MILLWORK

Since 2008, when Imagination Millwork was founded, it has specialized solely in the design, and fabrication, of customized & production millwork. Imagination Millwork prides itself on producing ready-to-install custom millwork that is designed, and manufactured, to your specifications. Several years ago, Imagination Millwork brought its manufacturing in-house, allowing us to utilize the most advanced CAD design technologies, state-of-the-art fabrication equipment, and craftsmen who have 35+ years of both field, and manufacturing, experience.

At Imagination Millwork we understand that it's about a lot more than specifying or procuring building materials: for *architects, it's about creating an inspired design that ignites the imagination of their clients, and for general contractors, it's about providing viable solutions for both your client, and your, challenges.* Imagination Millwork has decorative faux windows, decorative louvers, and niché millwork with innovative, clean, and modern design options that will gratify your client's quest for a magical design. Imagination Millwork's employees have the expertise to solve those unique challenges facing GCs, the ones you didn't see coming, the ones that take too much time to resolve, the ones whose solution elude other millwork companies, this is where we excel. Imagination Millwork wants to have a meaningful conversation *with you to answer the question, "How can Imagination Millwork help you achieve the vision of your building project?"*

MILLWORK

Interior (continued)

“Homes for Our Troops,” a national organization which, through donations by local vendors, builds and bequeaths, specially adapted custom homes for severely injured veterans, which provides them with more accessibility and comfort. Imagination Millwork was contacted by HFOT, whose original request was for a small stand-alone cabinet; however, we wanted to do more to show our appreciation for this veteran’s sacrifices for our country. We met with him and designed this custom built-in media cabinet that not only hold a much larger television and equipment; but, also has display shelving and matching lower cabinets. The veteran, and his family, were thrilled, and we were honored to be able to give back to a true hero.

Exterior Decorative Faux Windows

For architects and general contractors, in the contiguous United States, Imagination Millwork's Decorative Faux Exterior Windows enhance the building's exterior appearance and, when functional windows are not practical or desired, allows you to present a charming resolution that even the most discerning client will appreciate. Additionally, our decorative faux windows also allow you to offer an easy solution for that awkward exterior blank space, without having to make a single change to the interior's design. Our decorative faux windows do not pierce the building envelope and PVC, the primary material used, is a recyclable product making them good for your client and the environment.
