nylon filaments tightly wrapped strands of Flashabou for increased strength, sparkle and flash. Each package contains 1,000 strands 1/100" wide by 10" long. Colors: marine green, blue rainbow, pink pearl, green pearl, pale olive pearl, aqua rainbow, dark olive pearl. Other colors may be SPECIAL ORDERED including pearl, blue pearl, rainbow pearl, pink pearl, yellow pearl, silver, gold, emerald rainbow, pale blue rainbow, black rainbow, chartreuse, marine blue, copper, opal mirage. You will note that some of these colors are also available in the Tiewell Flash in this section of the website.	5488				4.65
---	------	--	--	--	------

Slinky Fibre

A slightly wavy wing material for saltwater and freshwater streamers. Thinner than and not as stiff as Super Hair. This can be marked with the Prisma color pens. Overall length 6 inches. Colors: yellow, blue, royal blue, light pink, orange, shrimp (light tan), chartreuse, marine green (dark green), green, red, black, bucktail, white, off white, electric yellow, baitfish green, brown, olive, dark gray, and gray.	3284				3.75
--	------	--	--	--	------

Sparkle Flash from Tiewell

This is a material that falls between Krystal Flash and Flashabou in terms of movement in the water. It has a slight undulation in the surface of the material which adds to the flash effect. Most colors contain both light and dark shades. Colors: pearl, yellow pearl, pink pearl, gold, emerald rainbow, dark blue rainbow, dark olive pearl, marine blue, chartreuse, multi pearl, UV pearl, UV blue pearl, green pearl, orange pearl, metallic rainbow (is a combination of gold, bronze, and brown). Made in Australia. Bundles are approximately 8" long.	5484				4.60
--	------	--	--	--	------

Tinsel Flat Braid

Works well on a thread wrapped hook shank or when the shank is wrapped with round or square lead wire or tape. Covers those lumps and bumps and fills in voids with ease. This material can be used for muddler minnow bodies as well as many other streamers where the recipe calls for a tinsel body. Colors: silver, gold. Per 3 yard spool.	3304			3/32" Wide	2.00
	3305			1/16" Medium	2.00

Tinsel, Flashback (UTC)

Spooled tinsel sized for 10,12, and 14 hoods. Use on flashback nymphs. Colors: Copper, Green, Black, Red. Per spool	3273			1/16" Large	2.00
	3274			1/32" Medium	2.00

Tinsel, Flat Braid (UNI)

An eight ply fly tinsel for streamer bodies. This material is a good substitute for Gudebrod HT Braid which is now in very short supply. Colors: pearl, green, red, gold, and silver. Per spool.	3204				2.50
--	------	--	--	--	------

Tinsel, Flat Embossed (Lagartun)

Can be used to make wings, bodies and tails. Colors: gold, silver and copper. Limited to current stock.	3162			Medium	8.65
---	------	--	--	--------	------

Tinsel, Flat Mylar

Double sided mylar tinsel. Colors: red/green, copper/blue, peacock/orange, silver/gold, holographic red. Per spool.	3163			1/32" #14	2.00
	3165			1/69" #16	2.00
	3173			3/64" #12	2.00
	3174			1/16" #10	2.00

Tinsel, Flat Tinsel Medium

Use as a substitute for red floss on coachman patterns, maintains bright red color when wet. Per spool.	3186	Red		Medium	1.25
---	------	-----	--	--------	------

Tinsel, Flat Varnished (Lagartun)

Can be used to make wings, bodies or tails. Size small. Colors: Silver, Gold. 10 yds. per spool.	3166			Small	7.10
	3167			Medium	8.25
	3169			Large	8.25

Tinsel, French Embossed (UNI)

Flat French tinsel. Available in Gold, Silver and Copper. 12 yds. per spool.	3205			Small #12	4.95
	3209			Medium	4.95

Tinsel, French Oval (UNI)

Gold and Silver. Spooled	3168			Medium	4.75
	3194			X-Small	4.75
	3195			Small	4.75
	3196			Large	4.75

Tinsel, Holographic

Bright 3-D holographic tinsel for streamer bodies and flashback nymphs. Colors: gold, silver, brown, copper, red, black, green, fuschia, orange, blue, chartreuse. Per spool.	3275			1/32" Medium	2.00
	3276			1/69" Small	2.00
	3277			1/16" Large	2.00

Tinsel & Flash

Tinsel, Holographic (Cascade Crest)					
Laser printed material with a holographic spectrum that adds life to any pattern. 20 yard spool. Colors: Blue and Chartreuse.	1652			Small	1.95
	1653			Medium	1.95
	1654			Large	1.95
Tinsel, Ice Blue Pearl					
Also know as U.V. Cool Blue Iridescent. Sizes: Small, Medium, Large.	3200				1.75
Tinsel, Micro (UNI)					
12 yards per spool. Colors: Bronze, Pearl, Silver.	1675			6/0	2.20
Tinsel, Midge					
From England, for use on coachman patterns or where narrows tinsel makes for easier wrapping. Per spool.	3188		Red		1.50
Tinsel, Mirage (UTC)					
Reflective tinsel with color shifting mirror-like properties that create an iridescent Chameleon effect. Can be used for flashback nymphs, minnow bodies, emerger bodies, etc. Small 1/64", medium 1/32", and large 1/16" Per spool	3182		Opal		1.50
Tinsel, Oval (Lagartun)					
The wraps of the material over the silk core do not separate when wrapping the tinsel. Particularly appropriate when tying show flies for framing or competition Colors: Gold and Silver. Per 20 yd. spool.	1007			Fine	6.75
	1009			Small	6.75
	1010			Large	8.35
	1011			Medium	7.70
Tinsel, Pearl (UTC)					
Great for adding pearlescent ribbing or a flashback shell casing to small flies. Sizes: X-Small 1/100, Small 1/69, Medium 1/32.	3201				1.25
Tinsel, Pearlescent Flat					
Gives a bright pearly appearance to hook shanks. Sizes: narrow, medium, and wide. Per spool.	3178				1.50

Tools

Amadou Fly Dryer					
Amadou is a species of fungus that grows in shelf-like formations on old trees. Highly prized by anglers for years. Works great with all flies, but especially with C.D.C. Made in France.	9515				20.00
Bead Sizer and Measuring Tool					
	9159				8.95
Beadmaster Tool					
Helps to place beads on hooks without the loss of blood. Works with all sizes.	9951				19.95
Bobbin Cradle, Terra					
Great help , especially for dubbing loop techniques. Holds the bobbin out of the way.	9007				12.75
Bobbin Mitch's, Wasatch					
Designed to provide a number of methods to create dubbing loop techniques. Tool comes with a 30 minute DVD that demonstrates all of the possible techniques.	2473				33.50
Bobbin Threader with Bobbin Tube Cleaners, Griffin					
Two different size wire cleaners for removing the wax from standard and fine tube bobbin holders, and one bobbin threader. The standard cleaning wire length is 3 5/8" and the wire thickness is .0062. The fine tube cleaning wire is 3 5/8" and the wire thickness is .0041	2293				4.95
Bobbin Threader, Terra Deluxe					
Six inch bobbin threader, 3" threading wire to a 3" knurled metal handle. Nice tool, reasonably priced.	9203				3.00
Bobbin Threader, Wasatch Rotary					
This bobbin threader has a thin wire with a small u-shaped bend at the end of the wire. The handle is 2" long and made of Cocobolo wood with a gold butt and tip. The wire is 3 1/4" long. Slide the wire into the bobbin tube, twist the wire to capture the thread, and pull the thread up through the tube. The bobbin thread is long enough to use on the Rite Mag and Cermag bobbin.	4888				9.35
Bobbin Threaders, CF Design					
Spare bobbin threaders, for CFT-60 and CFT-61 bobbin models.	9216				12.95
Bobbin Threaders, Griffin					
A set of three 3" wire threaders with a round plastic grasping top. Works with all standard bobbins.	2291				4.95

Item Name	Part #	Pack	Color	Size	Price
-----------	--------	------	-------	------	-------

Tools

Bobbin, C&F Design Midge					
The optimal Midge bobbin. Non-slip knurling and cylindrical lines are incorporated on the grip of the bobbin. The optimum bobbin weight 17g helps keep tension on the material during the tying. The bottom of the tube contains a micro slit foam piece to retain constant thread pressure. Teflon coated bobbin arms for smooth spool revolution. The bobbin tube is made of Zirconium to reduce thread cutting. Overall length of 4 inches.	2244				49.95
Bobbin, C&F Design Standard					
The optimal standard bobbin. Non-slip knurling and cylindrical lines are incorporated on the grip of the bobbin. The optimum bobbin weight 17g helps keep tension on the material during the tying. The bottom of the tube contains a micro slit foam piece to retain constant thread pressure. Teflon coated bobbin arms for smooth spool revolution. The bobbin tube is made of Zirconium to reduce thread cutting. Overall length of 4 inches.	2243				48.95
Bobbin, Dr. Slick Standard 4"					
A standard size bobbin (4") with ceramic inserts in the top and bottom of the thread tube. Delrin feet to hold the bobbin (spool).	2098				18.00
Bobbin, Dr. Slick Titanium 3"					
This shorter bobbin of 3" in length is well suited to someone that ties on a pedestal vise. Has titanium inserts in the top and bottom of the bobbin tube. Delrin feet to hold the bobbin (spool).	2100				14.75
Bobbin, Dr. Slick Titanium 4"					
A standard length bobbin (4") for general tying. Titanium inserts on the top and bottom of the thread tube eliminate thread fraying. Delrin feet to hold the bobbin (spool).	2102				18.00
Bobbin, Dr. Slick Titanium 5"					
This is a long 5" bobbin for bass bug and saltwater flies, or where additional leverage is required. Well suited to tiers with hugh hands. Easy and comfortable to hold. Titanium inserts in the bottom and the tip of the thread tube. Delrin spool holders. Limited to current stock.	2105				19.00
Bobbin, Griffin - Bass/Saltwater Ceramic					
Overall length 5". Ceramic tip.	2287				13.75
Bobbin, Griffin - Ceramic Supreme					
Ceramic tip, overall length 3 3/4".	2286				15.00
Bobbin, Griffin - Magnum Ceramic					
Overall length is 3 1/4". Ceramic tip so thread won't fray.	2288				15.00
Bobbin, Renzetti - Long Tube Large					
A ruby tip insert is included in this model to assure smooth, burr free delivery of the thread and excellent wear resistance. Overall length 4 1/2". The protrusion inserts are slightly longer than other standard type bobbins to ensure maximum thread spool retention.	2259				26.65
Bobbin, Renzetti - Long Tube Midge					
This is a small diameter tube bobbin (3/32"ID) with a tube length of 2 1/2". Has ruby tip at the top of the tube, and the tube is Teflon lined. Can handle threads up to size 210 denier.	2262				26.65
Bobbin, Renzetti - Standard					
This model has a 2" long, large diameter tube with a 1/8" opening and a Ruby tip insert to eliminate fraying of the thread. Overall length of the bobbin is 4". This model can easily handle threads up to 450 denier.	2256				32.20
Bobbin, Rite - Ceramic Shorty					
Slightly shorter (4") than the standard Rite bobbin. For the tier who does mostly size 18 and smaller flies, or ties with a pedestal vise. All the Rite Bobbins feature a tension adjuster that pressures the spool to match the breaking strength of the thread being used. No need to bend wires to obtain correct tension on the bobbin (spool). Has ceramic tube. Each All Rite Bobbins also have four teflon washers included. It is not essential to use those washers unless the bobbin (spool) is out of round, or the spool ends are not smooth. It is recommended in that situation that one washer be placed on each side of the spool.	2317				26.75
Bobbin, Rite - Ceramic Standard					
The "4" standard model is well suited to tying most trout, small saltwater, and steelhead patterns. The tension adjustment mechanism is set with a gold cross shaped tension adjuster. Each model has four teflon washers to use in the event that the bobbin (spool) end is uneven or has a rough surface. Tip - use one washer on each side of the bobbin (spool) in the event the spool is not turning smoothly. Complete instructions are included on the back of the package card.	2301				30.55

Item Name	Part #	Pack	Color	Size	Price
-----------	--------	------	-------	------	-------

Tools

Bobbin, Rite - Cermag					
This 4 1/2" overall length model has a ceramic tube. The longer neck is actually an advantage in reaching the back of the shank on longer hooks. It is unsurpassed for doing deer hair bass bugs because of the leverage that is achievable when pressure is needed to seat the hair properly. Tip - for 130 denier gel spun thread set the tension at nine or ten "clicks" of the gold cross shaped tension adjuster.	2309				39.99
Bobbin, Rite - Half Hitch					
Built for heavy synching down of thread for deer hair and woolhead tying. The stainless steel tube on this 4" overall length model has a tapered tip to make it a convenient half hitch tool. The neck of the bobbin has 8 rubber o-rings which serve both as a gripping point and a thread holder. Instructions are included on the back of each package on how to remove end cap and set the tension for the thread being used.	2311				38.00
Bobbin, Rite - Magnum					
The 5" Rite Mag model is very appropriate for tying bass bugs, saltwater patterns, and egg flies. The stainless steel thread tube is 3" long providing plenty of leverage when pressuring material. The top opening of the tube is very smooth and will not fray thread. It is recommended to use this model with 140 to 400 denier thread. The gold cross-shaped tension adjuster will "click" as it is turned allowing the tier to count the number of "clicks" with each size thread used to standardize the bobbin set up.	2303				39.00
Bobbin, Stonfo Regular					
High quality bobbin for every size spool. Stainless steel tube with special bushes to prevent fraying.	2270				10.95
Bobbin, Strike - Zone Economy					
This bobbin looks similar to the Wasatch bobbin with the wooden grasping over the thread tube. The thread tube is 1 3/4" long, and wood grasping portion is 1" long. The bobbin is 4 1/4" long and has ceramic tip insert.	5060				10.00
Bobbin, Strike Force - Micro Midge					
For sewing machine and Persall's spools. Overall length 3". Brass sockets.	2281				4.50
Bobbin, Tiemco - Ceramic Heavy					
Straight model. This model is a heavier ceramic tool to use on larger fly patterns, egg flies, and also suited to higher denier gel spun thread. A high quality tool for general tying.	2359				34.50
Bobbin, Tiemco - Ceramic Standard					
Straight model. This model is a ceramic tool to use on larger fly patterns, egg flies, and also suited to higher denier gel spun thread. A high quality tool for general tying.	2360				30.75
Bobbin, Wasatch - Saltwater					
Ceramic tip protects thread. Overall length is 5 1/2" long.	9108				10.95
Bobbin, Wasatch - Small Spool Ceramic Micro					
Designed for small 9/16" spools such as Pearsall's, that hold silk thread and marabou floss, and metal sewing machine spools that are 3/8" wide. Tube is ceramic, and the gripping part of the bobbin is slightly tapered Cocobolo wood for comfortable holding. The feet are gold plated balls. Overall length is 3 5/8". Ceramic tube extends 5/8" above the top of gripping portion.	5374				28.95
Bobbin, Wasatch - Standard Fine Tube					
Ceramic insert protects thread. Wood trim.	9107				10.80
Bobbin, Wasatch Sidewinder					
Unique new tool from Wasatch with the signature handle made of Cocobolo wood and gold finish.	9524				29.95
Bobbin, Wasatch Standard					
Ceramic insert protects the thread. Overall length is 4". Wooden handle.	9106				10.95
Bodkin, Boilie Teaser					
Cascade Crest Tools product. Great little tool for cleaning head cement from eyes. The tip barb is for fur teasing.	9198				3.00
Bodkin, Griffin					
Handle is 2", hexagonal plastic, needle 2", 0055 thickness.	2292				5.95
Bodkin, J. Dorin					
Small bodkin with a fine point. Overall length 2 3/4". Needle length 1 1/4". This length of bodkin is ideal for doing the split thread technique with a flat thread such as Wapsi 70 denier or Lagartun 74 denier.	2427				2.40
Bodkin, Renzetti - Small					
The tool has a beautifully machined blue anodized handle ergonomically designed for the comfort of the tier. The needle is 3/4" long, the diameter of the needle is .0030 thick with a very fine point. Overall length of the bodkin is 4 1/2"	4883				11.95
Bodkin, Strike Force Bodkin					
Overall length 4 1/2", needle 2 3/4", knurled aluminum handle 1 3/4".	2463				3.00

Hex aluminum handle, 4" long.	9192			4"	3.95
Bodkin/Half Hitch, Wasatch					
Cocobolo wood handle with brass half inch hitch tool for size 8 and smaller hooks. The other end has a 1 1/4" fine point needle. Needle thickness is 0.039 with a gradual taper to the point.	2439				10.95
Bodkin/Half Hitch, Tiemco					
Brass half hitch tool and bodkin combined. Half hitch tool hole to fit size 8 and smaller hooks.	2456				14.00
Brassie Hair Packer					
For packing deer and other spun or stacked hair. Allows the tier to apply pressure along shank at the thread base. Hair may be spun or stacked over 3/16" thread base before spinning or stacking the first clump of hair. Center the thread on the 3/16" thread base. Spin or stack hair over the thread base. Advance the thread another 3/16" and center the thread over the thread base before spinning or stacking the second clump of hair. Compress the Brassie over the hook shank and pack both the thread and the hair. When compressing the hair use the opposite hand to apply an equal amount of pressure on the other side of the hair. DO NOT TWIST THE BRASSIE WHEN PACKING THE HAIR. The thread may be damaged or broken. Place a drop of head cement at the base of each compressed clump of hair. This tool maybe adjusted with needle nose pliers to permit an overlap of the face or allow both sides to abut. Three sizes: 1/32"(hook size 10-18) 3/64" (hook size 1/0-8) and 1/16" (hook size 2/0- 6/0).	2080				5.50
Burnishing Tool, Atlantic - Wasatch					
Cocobolo wood and gold handled larger burnishing tool. Shaft is straight and 1 1/2" long. Used for smoothing threads, silk, floss etc.	9518				14.95
Burnishing Tool, Wasatch					
Cocobolo wood and gold tool for smoothing most tying threads, silk, floss etc. Tip is slightly curved and 1/2" long.	9517				13.95
Cautery, Hotpoint I					
Use this tool for burning holes in hair bugs to install eyes, burn away excess material around the head of a fly, or to make Mono eyes. These are just a few of the many uses for this tool. The end cap unscrews easily to change the batteries. One of the most practical tools to have in your arsenal. Dual battery model generates 2,200 degrees of heat. Tying tip - Remove the new AA batteries from the tool and replace with batteries that are about 50% power. This will reduce the intensity of the heat and eliminate over burn. Or purchase the Hotpoint Kit which has a lower power tool.	2382				32.10
Cautery, Hotpoint II, Kit					
The kit contains three extra tips (4 tips total), and a convenient plastic box with foam insert to carry burner and tips. Two of the tips are the standard style, and the other two are a fine point. This model is best suited for a more "controlled burn", requiring moving the tool a little more slowly, but there is no over burn. Single battery model generates 1,100 degree of heat. We recommend replacing the factory battery with an Energizer E2 titanium battery to generate more heat if necessary.	2369				42.70
Cautery, Hotpoint Low Temp					
This model is best suited for a more "controlled burn", requiring moving the tool a little more slowly, but there is no over burn. Single battery model generates 1,100 degree of heat. We recommend replacing the factory battery with an Energizer E2 titanium battery to generate more heat if necessary. Two tips and a cap are included.	4017				35.00
Cautery, Hotpoint Replacement Tips					
Package of two tips. One tip is longer.	8063	2			18.25
C-Clamp, Pro Vise					
Fits most vises and can be used for Whitetail Fly Tying Comb Holder.	1606				10.95
C-Clamp, Travel					
To hold the Comb Holder. Clamp has an opening of 2 1/8". Will hold a shaft up to .378" in diameter. (Comb holder shaft is .378" diameter)	2064				12.65
CDC Feather Tool, Marryat					
This tool enables the tier the opportunity to make CDC wings without having to strip the barbs from the rachis (stem) and not waste any material. Complete instructions included.	2411				11.25
Cement Applicator, Wasatch					
Tapered needle with a "hook eye" (OD 0.095). Dip the eye in your cement and the eye holds the proper quantity of cement to place on the fly. The "eye" also reduces the dripping that may occur with a needle. Cocobolo wood handle. Overall length 3".	2465				11.95

Item Name	Part #	Pack	Color	Size	Price

Tools

Cement Reservoir, Dyna-King This cement reservoir is made of stainless steel with a tight seal opening for the Delrin handle and chrome needle. The top of the reservoir is threaded for easy removal for refilling the reservoir. This reservoir is 2" square.	2022				48.75
Clamp Tool, Marc Petitjean's This accessory to Marc's tool line allows the tier to place the tool in the center of the thread loop to permit placing different materials above and below the clamp. By squeezing the thumb and index finger on the "handles" of the tool the spring opens slightly to slip over the thread loop. Releasing the pressure on the tool closes the spring. Two clamps per package.	2355				5.75
Comb Holder This is a tying aid that Chris Helm came up with a couple of years ago. Dyna King manufactures them for Whitetail. Made of delrin plastic. It holds a hair comb and eliminates picking up and laying down the comb. Just reach over and stroke the clump of hair through the comb. Fits any standard 3/8" C-Clamp.	2062				29.00
Cutter Kit, River Road Creations - Beetle Body Includes sizes 12, 14, 16, 18, cutting pad and caddy.	9231				53.75
Cutter Kit, River Road Creations - Caddis Wing Includes sizes 8, 10, 12, 14, 16, 18, cutting pad and caddy.	9235				63.25
Cutter Kit, River Road Creations - Crab Bodies Includes sizes 6, 8, 10, 12, 14, 16, cutting pad and caddy.	9232				59.95
Cutter Kit, River Road Creations - Hopper, Caddis, Ant Body Includes sizes 8, 10, 12, 14, 16, cutting pad and caddy. Multi use cutter that covers three of the most popular patterns where foam is used.	9234				57.50
Cutter Kit, River Road Creations - Mayfly Wing Includes sizes 10, 12, 14, 16, 18, 20, cutting pad and caddy. Use on 1mm foam, Hen back feathers, Teardrop wing material etc.	9229				58.35
Cutter Kit, River Road Creations - Shrimp/Crawfish Shellback Includes sizes 4, 6, 8, 10, 12 cutting pad and caddy.	9233				49.95
Cutter Kit, River Road Creations - Spent Stonefly Body Includes sizes 4, 6, 8 cutting pad and caddy.	9237				49.95
Cutter Kit, River Road Creations - Stonefly Wing Includes sizes 2, 4, 6, 8, 10, 12, cutting pad and caddy.	9236				63.25
Cutter Kit, River Road Creations - STP Frog™ Includes sizes 2, 6, 10, cutting pad and caddy.	9228				63.25
Cutter Kit, River Road Creations - Universal Wing Includes sizes 4, 6, 8, 10, 12, 14, cutting pad and caddy.	9230				63.25
Cutter, River Bend - Chernobyl (Tapered) Tapered. Sizes 10-12, 6-8 and 2-4.	9225				13.25
Cutter, River Road - STP Frog™ Sizes 6, 8 and 10.	9226				16.75
Cutter, River Road Creations - Blue Bottle Fly	9240				18.75
Cutter, River Road Creations - Caddis Wing Available in sizes 8, 10, 12, 14, 16, 18.	9222				9.35
Cutter, River Road Creations - Damsel / Dragon Fly	9227			8	13.25
Cutter, River Road Creations - Green Bottle Fly	9239				18.75
Cutter, River Road Creations - Hopper Wing Available in sizes 4, 6, 8, 10.	9224				9.35
Cutter, River Road Creations - Mayfly Wing Available in sizes 10, 12, 14, 18, 20.	9223				8.35
Cutter, River Road Creations - Moorish Mouse	9238				19.80
Cutter, Sleazy Steve's Plug The best plug cutters developed to date to cut foam plug poppers. Precision made from brass with a centered drill built in. All of the cutters work with a standard 3/8" standard drill. The 1/4" cutters are designed to cut plugs up to 1 1/4	2058				25.95

Item Name	Part #	Pack	Color	Size	Price
Tools					
Cutter, Sleazy Steve's Plug Trout Set					
These are the best plug cutters developed to date to cut foam plug poppers. Precision made from brass with a centered drill built in. All of the cutters work with a standard 3/8" standard drill. The 1/4" cutters are designed to cut plugs up to 1 1/4. 3/32", 9/64", and 1/4".	2057				42.00
Detached Body Tools					
The DB Tool is the ideal product for tying "detached body". Manufactured in stainless steel micro-tube with spring material clip. The tubular structure allows to insert inside a nylon as support for the realization of very small bodies with different materials. The packaging includes two different sizes.	2336	2			12.65
Dubbing Spinner Set, Terra Deluxe					
Complete set weighted spinner with 3-styles of loop attachments. Bearings let the head spin freely.	9210				16.50
Dubbing (Fur) Rake, Wasatch					
Metal teeth with a wooden handle. Fine teeth remove underfur from muskrat, beaver, etc. for dubbing.	2109				19.55
Dubbing Brush, C&F Design 3 tools in 1					
This 5" tool has a needle point bent at a 45 degree angle to pick out dubbing as well as clean out hook eyes. The center of the tool has a 360 degree wire brush for teasing dubbing. The top of the tool has a half hitch tool for size 10 and smaller hooks. Beautifully machined with a pearl chrome plated finish. Each.	2443				32.05
Dubbing Brush, Ultimate					
Hareline product, Dubbin Brush. Stainless steel brush with a large bristle end and a single row small bristle end.	9196				3.50
Dubbing Brush, Wasatch Standard					
This dubbing brush has 10 wraps of wire brush wound over 1 1/2" of a solid metal post. The handle is Cocobolo wood with a gold bottom cap. Overall length is 3 1/2". Use to tease out natural and synthetic dubbing on fly bodies.	4875				14.95
Dubbing Loop Clips, Stonfo Large					
Hair clips to process a dubbing loop using various types of hairs and hackles. Made of strong clear plastic material. The locking surfaces have a slight roughness that allow a perfect clampin of fibers.	9425	2		Large	19.00
Dubbing Loop Clips, Stonfo Small					
Hair clips to process a dubbing loop using various types of hairs and hackles. Made of strong clear plastic material. The locking surfaces have a slight roughness that allow a perfect clampin of fibers.	9450	2		Small	19.00
Dubbing Loop Tool, Terra Deluxe					
Shepard's hook design, 4 1/2" long, knurled handle, all aluminum.	9193				5.00
Dubbing Needle, Marc Petitjean's					
This tool is specifically suited to splitting thread for insertion of CDC and other materials. It has a fine diameter needle with an extremely fine point to allow for easy splitting of thread such as the thread that Petijohn distributes, or Wapsi UTC 70 denier. Length is 2". With a wide aluminum handle.	2340				10.95
Dubbing Picker, Wasatch Standard					
Efficient dubbing picker for teasing dubbing and creating rough, natural looking nymphs.	9373				10.65
Dubbing Rake, Terra					
5 inch, brass knurled handle with stainless rake. Nice tool for a reasonable price.	9197				3.00
Dubbing Spinmaster, Dyna- King					
This is the most practical and easiest dubbing spinner to use. The tool has two 1 1/4" wires extending from a ball bearing brass housing that spins with just a flick of the thumb. The 3 3/4" handle is gripped when making the dubbing loop, and then pulling on the tool closes the thread before the spin procedure occur. The thread can be held any distance apart depending on how hard the tool is pulled against the thread loop. Inserting the dubbing or other material, such as rabbit, held between a material clip is quite easy. Pulling on the tool controls the thread, is the secret to using this tool. Tying tip - use a pair of needle nose pliers to bend the hooks on the end of the spinner wires a little more than the tool comes from the factory. This small step keeps the thread from falling off of the hooks.	5056				21.50
Dubbing Spinner Set with Hair Packer					
Comes with Y dubbing twister, split wire and hook. Handle serves as hair packer. Item# 9217	9217				15.00
Dubbing Teaser, Griffin					
Handle is plastic,hexagonal 1 1/2", teaser wire 1"	2290				6.95

Item Name	Part #	Pack	Color	Size	Price
-----------	--------	------	-------	------	-------

Tools

Dubbing Twister, Stonfo Elite Rotodubbing Superior quality dubbing tool made in stainless steel with ball bearing that allow a fast and smooth rotation. Its swinging head permit 90 degrees of free swinging motion with block at center position. This moving of the head prevents unrolling of the dubbing so it will be wrapped directly on the hook without hackle pliers.	9424				39.95
Dubbing Whirl, Terra Brass dubbing whirl makes dubbing on large, fully dubbed flies easy. Once the dubbing is placed in the dubbing loop all that is required is to grab the base of the tool and spin it to lock the dubbing onto the thread.	4025				6.00
Dubbing Whirler, Wood Turbo - Wasatch Handle is made of Cocobolo wood and gold finish.	9522				31.25
Dyna-King Material Clip Add-On Locks in position anywhere on the vise body. Adds greater height for the resting of materials and is easily adjusted. For Squire, Voyager, Voyager II and Kingfisher	7187				22.50
Eye Paint Set, Wasatch Designed to put lacquer eyes on streamer heads. Dip the round tip in lacquer and touch the head of the fly. Sizes: .040, .060, .085, .125, .155, and .185. Per set. Two sizes on each tool.	2467				40.65
Fishing Necklace, Dr. Slick Elastic fishing necklace with Tippet Spool Caddy, Retractors, Floatant Holder, Waterproof Fly Box.	7906				35.00
Fur Comb, Wasatch Designed for combing out small quantities of calf fur or calf tail, woodchuck, and other fine hair or fur. The tool has a wooden handle made of cocobolo wood.	2297			Small	19.55
Glo Bug Dispenser by TCO Inovations Amazingly simple tool for making Glo Bug Yarn or McFly foam egg patterns. Just load tube with yarn of choice with tool and trim egg to size. Three sizes of tube included. Instructions included with tool.	9218				9.95
Hackle Gauge and Hook Gauge, Griffin Includes both a hook and hackle gauge.	7812				6.25
Hackle Gauge, Cascade Crest Tool Sizes hackles from 12 to 26. Fits a 3/8" vise shaft. Sits at a 45 degree angle on the vise shaft.	2469				4.50
Hackle Gauge, Terra Wooden, useful tool to size hackle quickly.	9250				3.95
Hackle Gauge, Whiting	9251				36.00
Hackle Guard	3499	3			2.90
Hackle Plier, Stonfo - Micro A new-concept hackle plier. Permit a very good tightening of every kind of material like cock hackles, cul de canard, micro chenille, tinsel, lead wire, etc. The Micro size is suitable for small hooks, sizes 14-24.	9343			Micro	13.25
Hackle Plier, Stonfo - Standard A new-concept hackle plier. Permit a very good tightening of every kind of material like cock hackles, cul de canard, micro chenille, tinsel, lead wire, etc. The Micro size is suitable for small hooks, sizes 16-4/0.	9469			Standard	13.20
Hackle Pliers, C&F Design Finger Hole Same tip design and shock absorbing elastomer joint as the rotary model above but it has a brass stabilizer finger hole with optimum weight. Just insert index finger and rotate hackle. Overall length 2 5/8". Each	2396				39.95
Hackle Pliers, C&F Rotary Non-Slip This tool is the result of considerable thought and innovation. The plier tips are slightly flared to minimize the risk of cutting delicate hackle tips. The connection between the tips and the handle has an elastomer rubber bumper to absorb shocks and retain optimum pressure on the hackle. The tool also is designed to allow free-angle with silk-smooth for faster winding twisting the hackles. Handle is knurled for no slip gripping. Overall length 4 1/2". Each.	2388				49.95
Hackle Pliers, Cascade Crest Tools Duplex High quality plier with double gripper, one side brass the opposite side rubber for added grip surface.	9215				4.50
Hackle Pliers, Economy Rotary The handle is 3 1/4" long and has two parts. The bottom of the tool is attached to a main shaft that also serves as a half hitch tool. The top section rotates to allow the tier to wrap hackle with minimal pressure.	2367				5.95

Item Name	Part #	Pack	Color	Size	Price
Tools					
Hackle Pliers, Fly Rite					
Brass colored steel, precision made, the flush jaws hold hackle securely. Overall length 2 3/4". Easy grip.	2447				6.50
Hackle Pliers, Freestone Midge					
Length 2 inches. This size of hackle plier can be used with hackles size 16 and smaller.	2419				2.50
Hackle Pliers, Freestone Supply					
Hackle pliers at a perfect midge size, 1 7/8" long with a 1/4" jaw.	9213				3.75
Hackle Pliers, Griffin - Rotating					
Handle is 3", Hackle grasping clip 1 1/2".	2285				9.60
Hackle Pliers, Griffin Large Handle Rotating					
Extra large handle at 6" in length. Well suited for large flies requiring a long reach.	9214				12.95
Hackle Pliers, Herb Howard - #1 Small					
Traditional style, excellent quality pliers. Short 1/2" grips, 2 3/8" overall length. Made of stainless steel. Holds hackle firmly. A small tubular piece of electric shrink tubing can be placed over one gripping extension to soften grip on fragile, small hackle.	9205			Small	4.75
Hackle Pliers, Herb Howard - #2 Large					
Traditional style, excellent quality pliers. 3/4 inch grips, 2 3/4" overall length, made of stainless steel. Grips the hackle firmly. A small tubular piece of electric shrink tubing can be placed over one gripping extension to soften grip on fragile, small hackle.	9204			Large	4.75
Hackle Pliers, J. Dorin - Large Teardrop					
Large model 3" long. Just squeeze the handle to easily open tips.	2408				5.00
Hackle Pliers, Marc Petitjean's					
A unique hackle pliers designed to grab and hold CDC and other types of hackle. The tool has an upside down "U" shaped hook at the business end with a sliding spring that squeezes the hackle rachis (stem) in the "U". The hackle can then be held in one position for wrapping or twisting as needed.	2347				27.50
Hackle Pliers, Rainy's E-Z Grip					
This is like an electronic clip, but is made specifically for fly tying. By pressing the bottom of the spring loaded tool, the small hook at the top raises up to capture the hackle. Length 2 1/2". Heavy duty gripper.	2415				10.25
Hackle Pliers, StonFo - Short Spring					
Rotary ring with spring prevents hackle breakage. Made in Italy.	9207				8.75
Hackle Pliers, Terra Deluxe EZ					
Push button action hackle pliers with wire loop that retracts on hackle stem.	9206				4.95
Hackle Pliers, Tiemco Ring					
A one inch diameter plastic ring is attached to the pliers allowing rotating the tool using the index finger.	2386				12.99
Hackle Pliers, Veniard Standard					
Well made pliers from England. Overall length is 2 1/2", gripping end is 5/16". Very helpful for small hackle work.	9212				4.75
Hackle Pliers, Wasatch - Revolution					
	9889				18.25
Hackle Pliers, Wasatch Revolving					
This is a traditional rotary type hackle plier with a rubber tip grip. The handle is Cocobolo wood with a gold tapered on the bottom of the handle. Overall length 4 1/2". Rotary hackle pliers are easy to use, and reduces excessive pressure on the hackle.	4877				14.20
Hackle Pliers, Tiemco Small					
Rubber grip on one prong holds hackle effectively.	2373				6.65
Hackle Pliers, Tiemco Standard					
Rubber grip on one prong holds hackle effectively.	2374				7.25
Hackle Pliers, TyFlyz Toolz					
This is a unique but very effective pair of Hackle Pliers. They are shaped like a backward letter "D". The user just squeezes the round part of the "D" and the grasping portion opens from a narrow brass tube. Grasp the hackle and release the round part of the "D". Holds your hackle and won't let go! Charlie Craven says "The best hackle pliers I have ever used"	9916				12.00
Hackle Pliers/Half Hitch, Tiemco Rotary					
Although the price might seem a bit high, the gripping ability of the pliers and the smoothness of operation make the investment well worthwhile.	2380				27.95
Hair Comb					
This comb is an exact duplicate of the original Griffin Hair Comb. Overall length is 5", The handle is 3" and the comb area is 2" with 27 teeth properly spaced for combing deer, elk, moose, and other ungulate hair.	2266				7.50

Item Name	Part #	Pack	Color	Size	Price
Tools					
Hair Stacker, A.K Best's Standard					
Machined aluminum. Height 2 3/4", base 3/4", flared opening 5/8", and tube inside diameter 13/32". Best suited to tying small to medium clumps of hair for wings and tails on trout flies.	2082				16.95
Hair Stacker, Dr. Slick - Brass					
This stacker replaces the Edgin stacker that is no longer available. Height is 2 3/4", inside diameter of the top is 5/8", the top flare opening is 1 3/16" and it weighs 4 1/4 ounces. Sizes: Large and Medium.	2078				15.95
Hair Stacker, Dr. Slick - Stainless					
This stacker replaces the Edgin stacker that is no longer available. Height is 2 3/4", inside diameter of the top is 5/8", the top flare opening is 1 3/16" and it weighs 4 ounces.	2079			2 3/4"	20.95
	2081			1 3/4"	19.95
Hair Stacker, Renzetti Evolution - Small					
Designed by Pat Ehlers.The small hair stacker is 2 1/8" high, the flared top opening is 7/8", the bottom inside diameter of the removable tube is 5/8".	5436			Small	18.50
Hair Stacker, Renzetti Evolution - Standard					
For all around stacking.	2449			Medium	20.45
Hair Stacker, Streamworks - Medium					
Good quality brass stacker, 2" tall.	9190			Medium	13.95
Hair Stacker, Streamworks - Small					
Good quality brass stacker. 1 1/4" tall, 5/16" tube.	9189			Small	11.95
Hair Stacker,Whitetail Magnum					
Aluminum stacker.The overall length is 3 5/8", wide at the base is 1 1/2". the flared top opening is 1 3/16", and the inside diameter of the removable tube is .845". This is the ideal stacker to tie large hair bugs for bass, pike, snook, etc. as well as stack bucktail. This replaces A.K. Best's magnum stacker which is no longer being made.	2084				35.35
Half Hitch Tool Set,					
Solid machined brass. Three sizes, standard bullet type. 3" length.	4878				6.75
Half Hitch Tool Set, Wasatch					
These cocbolo wood and gold tools make it easy to tie different sizes of bullet heads. 3 tools, 6 sizes. 3 1/2" long.	4802				25.35
Half Hitch, Dyna-King					
Dyna-King quality tool, large and small end, knurled grip body.	9211				10.25
Hareline Silicone Bead Pad					
Simple but ingenious solution to prevent loosing beads, hooks or other small components from your tying area. Dimpled, gray silicone pad makes it easy to see objects. Note: do not apply to acrylic surfaces.	9920			5" x 7 1/2"	5.55

Tools

Scissors, Solingen General Purpose Tying This model is especially for tiers that need larger than standard finger rings. Finger rings (loops) are 1 3/16" and the width is 15/16". Overall length is 5". Fine points and a nickel finish. Blade length 2 1/4". Double serrated.	2164				29.95
Scissors, Solingen German 5 1/2" (WASA) Straight blade 5 1/2" overall length, blade is 2 1/2", double micro serrated, extremely pointed, for left handers.	7093				56.00
Scissors, Solingen German Bent Shaft Hair (Wasa) The same model as the straight and curved model hair scissors, but with a bent shaft just above the finger loops that makes them easy to pick up from your tying bench. Length is 4 1/2", blade length is 1 3/4", fine point. These pewter finish scissors are double serrated, drop forged, Ice Tempered, stainless steel, and have a extremely smooth action. They are well suited to general tying in addition to being the ideal scissor to use on deer hair. The manufacturing process of Solingen scissors requires over 100 steps, most done by hand. The extremely high quality of these scissors makes them easy to sharpen.	2321				48.00
Scissors, Solingen German Curved Blade Small Fly (Widder) Extremely fine point 3 1/2" long with a 5/8" blade. Large finger loops 1" long x 3/4" wide. One serrated blade. Nickel finish.	2169				28.95
Scissors, Solingen German Curved Tip Hair (Wasa) These are the perfect scissors for working with any unguulate hair where shaping the fly is essential. They are drop forged, Ice Tempered, stainless steel, micro double serrated, with an extremely fine point and pewter finish. They have a silencer pad between the finger loops. German made scissors last much longer before they need sharpening than typical fly tying scissors. You can tell the difference in quality by just opening and closing a pair. They are extremely smooth. Over 100 steps go into making the Solingen scissors, and the majority of the work is done by the hands of highly skilled craft people.	2315				48.00
Scissors, Solingen German Hair (Wasa) Overall length is 4 1/2", blade is 1 3/4". Scissors are drop forged, Ice Tempered, stainless steel, micro double serrated, extremely fine tip with a pewter finish and silencing pad between the finger loops. The quality is noticeable immediately when opening and closing a pair. They are well suited to working with deer hair.	2307				45.00
Scissors, Solingen German Trout Shear (Dovo) These are high quality German made double serrated scissors. Excellent for general tying including small hair flies. Solingen scissors are drop forged and Ice Tempered. Overall length is 4", blade length is 1 1/4" Pewter non-reflective gray color. Fine Point.	2209				49.00
Scissors, Wiss with Bodkin Needle Small, lightweight, and spring-loaded fine tipped scissors. Designed to keep in your hand while tying. Replacement blades can be ordered.	1853				35.00
Scissors, Tiemco All Purpose - Straight A very high quality scissor for general tying including working with deer hair. Large finger loops will permit even the largest thumb to fit comfortably. Overall length 4 1/4". Blade length 1 1/2".	2205				21.95
Scissors-Forceps, Big Game, Streamworks This stainless steel scissors-forceps is 8.5" long. The finger loop on the bottom and the open loop on the top allow easy access while wearing gloves. Tool is designed to flatten hook bars, split shot, cut Dracon, heavy monofilament, Spiderwire, and other braided lines. Tips have grooves for easy gripping of flies. Three lock positions for grasping and holding. The ideal tool to use for pike, barracuda, and with great caution, sharks and other toothy fish. A Stream Works product.	2349				21.95
Shepard's Hook Turbo Whirler - Wasatch Handle is made of Cocobolo wood and gold finish.	9523				31.25
Thread Splitter, Stonfo High precision tool used to split thin threads to process dubbing loop on small size flies. Made in Italy.	9451	1			32.50
Tool Caddy, Renzetti A soft foam block with pre molded holes and squares for cement bottles and tools. Very handy for keeping tools organized and your cement bottle from spilling. If you travel to club tying meetings or similar tying sessions this caddy makes it easy to transport all of your primary tools.	2229				29.00
Tweezers, Dr. Slick Extra Hand Self closing type. Tip is at a 45 degree angle to the handle. To open, just squeeze the handle, to close release the finger pressure. Use it to hold materials to place on hook, to hold finished flies to apply head cement or to put a leader through the eye while on the stream. Length 2 1/4".	2076				10.50

Item Name	Part #	Pack	Color	Size	Price
Tools					
Tweezers, Rubis Rounded Tip					
Rubis stainless steel rounded tip tweezers are made in Switzerland. This is a superior tool with excellent picking and holding ability. The round tip enables the tier to pick up materials much more easily than pointed tips. Length 3 1/2" .	4336				38.95
Tweezers, Rubis Slant Tip					
Swiss made. A very high quality stainless steel tweezer with a 45 degree slant. Inside of the tweezers have a smooth gripping surface.	2070				27.95
Tweezers, Solingen Fine Point (Dovo)					
From the German scissors manufacturer. Fine point with flat gripping surface inside tips.	2074				20.00
Tweezers, Wapsi Beadzers					
A reverse action tweezer with fine cupped points designed to pick up beads allowing ease of slipping the hook point into the bead hole.	2066				8.25
Tweezes, Tweezerman Slant					
Made in Italy, these tweezers are very high quality and will pick up material with ease. Tweezers have so many uses in tying from picking up beads, to separating hackle barbs, to placing material in a specific spot that is difficult to do with your fingers.	2072				22.00
UV LED Light					
UV light designed to emit 385-400nm wavelength which is perfect for curing Bug-Bond. The light requires 3 AAA batteries (not included)	9126				14.25
UV LED Light, Loon					
Works indoors to quick cure UV Loon Products such as Knot Sense, UV Fly Paint, UV Wader repair and UV Boat Patch.	2218				21.95
UV LED Light, Loon - Mini Lamp					
Same as the standard lamp only small in size for use on your vest, or to carry in tackle bag. For use on UV glues or paint.	2226				12.50
Whip Finisher - Salt Water, Wasatch					
This is an extra long reach whip finisher for saltwater patterns, or for use on very long hooks where the tier needs to place a whip near the hook bend. The business end of the tool is 3" long. Overall length is 6". Cocobolo wood handle with gold tapered top and bottom on the handle. This whip finisher is longer than the Matarelli long reach model.	4871				14.95
Whip Finisher, Griffin - Standard					
Rotating whip finishing tool. Handle is 3" long with tool part at 1 1/2". Well made tool providing good service.	9200				8.50
Whip Finisher, Rotating Long Reach					
Cascade Crest tool. A full rotating whip finisher designed after the great tool maker Frank Matteralli.	9202				7.00
Whip Finisher, Stonfo					
High quality whip finisher tool for tying heads of any size fly. Made in Italy. Imported from England.	9529				7.25
Whip Finisher, Terra Deluxe Rotating					
A very nice tool. Standard size Whip Finisher. Knurled, tapered aluminum handle. Directions included.	9201				4.50
Whip Finisher, Terra Extended Reach					
Standard extended reach finisher, rotates, knurled metal handle.	9199				4.50
Whip Finisher, Terra Finesse					
The perfect tool for tying a whip finish knot on small flies fast and easy. Instructions included.	3408				4.00
Whip Finisher, Terra Rotating					
This rotating whip finisher makes tying the whip finish knot fast and easy. Instructions included.	3406				4.00
Whip Finisher, Tiemco Midge					
Scaled down size of Matarelli style rotary whip finish tool for size 18 and smaller flies.	2371				25.99
Whip Finisher, Umpqua Dream Stream					
Dream Stream tying tools are made with Japanese grade stainless steel.	2028				5.99
Whip Finisher, Wasatch - Klinks					
	9890				12.50
Whip Finisher, Wasatch "Springo" Rotary					
This is a rotary whip finisher with a flexible end that allows the tier to apply extra thread tension and not break the thread. The hook end of the tool will flex if too much pressure is applied to the thread. The handle of the tool is made of cocobolo wood. Length 4 1/2".	2485				14.95

Item Name	Part #	Pack	Color	Size	Price
-----------	--------	------	-------	------	-------

Tools

Whip Finisher, Wasatch Springo Midge A Matarelli style rotary whip finisher tool with a spring mounted on the business end of the tool to reduce tension on the thread. This is a perfect tool to work on when learning the whip finish. The spring has some "give" if too much tension is placed on the tool by the tier. Once the technique has been mastered the tool can still be used like a whip finisher with no spring. Overall length 3 3/4".	2210				13.95
Whitetail Zonker Cutter Replacement Parts Includes 2 nuts, 6 - 1/8" spacers, 5 - 1/4" spacers, 2 - 1/2" spacers.	4027				3.95
Wing Burner, Adult Caddis Fly Set of 3. Brass Instructions included.	9305				10.00
Wing Burner, Caddis Set Half Wing Economy set of 3 individual sized burner patterns, polished steel finish. Instructions included.	9220				10.00
Wing Burner, Mayfly Wing Set Economy set of 3 individual sized burner patterns, polished brass finish. Instructions included.	9221				10.00
Wire Cutter, Sport Tools - Heavy These flush cutting pliers are well suited to cutting wire, lead, heavy mono, tinsel, plastic eye stems, etc. Soft rubber grips on handles. Cutting blade length 5/8". Overall length 6". Spring action opening and closing.	4890				24.95
Wire Cutter, Sport Tools - Short Nose This style of cutter is designed just to cut wire, heavy mono, and other heavy materials. The cutting area is 1/4" long with round ends. The handles are blue rubber for easy gripping. Spring action opening and closing of the cutting blades. Overall length is 5 1/2 .	4894				23.95
Zonker Cutter, Whitetail Fly Tying This simple but effective tool is for tiers who want to make their own zonker or crosscut strips. Also handy for cutting foam. The cutter comes with all the parts to make 1/8" to 1" wide strips by placing nylon spacers to desired spacing. Helpful hints for set up and use of cutter are included. Check out the Whitetail Fly Tying Zonker Jig to go with the cutter, (Item# 4834)	4833				21.45
Zonker Jig, Whitetail Fly Tying Whitetail now offers a handy, adjustable zonker/crosscut strip jig for tiers who want to make their own strips from Rabbit or other animal skins. This compact easy to use jig sets up in minutes and provides the tension required for clean, straight stripping. The Jig and Cutter can also be used to cut foam. We also offer a cutting tool Item# 4833. The Jig and Cutter can be purchased as a set for added savings. Item# 4835.	4834				32.50
Zonker/Crosscut Jig and Cutter, Whitetail Fly Tying Whitetail Fly Tying now offers a handy, adjustable zonker / crosscut Jig and Cutter Set to make strips from 1/8" to 1" of Rabbit skins or other animal skins. This compact easy to use jig sets up in minutes and provides the tension required for clean, straight stripping. In conjunction with our CutterTool tiers can make custom cuts from 1/8" to 1" wide right at their tying bench. Jig measures 10 1/2" x 5 1/4" x 5".	4835				45.85

Tube Fly Materials

Vises & Accessories

A.K. Best Bobbin Hanger (Mckenzie)					
Stand alone bobbin hanger	5611				59.95
Apex Vise, Wolff Indiana					
An ideal vise for the beginner or intermediate tier with a limited budget. The vise is constructed with machined stainless and tool steel jaws. The jaws will hold a size 6/0 or a size 32 hook and it has notches to handle medium and larger size hooks. Fully rotational in-line jaws are standard. An adjustable tilt allows the tier to set the jaws at a comfortable angle. Options for Base, C-Clamp or Both. Lifetime warranty. Made in USA.	2030				145.55
Atlas Vise, Wolff Indiana					
Choose Pedestal or C-Clamp or Both.	5610				178.50
Bobbin Holder (Regal)					
Regal bobbin holder that has a black powder finish.	9430				15.00
C-Clamp with Double Quick Connect					
This can be used to mount Goose Neck Lamps and / or Magnifier to the tying bench.	2151				42.00
C-Clamp with Single Quick Coupler					
These are used to mount the Goose Neck Lamp or Magnifier to the tying bench.	2723				22.00
Dyna-King 2002 Tube Fly Vise					
Includes four different size mandrels and tube samples. For the tier that ties large numbers of tube flies this vise is just the ticket to efficient tying. The vise jaws are horizontal to the tying table. It is fully rotational. All stainless steel and tool steel construction, with a large aluminum c-clamp.	1999				299.00
Dyna-King 3" - Extended Wire Trim Bag					
For Rotary Visers, 3" deep. Centers directly below the hook to catch all the waste. Made from soil resistant nylon. Removes easily from emptying and can be adjusted up or down on shaft.	2003				38.00
Dyna-King Barracuda Indexer					
The Barracuda offered with an indexing feature to aid in the tying of epoxy flies. This unique indexing system enables the vise to rotate freely and /or to stay stationary at eight points located on the axis of rotation.	5605				489.00
Dyna-King Barracuda Junior Rotary Vise - C-Clamp					
This is a scaled down model of the standard Barracuda vise. The spindle is 1/4" wide rather than 3/8" that is found on the standard Barracuda and Trekker model. The bearing housing is also smaller.	1981				385.00
Dyna-King Barracuda Junior Rotary Vise - Pedestal					
This is a scaled down model of the standard Barracuda vise. The spindle is 1/4" wide rather than 3/8" that is found on the standard Barracuda and Trekker model. The bearing housing is also smaller.	1993				385.00
Dyna-King Barracuda Rotary Vise - Clamp Base					
This model is Dyna King's most popular model. The design allows the tier to still be able to place the material holding hand behind the jaws in a reasonably comfortable position. This is the area when many true rotary vises come up short because the jaws are located too close to the bearing housing. Includes bobbin holder and material holder.	1801				435.00

Item Name	Part #	Pack	Color	Size	Price

Vises & Accessories

Dyna-King Barracuda Rotary Vise - Pedestal Base This model is Dyna King's most popular model. The design allows the tier to still be able to place the material holding hand behind the jaws in a reasonably comfortable position. This is the area when many true rotary vises come up short because the jaws are located too close to the bearing housing. Includes bobbin holder and material holder.	1975				435.00
Dyna-King Barracuda Trekker Rotary Vise C-Clamp C-Clamp model	1994				285.00
Dyna-King Barracuda Trekker Rotary Vise Pedestal Pedestal Base	1977				285.00
Dyna-King Barracuda Ultimate Indexer - C-Clamp with Outrigger This new vise adds a number of features to the popular Barracuda Indexer Vise. Features include: free rotating body, 90 degree angle handle extension, innovative angle adjustment on the shaft to raise the body and jaws up, and a new bobbin design mount on the shaft. Comes with large c-clamp and Outrigger, adjustable Bobbin Hanger, 90° Handle, Instructional DVD, and Centering Gauge.	1979				550.00
Dyna-King Barracuda Ultimate Indexer - Pedestal This new vise adds a number of features to the popular Barracuda Indexer Vise. Features include: free rotating body, 90 degree angle handle extension, innovative angle adjustment on the shaft to raise the body and jaws up, and a new bobbin design mount on the shaft. Comes with large c-clamp and Outrigger, adjustable Bobbin Hanger, 90° Handle, Instructional DVD, and Centering Gauge.	1804				550.00
Dyna-King Bobbin Hanger with Swing Arm Machined from stainless steel, fully adjustable. Conveniently holds bobbin out of the way to allow winding of tinsels, chenilles, etc. Mounts on vise with 3/8" shaft. Available for pedestal or clamp base models.	5612				40.00
Dyna-King Centering Gauge For Rotary Vises. Please specify Vise Model as we will have to order for each model. We have a "Barracuda" and a Barracuda Junior in stock.	1238				17.95
Dyna-King Clamp with Outrigger For Trekker and Barracuda Junior Rotary.	5606			Small	59.00
Dyna-King Ergonomic Supreme Vise - Clamp This model has an extra long body that provides the most comfortable place to lay your material holding hand while you are tying. This type of vise enables the tier to have unencumbered access to the jaws and eliminates any awkward hand position to place materials on the hook. For those tiers that need to set wings on dry flies, Bergman style wet flies, or classic style Atlantic salmon flies. Large C-Clamp or pedestal model. Comes with an Outrigger and bobbin hanger.	1983				369.00
Dyna-King Ergonomic Supreme Vise - Pedestal	1986				369.00
Dyna-King Extended Body and Parachute Tool Used to tie extended bodies, using monofilament line as a body core on which to build your fly and parachutes. Also doubles as a Gallows Tool.	5614				79.00
Dyna-King Fly Tying Kit Includes Dyna King Kingfisher Vise, Dr. Slick tool kit including a medium brass hair stacker, scissors, and ceramic tip bobbin, Matarelli style whip finisher, hackle pliers, half hitch tool/bobbin, and bobbin threader, along with the new book "Basic Fly Tying" by Wayne Laullen. Mike Radencich did all of the photography and it is as good as you will see in any beginner's fly tying book. In addition a CD ROM is included with instructions on tying the elk hair caddis, along with all the materials to tie the pattern.	1973				285.00
Dyna-King Gallows Tool Acts like a third hand, used primarily for the tying of parachute flies. The spring maintains tension on either the tying thread or on the "post", as you wind your hackles around the thread or post. Simple to use, fully adjustable, easy take-down for travel. Fits most vises having 3/8" diameter shaft. Made of Stainless Steel and Black Delrin.	7112				29.75
Dyna-King Kingfisher "Limited Edition" Vise This is an upgraded version of the introductory vise best suited to beginners. Machined with solid brass and stainless steel. Model includes brass friction screw to aid it tying.	5199				195.00
Dyna-King Kingfisher Vise This is Dyna King's entry level vise for the beginning tier who wants a quality tool that holds the hooks properly with no slippage. The jaws and notch lock cam are the same as on the higher priced models. Comes with a small c-clamp. A pedestal is available. This is the best beginner's model on the market.	1987				175.00
Dyna-King Light Weight Bobbin Hanger Simple and convenient. Fully adjustable, made with delrin and stainless steel.	1612			10"	32.50
	4029			6"	29.99

Vises & Accessories

Dyna-King Lock-Set Screw	1992				15.00
Dyna-King Material Clip Add-On Barracuda	1234				22.50
Locks in position anywhere on the vise body. Adds greater height for the resting of materials and is easily adjusted. Also fits Indexer, Ultimate Indexer and Trekker					
Dyna-King Midge Jaw	9456				69.00
The midge jaws are flat with serrations to aid in tying hooks from 10 down to a 32. Please specify model. Dyna-King offers two types of Jaws, Standard and Midge Jaws. All Dyna-King vises come with Standard Jaws installed, unless specified when ordering your vise. Standard Jaws have two grooves for hook placement as well as a serrated tip for holding smaller hooks. Large hooks should be held in the rear groove, medium hooks are best held in the groove closest to the Jaw tips. Smaller hooks should be held in the Jaw tips. Standard Jaws will accommodate hook sizes 24-8/0. Midge Jaws are serrated and without grooves. Midge jaws have a narrower tip and will hold hooks from 10 down to a size 32. The Ergonomic Supreme and Side-Winder vise each has their own specific sized Jaws. Standard and Midge Jaws available for both.					
Dyna-King Outrigger Large	1984			Large 4"	9.99
4" Outrigger fits most Dyna-King Visers.					
Dyna-King Outrigger Small	1982			Small 3"	8.50
3" Outrigger fits Dyna-King Visers					
Dyna-King Professional Vise	1991				315.00
This is the first model that Ron Abby developed over 30 years ago. It is a 30 degree vise and has four different positive locking angle positions. Fully machined from bar stock stainless steel and aluminum. Comes with a lightweight bobbin hanger. Available in either pedestal or c-clamp model.					
Dyna-King Profile Plate	2015			Square	39.00
Colors: white, blue, green, or gray. The profile plate comes with an attachment to slide onto the vise shaft. It can be set adjusted to any height depending on whether a pedestal or c-clamp model is being use. Also fits on the vise extension.	2013			Round	39.00
Dyna-King Replacement Nut	1232				10.00
Can be used on Kingfisher and Trekker models.					
Dyna-King Screw (Friction)	1990				12.00
Dyna-King Screw (Rotary Lock)	1988				10.00
Dyna-King Set Collar	1236				8.50
Dyna-King Squire Vise	1997				199.00
This vise could be described as an "in between" vise from a price point perspective. It has a small c-clamp. The other features, materials, and jaws are similar to the higher priced Dyna King models. This is a 30 degree vise with the angle of the vise body permanently at that angle. The vise does rotate 360 degree as do all Dyna King models. From an ergonomic stand point it is more comfortable to tie on than any rotary vise.					
Dyna-King Standard Jaw	1240				69.00
All vises come with a standard jaw. If you wish to replace or have an extra please specify Vise Model and we will order. Dyna-King offers two types of Jaws, Standard and Midge Jaws. All Dyna-King vises come with Standard Jaws installed, unless specified when ordering your vise. Standard Jaws have two grooves for hook placement as well as a serrated tip for holding smaller hooks. Large hooks should be held in the rear groove, medium hooks are best held in the groove closest to the Jaw tips. Smaller hooks should be held in the Jaw tips. Standard Jaws will accommodate hook sizes 24-8/0. Midge Jaws are serrated and without grooves. Midge jaws have a narrower tip and will hold hooks from 10 down to a size 32. The Ergonomic Supreme and Side-Winder vise each has their own specific sized Jaws. Standard and Midge Jaws available for both.					
Dyna-King Supreme Vise	1989				315.00
It is a multi angle 30 degree style vise that is fully rotational. The adjustment setting is made at the factory. To change the angle of the jaws just hold the body of the vise and move it to the desired angle. No need to use any tools to make the adjustment. Available in either a c-clamp or pedestal model.					
Dyna-King Travel Pouch	2024			Small 10.5" x 6	19.95
A padded pouch with a zipper to allow easy transport of the vise. Comes in three sizes to cover any model made by Dyna King. Color is a medium blue.	2025			Large 13.75"x	24.00

Item Name	Part #	Pack	Color	Size	Price

Vises & Accessories

Dyna-King Trim Bag - 3"					
For pedestal and conventional model vises. This bag is to catch your fly trimmings. It is made to attach to any 3/8" vise shaft. It has a moveable Delrin attachment with a stainless steel ring with a set screw to position the bag at the desired level on the shaft. Made from soil resistant nylon. The bag wire frame slides into the attachment and can be easily removed for emptying the bag. The bag is 3" deep.	2020				35.00
Dyna-King Vise Extension - L Shape					
Extends vise out away from table, up to 5" and over a waste basket. Accommodates 3/8" vise shaft. Comes with Set Collar and Hex Wrench for Set Collar adjustment. Adjustable height, stainless steel. Helps to alleviate back and shoulder stress.	1965			Standard	40.95
	1966			Long	49.95
Dyna-King Voyager II Vise					
The Voyager II is an excellent home and travel vise with the ability to change the angle of the jaws to fit specific tying situations. Fully rotational, and comes with a travel pouch. Available in a c-clamp or pedestal.	1995				285.00
Extension Stem, Renzetti 3"					
For presentations and Masters.	9249				10.95
EZ Rotary Vise					
	5603				49.95
Griffin Vises Model 1-A					
Non rotating with a 30 degree angle jaw set. C, Clamp model only.	2050				49.95
Griffin Vises Model 2-A					
Non-rotating with an adjustable jaw set. C, Clamp model only.	2052				59.50
HMH Standard C-Clamp Vise					
This is an excellent trout fly tying vise. With the 30 degree adjustable angle it is very comfortable to tie on. Comes with fine point jaws. The Micro jaw and Magnum jaw are also available.	2040				350.00
Lamp and 24" inch Goose Neck					
Shade Rotation 1 1/2 Times, 120 Volt UL Approved 12' Heavy Duty Cord with Hospital Grade Plug. Polyvinyl-Coated 24" Goose Neck. Quick Coupler connection for mounting. C-Clamps with quick connect can be purchased separately.	2042				142.00
Magnifier, Goose Neck					
For tying tiny flies or Atlantic salmon flies. Comes standard with 2x magnification. It has a Rimless magnifier in a 24" gooseneck. Hard coat finish. Mounts to tying bench with a quick connect fitting. C-Clamp with quick connection can be purchased separately.	2048				96.95
McKenzie Bobbin Holder					
	1239				59.95
Miscellaneous - Vises & Accessories					
	8019				
ProLite Electronix Professional LED Light & Magnifier Kit					
Includes 220 lumens LED natural color to reduce eye fatigue and provide cool operation that doesn't need replacement under normal use. Has 60 degree beam for natural lighting. 18 inch flexible arms direct light and magnification. Four inch magnifier 2 power general with 10 power bifocal insert. Magnifier has fiber storage cover. Includes heavy non-tip base and C-Clamp with 2 1/4" opening for a thick table edge. Has an AC adapter and 8 foot cord.	2149				119.95
ProLite Electronix Professions Dual Head LED Light Kit					
Two 220 Lumen lights with daylight illumination. Flexible 18" arms direct light to any position needed. Comes with heavy, non-tipping table base with built in tray and magnet. Includes bench C-Clamp for surfaces up to 2 3/4" thick. Removable from table base and will mount to 3/8" post.	2150				129.95
Regal Medallion Big Game Jaws with Bronze Pocket Base					
The Big game head is specifically built to tie saltwater and large fresh water flies. It features two hook grooves machined into one side of the jaw. It holds large hooks extremely secure yet allows for tying tiny midges. From Tarpon to Trout, this is a great vise! Hook sizes 22 to 5/0. We include a material clip with this vise.	4001				335.00
Regal Medallion Big Game Jaws with Bronze Traditional Base					
The Big game head is specifically built to tie saltwater and large fresh water flies. It features two hook grooves machined into one side of the jaw. It holds large hooks extremely secure yet allows for tying tiny midges. From Tarpon to Trout, this is a great vise! Hook sizes 22 to 5/0. We include a material clip with this vise.	4003				335.00
Regal Model RCR-4 VISE					
This is the standard Regal vise. The jaws have been improved by changes in the tempering of the metal to eliminate chipping. The spring tension on the jaws has been reduced to make opening and closing the vise easier, yet still have the holding power of the original vise. The pedestal base can be ordered and drop shipped. The C-Clamp model is in stock.	2032				185.00

Vises & Accessories

Regal Model STN SCMM- 30 Clamp Base This is a new model with improvements including a more elongated set of jaws made of stainless steel. The hook holding notch is still a part of the jaws. The material clip has been removed, and the handle has been redesigned for easier gripping and opening and closing the jaws. Option of Pedestal base or C-Clamp. Hook size 32 to 2/0.	2036				260.00
Regal Rotary Vise RPBR-10P Pedestal Base This is another improvement made by the new owner of Regal Engineering. He has designed a vise that has smooth rotating body that can be turned with the handle, or by using the left hand just gripping the vise body. The angle of this vise can be adjusted from 30 degrees to horizontal. C clamp model, or the pedestal model. New easy grip handle. Black matt finish. Hook sizes 22 to 1/0.	2034				285.00
Regal Vise Model STNSBMM-40P Pocket Base Regal Medallion vise is the flagship of Regal's line. Pinnacle of vise technology. Open jaws, insert your hook and start tying. There is nothing to adjust even when you are switching from a tiny midge hook to a huge streamer hook. Medallion Vises revolve around a 360° axis and articulate 220° up and down. Bronze Pocket Base and stainless steel jaws. Hook sizes 32 to 2/0.	9429				355.00
Vise Jaws, Wasatch Midge for J Model This is a full 360 degree rotary vise with jaws to hold hooks from size 4/0 to 20. Machined from tool steel and brass. Comes with a bobbin hanger. The design of the spindle allows for resting the left land behind the jaws with easy access to the hook	2038				98.95

Wings, Tails & Body Materials

Barred Mayfly Tail Really makes your fly tails stand out. Colors: White or Lt. Dun	8066				4.30
Bett's Zing Clear (Celo-wing) Popularized by Jon Betts, a translucent material used for winging, spent spinner wings, mayflies, stoneflies, caddis wings. Translucent white, thin, very strong. Can be colored with permanent markers.	9377		Translucent		4.40
Body Fur A synthetic dubbing material that can be wrapped like hackle. Use for saltwater or freshwater patterns. Can be shaped and colored using prismatic markers. Colors: white, chartreuse, fluorescent yellow, fluorescent orange, red, light dun, dark olive, black, olive, fluorescent pink, and tan. Fibers are 3/4" long. 5 feet per package. These fibers can easily be pulled from the core to use a tailing material on streamers and nymphs. The same pieces could also be used for dry fly wings that have a little sparkle.	3116				3.85
Body Fur, Magnum Same material as standard Body Fur, but with 1" long fibers radiating from the core. Colors: white, olive, yellow, red, orange, chartreuse. Per 4 1/2 ft. For use on pike, musky, and large saltwater streamers. When the fibers are pulled from the core they can be used for a tailing material on streamers and nymphs. There is a small amount of 1/32" firm Flashabou type material integrated with the synthetic fibers. This material encourages the use of your imagination in finding practical uses for many fly patterns.	3120				6.95
Caddis Legs - Multi Pack This is short deer hair wound in a dubbing brush format to tie Olive Edwards taped wing caddis. One dubbing brush of each nine colors.	3101				9.00
Caddis Legs (Oliver Edward's) This is short deer hair wound in a dubbing brush format to tie Oliver's taped wing caddis. Colors: cinnamon, olive, light olive, insect green, brown, black, tan, rusty orange, dark gray, and light natural gray. Per package	3096				5.50
Chartpak AD Markers Permanent marker with Tri-Nib tips allows you to color any shape or material easily.	2056				6.75
Copic Sketch Markers These markers have 2 different points. Key componet if you use an air brush system. Colors: Insect Green and Olive Brown. SPECIAL ORDER Colors: Fluorescent Yellow, Fluorescent Purple, Fluorescent Pink, Fluorescent Orange, Fluorescent Green, Fluorescent Blue, Golden Olive, Yellow Olive, Olive, Rayal Blue, Reacock Blue, Red, Hot Orange, Green, Gray Dun, Black, Hot Pink, Orange, Yellow, Tobacco Brown, Rust, Medium Brown, Amber.	9354				7.95
Crystal Sheetz Durable, simply cut to desired shape and tie to a wide variety of patterns. Perfect for Flash Back patterns, streamer cheeks or wings on caddis, stones or mayflies.	9406				2.50
D - Rib Stretchy tubing in a solid half round D shape. Colors: Brown, Blood Red, Clear, Rust, Olive, Grey, Black.	9274			Small	1.85
	9275			Medium	1.85

Item Name	Part #	Pack	Color	Size	Price

Wings, Tails & Body Materials

Darlon					
A synthetic material similar to Z, Ion. Great for spinner wings, trailing shucks, wing cases, etc. Colors: white, pearl, tan, light dun, gold, olive, dark green, chartreuse, red, blue dun, shrimp orange, lime green, and amber. Per package.	3122				2.95
Diamond Braid - Dyed Pearl					
An excellent body wrap for streamer, steelhead, and bonefish patterns. Very easy to wrap. Colors: chartreuse, orange, hot pink, fluorescent orange, fluorescent chum green, olive, bonefish tan, fluorescent yellow, fluorescent shrimp pink, pearl, peacock, blue, claret, purple, root beer. 4 yards per package	3298				3.55
DNA Frosty Fish Fiber					
Helical fibers with a frosty sheen, perfect for bait fish patterns. Colors: Black, Polar, Lavender, Light Blue, Medium Olive, Orange, Red, Silver Gray, and Brown.	2569				3.50
DNA Holo Fusion					
This material is blended, semi translucent and has a perfect mix of Holo Chromosome flash and DNA fibers. Use for Clousers or any baitfish / minnow patterns. Colors: White, Shrimp, Tan. Other colors can be ordered. Call for list.	2571				4.85
Edge Bright					
Cut into thin strips then wrapped over silver tinsel will give you sharp glowing edges. Colors: Fluorescent Green, Fluorescent Pink, Fluorescent Orange, Fluorescent Red, Purple.	7174				2.75
Electric Ripple Ice Fiber					
Winging, dubbing, brushes and dubbing loops. Colors: All colors are Fluorescent. Blue, Chartreuse, Orange, Purple, Sunburst Orange, Yellow, Hot Pink.	1843				3.75
Embossed Pearl Flashback					
Durable embossed (dimpled) pearl material. Excellent for flashback, winging and accent; cuts easily. 3" x 12" sheet.	9404		Pearl		3.50
EP Fibers					
Enrico Puglisi synthetic fibers, 10 inches long, amazingly translucent with action in the water between marabou and bucktail. Ideal for medium to large baitfish patters like Menhaden, Herring, Mackerel, and Mullet as well as smaller imitations for freshwater. Colors: white, brown, sand, emerald green, black, gray, yellow, red, tan, chartreuse, orange, royal blue, slate, navy blue, bronze, sulphur, minnow, yellow chartreuse, gold, purple, pale olive, sunrise, pink, turquoise, sky blue, ocean gray, silver gray, olive minnow, and olive.	1570				8.85
EP Fibers 3-D					
Blended EP fiber colors to match the baitfish. 10" lengths. Colors: Eel Green, Olive, Pilchard, Baitfish Belly, Tarpon, Sardina.	1571				8.85
EP-Silky Fibers 3-D					
Blended mix of colors. 7" in length. Colors: Speckled Gold, Brown, Olive, Speckled Gold, and Chartreuse.	2577				7.25
Etha - Wing					
This material works great as an over wing on Chernobly Ants, an underwing on Stimulators and as a durable, life-like sub for turkey quills. Great for Mayfly, Caddis and Stonefly wings. Colors: Mottled Web, Plain Web, Dun, Trico White.	9379				3.85
Extra Select Craft Fur					
Replaces the old style craft fur. The fibers are finer and longer. The fibers pulsate in the water much more than the former material. For all types of fresh and saltwater streamers. Colors: purple, white, bright green, tan, bright orange, red, medium brown, fluorescent blue, navy blue, salmon pink, black, yellow, chartreuse, medium olive, medium dun, gray/olive, kingfisher blue, orangutan rust, and gray. Per 5" x 5" piece	1564				4.85
Faux Bucktail Fish- Skull					
Fish-Skull Faux Bucktails have the same basic diameter, gentle crinkle and natural taper as bucktail. Colors: Black, Blue, Chartreuse, Fluorescent Pink, Gray, Olive, Orange, Purple, Red, White, Yellow, Tan.	1840				6.20
Fish Skull CrawBody™					
Lightweight, synthetic suede, crayfish exoskeleton with a realistic profile. Colors: Olive and Brown	3335	8		Medium	3.25
	3339	8		Large	3.25
	3347	8		Small	3.25
Flashback					
A plastic sheet material that can be used for wing cases, shells on scuds, shrimp, crayfish, and cut wins for dry flies. This material is translucent and very strong. It can be placed in a manilla folder and ironed for 2-3 seconds to create a sturdy, flat, veined, wing material. Colors: sunset, blue marlin, thin gold, kelp, thin emerald, cutthroat, chili powder, and gold. Per 6" x 7" sheet. NO LONGER AVAILABLE - SUPPLY LIMITED TO CURRENT STOCK.	3143				2.00

Wings, Tails & Body Materials

Flexibody This material is imported from England and is featured in Oliver Edward's book "Fly Tyer's Masterclass." Used for wing cases, scud body backs, wrapped bodies, etc. Colors: orange, chartreuse, yellow, red, black, green, clear, brown, gray, fluorescent orange, fluorescent green, olive, dark olive, gold, silver, light tan, sulfur yellow, dark tan, rusty brown, mahogany brown, pink, white. Instructions in each package. TIEING TIP: To cut this material use a straight edge and Exacto knife, or single edge razor blade.	3134				4.95
Frizz Fiber A silky soft wing material with a scale like kink, This material is much softer but still manageable compared to Kinky Fiber, Super Hair, etc. it is well suited to pike flies, saltwater streamers, bass bug tails, Thunder Creek style flies, and could also be used as a trailing shuck for caddis patterns. Colors: natural, cerise, chartreuse, hot pink, black, white, light olive, red, dark green, and misty (pale) blue. The overall length is eight inches. Per package.	1566				2.95
Gold Twist Round 3 strand body braid. Spooled	9025		Gold		4.50
Gudebrod HT R. B. Oval, lead core twisted tinsel for wrapping bodies on small hooks, or use as ribbing. Diameter is .025". Colors: gold and silver. Per 5 yard spool. While supply lasts.	3208				3.95
Gummi Flash Foil Designed to be used with Gummi Body. It can also be used on setting epoxy flies. Great with all foam products when applied over a spray adhesive. Colors: Olive, Bronze, Belly Pearl, Mother of Pearl, Holographic Silver.	9436				2.50
Gummy Body Clear body material to tie baitfish imitations such as the Gummy Minnow. Can be used with Gummi Flash Foil to create different minnow body colors. Instructions included. Thickness either .20 or .40". Two 2" x 6" sheets per package.	3138				3.00
Gummy Flash foil A reflective material to place under Gummy Body or Sili Skin to provide a minnow appearance. Colors: holographic silver, belly pearl, olive, bronze, and mother of pearl. Per roll.	3140				2.50
Hi-Vis™ A synthetic material similar to Antron for all types of dry fly wings, parachute wings, emergers, caddis wings, streamer wings, etc. Colors: white, black, fluorescent pink, light dun, medium dun, dark gray dun, smokey gray, red, orange, lime, purple, yellow, beige, olive(golden), tan, sulphur, pink, olive, red/ brown, smoke, chartreuse, rust, brown, orange, bronze, gold. This is the most effective material on parachute posts and spinner wings. If you have difficulty in seeing parachutes on the water, especially toward dark or in white water, fluorescent pink is the color to use. Make sure to use a little Wapsi Z-ment on the base of the parachute wing and on the thread posted portion of the wing. This step bonds the wing to the hook shank and makes a much more durable fly. Use a FLAT thread to attach the High-Vis to the hook shank and to wrap the parachute post. The three best selling colors are white, fluorescent pink, and light dun.	3114				3.25
Latex Sheets Two 5" x 5" latex sheets that can be cut to make wrapped bodies and wing cases. Cream color can be changed with a Prismatic marker. Material can be cut with a straight edge and double edged razor blade, wing burners, or River Road Creation Cutters. Available in two sizes. (.005 or .011) To achieve a tapered body on a scud hook, Use a piece of lead tape cut in a long triangular shape to wrap over the hook shank before completing the body taper with a flat 140 denier thread. Attach the sticky back lead near the end of the shank and abut the wraps forward. Wrap to with in a 1/8" of the hook eye, then wrap back to the bend about 2/3 of the way. This process will provide a nice tapered body, and add some extra weight to the fly. Complete the taper with the 140 denier thread. Then add the wraps of latex to complete the body. This method is particularly effective on pan fish and trout patterns.	3150				2.00
Latex Strip Two 1" x 18" latex sheets that can be cut to make wrapped bodies and wing cases. Cream color can be changed with a Prismatic marker. Material can be cut with a straight edge and double edged razor blade, wing burners, or River Road Creation Cutters. To achieve a tapered body on a scud hook, Use a piece of lead tape cut in a long triangular shape to wrap over the hook shank before completing the body taper with a flat 140 denier thread. Attach the sticky back lead near the end of the shank and abut the wraps forward. Wrap to with in a 1/8" of the hook eye, then wrap back to the bend about 2/3 of the way. This process will provide a nice tapered body, and add some extra weight to the fly. Complete the taper with the 140 denier thread. Then add the wraps of latex to complete the body. This method is particularly effective on pan fish and trout patterns.	3151			.020	1.00

Wings, Tails & Body Materials

McLean's Quill Body Material

These are porcupine quills. It makes a slim, neat body on a dry fly or it can be used as a rib. The quills are very flexible and do not require soaking. Colors: brown, gray/olive, P.M.D., olive, sulphur orange, rust, yellow, caddis green, tan, slate dun, and melon quill (reddish brown). Approximately 24 quills per package. Please note that Rob McLean has given up working his product line due to some physical problems with his hands. Available product is limited to current inventory.	3108			Large 10 -16	3.95
	9411				3.95

Medallion Sheeting

Many customers have requested the versatile wing material. Used for upright and down wings as well as wing cases. Colors: clear, light dun, brown, dark dun, tan, olive, mottled brown, and mottled (hopper) yellow. Per package.	3084				5.75
---	------	--	--	--	------

MicroFibbets

Ultra thin, tapered nylon fibers. They are the ultimate material for creating realistic mayfly tails. A marker can be used to add barring to the tails enhancing their realistic appearance. Colors: black, white, light dun, ginger, olive, dark dun, brown, red brown, light brown, light blue dun, and yellow. Per package.	3089				2.60
--	------	--	--	--	------

Midge Diamond Braid

Same material as the medium Dyed Pearl Diamond Braid except that it is much finer for use on 12 or smaller hooks. It can be wrapped in a traditional method or woven if desired. Colors: black, caddis green, peacock, olive, chartreuse, root beer, claret, orange, dark brown, pearl, shrimp pink, medium brown, bonefish tan and blue. Per package.	3300				3.55
--	------	--	--	--	------

Midge Tubing

Use for body material much the same as Larva Lace® Midge Lace. Round hollow. Colors: Amber, Fluorescent Chartreuse, Olive, Red, Black.	9271				1.50
--	------	--	--	--	------

Midge Wing Material (Niche)

The same material as siliconized polypropylene only finer and straighter. This material is suitable for size 18 and smaller flies. Colors: white or dun. Per package. (6 feet).	1576				3.25
---	------	--	--	--	------

Miscellaneous - Wings Tails & Body Materials

8020

Mystic Wing Material

A fine shear-style winging material designed to be cut with scissors. Durable, no fraying, accepts Prismatic color markers. 21 Sq. inches.	9407		Natural Pearl		2.50
--	------	--	---------------	--	------

Parapost Material

A slightly crinkly nylon material used to make wing posts. Colors: fluorescent yellow, and fluorescent orange. Per bag.	3128				2.25
---	------	--	--	--	------

Pearlescent Sheets

Pearl/ iridescent sheeting, transparent, handles and cuts easily for a wide range of tying. 28 sq. inches.	9403		Pearl		3.50
--	------	--	-------	--	------

Pearlescent Wing

Multi colored pearlescent mylar sheeting for flash back nymph patterns and scud backs. Cuts easily for most uses. Colors: Pearl and Orange.	9405				2.85
---	------	--	--	--	------

Polar Fibre

This is a spher, soft, pre-tapered synthetic fur that will give any pattern incredible action in the water. Life like material for bait fish imitations, streamers and various attractor patterns. It is great when tying with epoxies and can be easily marked with indelible marking pens for a more realistic, fish fooling presentation. Polar fibre will hold it's shape in the water, eliminating the pulsing effect that you get with flies tied with natural materials. Virtually indestructable and dries quickly. Colors: black, white, purple, off white, chartreuse, electric yellow, misty black, olive, misty camel, beige, camel, pink, hot pink, hot orange, and shrimp. Per large bag.	3110				4.35
---	------	--	--	--	------

Polypropylene Floating Yarn

For wrapping dry fly bodies and parachute posts. Colors: white, black, gray, oyster white, light yellow, hopper yellow, golden yellow, light orange, orange, chartreuse, fuchsia, light gray. Per 15 foot card.	3132				1.85
---	------	--	--	--	------

Prismacolor Markers

Used to color white thread, mylar tubing, deer hair, or almost any synthetic material. Colors: dark brown, leaf green, ultra marine blue, chartreuse, pumpkin orange, orange, olive green, cool gray, crimson red, light violet, sepia (brown/gray), yellow ochre, pink, dark green, black, and clear blender. Each end of marker has a different size tip (Broad & Fine)	3147				6.75
---	------	--	--	--	------

Rattles Glass Rounded End

Loud glass rattles with rounded ends. Put in the belly of a zonker. Sizes: Micro 3mm, Mini 3mm, Standard 4mm, Large 5mm. Per package 12.	8077	10			5.40
--	------	----	--	--	------

Rattles Plastic

Loud rattles. Rounded end with stem on one end to lash to hook. Sizes: Small and Medium. Package of 10.	8078	10			4.00
---	------	----	--	--	------

Item Name	Part #	Pack	Color	Size	Price

Wings, Tails & Body Materials

Ripple Ice Fiber Made for flashy winging and flashy dubbing loops. Less is more. Colors: Black, Blue UV, Chartreuse, Copper, Fluorescent Yellow, Gold, Minnow Mix, Olive, Orange, Peacock, Pearl Green Hue, Pink, Red, Shrimp Pink, Smolt Blue, UV Pearl, Yellow.	1841				4.15
Sili Skin This is the material used to tie (or assemble) Chocklett's Gummy Minnow series. Creates extremely realistic and effective baitfish patterns. Contains two 2" x 6" strips of one-sided adhesive with instructions. Colors: belly white, olive, road slick silver, road slick marble prism, copper, mother of pearl, prismatic scale/silver, and metallic silver.	3136				9.25
Siliconised Polypropylene Yarn A Niche product from England for spinner wings, comparaduns wings, parachute wings. Extremely water repellent. Colors: white, black, and dun. Per package.	1574				2.85
Siliconised Polypropylene Yarn Midge Wing A Niche product from England for spinner wings, comparaduns wings, parachute wings. Extremely water repellent. Colors: white, and dun. Per package.	9355				3.25
Sparkle Braid For bodies on streamers, bonefish patterns, etc. Colors: silver, gold, chartreuse, purple, copper, Kelly green, peach/pearl, copper/pearl, copper brown/pearl, root beer/pearl, peacock/pearl, red, pink, multicolor pearlescent, royal blue, black, white, gray/pearl, green, fluorescent pink, tan/pearl. Per spool.	3302				2.25
Streamer Hair Natural wool 6-8 inches in length. Has a fine texture that breathes in the water. Good for small to x- large streamers and tails. Breathes like marabou. Colors: fluorescent orange, burnt orange, black, light olive, yellow, white, chartreuse, Kelly green, royal blue, brown olive, red, fluorescent pink, purple, olive, tan, orange, shad gray.	1568				4.55
Stretch Tubing Hollow tubing with lots of stretch and good memory. Excellent for Midges or wrapping a segmented body. Colored wire can be threaded through it or filled with liquid for exotic looks. Colors: Black, Yellow, Orange, Shrimp, Green, Clear.	9272				3.65
Super Floss Larva Lace© product. Lycra floss that is extremely strong, very translucent and it stretches. Use on everything from Nymphs to Streamers. Ideal for Bonefish and Chironomids too. Sold in 12" hanks, 48 strands per hank. Colors: Pale Olive, Burnt Orange, Rusty Olive, Light Brown, Brown, Dark Amber, Fuchsia.	9270				3.50
Super Hair 11" long fine wavy texture synthetic hair for salt and freshwater streamers. Extremely life like. Can be mixed with any number of the flash materials for beautiful streamer bodies. Colors: fluorescent green, sea foam green, chartreuse, pink, orange, white, yellow, olive, brown, tan, lavender, peacock, dark blue, light blue, purple, peach, golden rod, polar bear, green.	1572				3.75
Synthetic Yak Hair This synthetic looks like authentic Yak hair. It has the same type of waviness and just a slight sheen. Over all length is 20 inches. This is the ideal long material for fly patterns to attract stripers, musky, pike, barracuda, sharks, etc. It can be cut into any length to even tie a streamer on a 4x size 6 trout fly. Colors: White, Pink, Black, Fluorescent Chartreuse, Fluorescent Red, Aqua, Yellow, Cream, Silver Gray, Gray, Fluorescent Green, Seal Brown, Fluorescent Orange, Lavender, Red, Royal Blue, Olive, Golden Olive,	5337				5.95
Tails Similar to Micro-Fibbets but 40% thinner. Designed for small flies, size 18-28. Colors: white, ginger, olive, dark dun, black, red brown, light dun. Per package.	3092				2.60
Ultra Lace A hollow tubing for segmented bodies. Some tiers insert wire for added sink rates without adding bulk to their flies. 3 yards per package. Colors: Pink, Amber, Lime, Chartreuse, Clear.	9276			Medium	2.00
Unique Hair 11" long, similar to Super Hair but with finer fibers for a softer feel. Ideal for streamers. Colors: White, Polar Bear, Yellow, Orange, Gray, Tan, Brown, Red, Green, Light Blue, Olive, Purple, Black, Smoke Gray, Peach, Peacock, Gold, Fluorescent Green, Fluorescent Chartreuse, and Fluorescent Pink.	2567				3.75
V - Rib - Small Flat on one side, oval on the other. 3 yards per package. Small is used for sizes 18 - 14 hooks. Colors: Pink, Amber, Chocolate Brown, Black, Chartreuse,	9273				2.00

Item Name	Part #	Pack	Color	Size	Price

Wings, Tails & Body Materials

Virtual Nymph Skin

From England, a new type of latex in strips that can be used for stonefly bodies, caddis pupa, etc. It stretches, doesn't become sticky in your fly box and isn't affected by UV rays. It easily marks with prismic markers. Oliver Edwards has tied some truly amazing flies with this product. Nymph Skin is featured in the Winter 2001 issue of Fly Tyer Showing the tying or realistic stonefly nymphs. Colors: translucent, natural, yellow sally, and black.	2572			4.5 mm	3.95
	3112			3mm	3.95

Web Wing

A non-fraying translucent material that can be used for mayfly, caddis, hopper, or stonefly wings. Can be cut with a wing cutter or scissors. Colors: white, light dun, medium dun, tan, hopper yellow, brown, black and olive, mottled hopper yellow, mottled medium dun, mottled light dun, mottled brown, mottled tan. Two 2 1/2" x 4" pieces per package.	3144				3.65
---	------	--	--	--	------

Wing Ribbon

Use for wings, underwings on hoppers, cicadas, crickets and stoneflies. Other uses, scud backs, casings on flashback nymphs, fly ants, bumblebee wings, etc. Includes use directions. 18" per package.	9376		Pearl		2.45
--	------	--	-------	--	------

Wing-Fiber by SAAP

This long poly material is mixed with a small amount of 1/32" flash material to give the wing just a bit of sparkle. Colors: tan, fl. chartreuse, fluorescent yellow. Strands are 8" long.	5469				2.95
--	------	--	--	--	------

Wings & Things™

Spirit River's unique, patented fly film. Ideal for all types of wings as well as shellbacks, thoraxes, and nymph backs. 60 inch strips. Colors: Mottled Brown, Clear, Mottled Tan, Hopper Yellow.	9378				2.95
--	------	--	--	--	------

Z-Lon, Kinky

According to Craig Matthews of Blue Ribbon Flies of Yellowstone, MT, Z-Lon is a totally different product from Antron, although tyers often think they have very similar characteristics. Z-Lon holds its shape and does not mat together when wet like Antron. Nothing is better for natural looking shucks and wings on patterns like the X-Caddis. Colors: white, light dun, olive/brown, dun, ginger, amber, light olive, brown, dark olive, black.	9356				6.95
---	------	--	--	--	------

Z-Lon, Straight

According to Craig Matthews of Blue Ribbon Flies of Yellowstone, MT, Z-Lon is a totally different product from Antron, although tyers often think they have very similar characteristics. Z-Lon holds its shape and does not mat together when wet like Antron. Nothing is better for natural looking shucks and wings on patterns like the X-Caddis. Colors: white, light dun, olive/brown, dun, ginger, amber, light olive, brown, yellow.	3124				6.95
--	------	--	--	--	------

Wire, Lead & Weed Guard Materials

American Fishing Wire "Titanium Tooth Proof" Leader

Black oxide color. Use to make pike and barracuda leaders. Doesn't kink, is very durable, and one leader lasts a long time. 40lb. test (18 kg) 15 ft coil.	3394				16.75
--	------	--	--	--	-------

American Fishing Wire Duo Lock Snaps

	3393			#3 (40 lb. test)	7.99
	3395			4 (50 lb. test)	7.99

American Fishing Wire, Sleeves

Attach to titanium wore to hold snaps or place a loop at the other end of the leader. Sleeves are No. 2 with an inside diameter of 0.047". Per package of 36.	3400				3.50
---	------	--	--	--	------

American Fishing Wire, Split Rings

30 lb.	1949	36			3.50
--------	------	----	--	--	------

American Fishing Wire, Surfion Nylon Coated Wire

Stranded (1X 19) "Surflon Micro Ultra Wire" from American Wire. Nylon coated miniature 1 x 19 knotable stainless steel wire. This wire can be knotted like standard mono. For pike and other toothy fish leader tippet. The loop may also be closed by using a #2 AFW sleeve. Knots that work with this wire include the Perfection Loop, Improved Clinch, Surgeon's Knot and Uni Knot. Instructions are provided on back of package. 16 ft. spool.	3421		Black	17.6 lbs 16' sp	9.95
	3423		Bright	17.6 lb 16' spo	9.95
	3424		Camo	26.4 lbs 16' sp	9.95

Channel Lead

A different concept in weighting flies. Strips of lead extruded with a channel or groove in it. To make any fly ride upside down "point up" simply lay a strip on the top of the hook shank and secure it with a few wraps of thread. If you want the fly to ride with the hook point down simply tie the channel lead on the underneath side of the hook shank. An alternative to expensive scud weights, with more sink per inch. Sizes: Small and Medium.	1587				3.75
--	------	--	--	--	------

Item Name	Part #	Pack	Color	Size	Price
-----------	--------	------	-------	------	-------

Wire, Lead & Weed Guard Materials

Cortland LLC-13 Lead Core					
Allows fly fisherman to build their own shooting tapers, sink-tips or weighting leaders. 13 grains per foot. Simply cut LLC-13 to desired length and weight. Attaches easily by using Cortland's Braided Slip-On Leader Loops.	1951			30 ft	17.95
Economy Wire Fine					
For general tying needs.	3315		Gold		1.35
	3316		Silver		1.35
Knot Kinky 2 - Nickel-Titanium Leader Wire (NiTi) Size 18lb. 15 ft.					
A new product for toothy fish. The Nickel-Titanium material is very elastic with 10% to 15% stretch, is kink resistant, and incredibly straight, as well as corrosion free. Standard knots such as the Perfection Loop, Clinch, and Albright work well with this material. An option is to use a metal sleeve and crimp the loop. Attach a 40 lb. clip to attach the flies.	3390				8.99
Knot Kinky 2 - Nickel-Titanium Leader Wire (NiTi) Size 25lb. 30 ft.					
A new product for toothy fish. The Nickel-Titanium material is very elastic with 10% to 15% stretch, is kink resistant, and incredibly straight, as well as corrosion free. Standard knots such as the Perfection Loop, Clinch, and Albright work well with this material. An option is to use a metal sleeve and crimp the loop. Attach a 40 lb. clip to attach the flies.	3391				14.98
Lead Free Round Wire					
For the environmentally concerned tier. This material is about 20% lighter than lead. Sizes: .015", .020", .030, .035.	3373				4.00
Lead Tape					
Self adhesive lead tape used for zonkers and minnow bellie. Can be used to create flat, broad nymph bodies. 2 feet per package.	3384				5.95
Lead Wire Round					
Convenient spools in size: .010, .015, .020, .025, .030, .035. Per spool. Be sure to check the regulations where you will be fishing if lead may be used on your flies. Non lead wire may be a good substitute.	3378				3.55
Lead Wire Square					
Adds more weight per wrapped length. Needs to be "twisted" while tying to lay flat. Sizes: small .017, medium .027, large .035, and X large .040. Per spool.	3380				3.25
Mason Hard Type Monofilament Leader Material					
For use as weed guards on bass bugs, pike flies, etc.	1676			15 lb -100 yard	10.95
	1677			12 lb - 10 yard	3.75
	1679			12 lb - 100yard	10.95
	1680			16 lb -10 yards	3.75
	1681			16 lb -100 yard	13.95
	1682			20 lb - 10 yard	3.75
	1683			20 lb - 100 yar	13.95
	1684			25 lb - 10 yard	3.75
	1685			25 lb - 100 yar	15.95
	1686			40 lb - 10 yard	3.75
	1964			10 lb - 10 yard	3.75
	1967			30 lb - 10 yard	3.75
	1968			50 lb - 10 yard	3.75
	1969			60 lb - 10 yard	3.75
	3404			15 lb -30 yards	3.75
	2010			30 lb - 100 yar	15.95
Mason Single Strand Stainless Steel Wire					
Non corrosive. Use for leaders or weed guards. Sizes: 5 (.014), chrome. 25 feet.	1690			.014 Size 5	2.70
	1691			.016 Size 6	2.70
	1692			.018 Size 7	2.70
	1693			.020 Size 8	2.70
	1694			.022 Size 9	2.70
Micro cables					
Micro cables are non-toxic alternative to weighting a fly. Formed of twisted copper wire, coated with poly nylon; tough and flexible. For midge nymph bodies or ribbing. Four coils per package. Colors: peacock, olive, and olive brown.	3368	4			3.75
Miscellaneous - Wire, Lead & Weed Guard					
	8021				

Item Name	Part #	Pack	Color	Size	Price
-----------	--------	------	-------	------	-------

Wire, Lead & Weed Guard Materials

Nylon Covered Stranded Stainless Steel Wire					
This wire is called Nylostrand and is made by Mason Tackle Co. For pike leader tippet 9. 15 mm 15 lbs. and 20 lbs. test. specify size. Per 30 ft. To bond the material in a loop, twist the wire and quickly run a lighter flame close to the wire, and the nylon will melt and form a bond of the twisted section.	3418				2.95
Penny Bright Midge Copper Wire					
Wound on metal sewing machine bobbins. 100 Yard spool. Colors: Red, Green, Copper, Cobalt Blue, and Pink.	3320			39 Gauge - .00	2.95
	3321			38 Gauge - .00	2.95
	3322			37 Gauge - .00	2.95
Senyo's Intruder Trailer Hook Wire					
You can match your trailer hook wire to your fly. Doubled over tests out at ovr 50lbs breaking strength. Stiff enough to hold the hook in position without fowling. For hook sizes 6 or larger. 4 yards per package. Colors: Black, Blue, Chartreuse, Gray, Orange/Copper, Pink, Purple, Red.	1583				5.40
Super G Mini Lead Heads - 3 ft.					
Quick sinking, mini tips with loops on both ends easily connects between flyling and leader. Sends fly right to the bottom.	1953	2		27 lb test	7.95
Super G Mini Lead Heads - 6 ft.					
Quick sinking, mini tips with loops on both ends easily connects between flyling and leader. Sends fly right to the bottom.	1957	2		27 lb test	7.95
TYGer Leader - Knot Tying Stainless Steel, 10 ft					
This is stranded stainless steel, nylon coated, wire for use on leaders for pike, barracuda, bluefish, sharks, and other toothy critters. The 5 lb. is 21 strand wire, the 50lb. is 49 strand wire, and the 30 lb. is 49 stand wire. The most effective knot to use is a two turn clinch.	3388				10.00
TYGer Leader - Knot Tying Stainless Steel, 50 ft					
This is stranded stainless steel, nylon coated, wire for use on leaders for pike, barracuda, bluefish, sharks, and other toothy critters. The 15 lb. is 21 strand wire, the 50lb. is 49 strand wire, and the 30 lb. is 49 stand wire. The most effective knot to use is a two turn clinch.	1974				39.50
Ultra Wire					
A non-tarnishing copper wire. Use for ribbing, weight, flash, wire bodies and dubbing brushes. Colors: Copper, Copper Brown, Ginger, Brown, Wine, Red, Green, Olive, Black, Pink, Amber, Gun Metal Blue, White, Hot Yellow, Hot Orange, Blue, Chartreuse, Gold, Silver, Flourescent Chartreuse.	1607			Small	2.95
	1608			Brassie	2.95
	1609			Medium	2.95
	1610			Large	2.95
	3331			Extra Small	2.50
Wire Weed Guard					
Red Nylon Coated Stainless Steel, preformed wire, for Bill Sherer's Musky Flies. Sizes: Small and Large	3131		Red		4.00
Wire, Benecchi Copper					
Sizes: .10 mm (XXXF), .16 mm (XXF), .08 mm (XF). Per spool. Limited to current stock.	3311		Copper		1.75
Wire, UNI-French					
Very high quality. For ribbing nymphs and wire body flies. Colors: Copper and Silver.	1655			Small .06	4.75
	1656			Medium .08	4.75
	1657			Large .011	4.75
	3308		Gold	Extra Small	2.60
Wire, X-Fine (Lagartun)					
Size .0003. Colors: silver, gold, and copper. Per spool.	3172				4.87

The Global FlyFisher

<http://globalflyfisher.com/tie-better/fly-tying-thread-table>

Fly Tying Thread Table

Manufacturers, materials, diameters, breaking strengths and much more for a large number of fly-tying threads

Martin Joergensen

This table tries to summarize all available data on all current (and some discontinued) fly-tying threads and accompanies [the article on the subject of tying threads](#).

Much of the information presented here has been compiled from whatever data was available from the different manufacturers and their distributors and dealers as well as some independent sources. Care has been taken to double check everything, and whenever there were different specs on a thread, I have taken the one that gave the most benefit to it - not that this is necessarily right, but to be fair and let the doubt benefit the manufacturer. Many manufacturers don't specify the physical properties of their threads - like thickness, Denier, breaking strength, material or production method. Some are very secretive and some simply don't have the information commonly available. The various columns are explained below the table.

Tying thread table

Click the headers to sort. 104 tying threads listed

Brand	Product	Material	Aught	Denier	Dia (mm)	Test (grams)	Denier per mm	Absolute strength	Relative dia	Relative strength	Flat- ability	Split- ability	Smooth- ness

Material

Mono is monofilament nylon. Silk is natural silk. The rest are synthetic multifilament threads produced using different methods. Two threads made from the same material can be very different.

Aught

The most common way to indicate thickness. Not a physical standard. Larger number means thinner thread, so 8/0 is thinner than 6/0.

Denier

The weight in grams of 9000 meters of thread. A physical standard used in the textile industry, but not an indication of thickness or strength.

Dia

Diameter in millimeters (mm) or thousands of inches (.000"). As specified by the manufacturer or measured by me or others.

Breaking

The breaking strength or test of the thread in grams (g) or ounces (oz). The number is the highest found if values from different sources differ.

Relative dia

A visual indication of the relative thickness of the thread compared to others. **Not to measure in any way! Just a visualization.**

Denier/mm

A simple calculation of what the Denier would be if the thread was 1 millimeter thick, and a way to compare the Deniers for the different threads.

Ideally this number should be the same for threads made from the same material, but the numbers clearly indicate that the Denier number does not help us much in comparing even almost identical threads. Denier and thickness are NOT correlated.

Denier and thickness are NOT correlated.

Absolute strength*

The absolute breaking strength of the thread compared to all other threads and **not taking diameter or material into consideration.**

Relative strength*

An indication of the relative strength of the thread compared to its diameter and the other threads. **Not an absolute measurement!** Thin threads can be as relatively strong as thick ones. The numbers indicate breaking strength in relation to diameter.

Flatability **

The thread's ability to flatten when tied in. Sometimes requires the thread to be untwisted.

Splitability **

The thread's ability to split when used for the split thread dubbing technique.

Smoothness **

How slippery or smooth the thread is against the hook shank or materials. Its ability to "grip" materials.

*

The textual strength indications are based on calculations and data comparisons and the groups are defined by me. They are objective, based on numbers, but you may disagree with my scale.

**

These properties are assessed by me based on threads that I have tied with. I have only added data for unseen mono threads, which are basically all very smooth, round and can't be split.
