# imagination MILLWORK

For both commercial and residential **architects, general contractors, and home builders**, in the contiguous United States, Imagination Millwork's Decorative Faux Exterior Windows enhance the building's exterior appearance and, when functional windows are not practical or desired, allows you to present a charming resolution that even the most discerning client will appreciate.

Additionally, our decorative faux windows allow you to offer an easy solution for that awkward exterior blank space, without having to make a single change to the interior's design. Our decorative faux windows **do not pierce the building envelope** and PVC, the primary material used, is a recyclable product making them good for your client, and the environment.

Imagination Millwork was founded in 2008 as a purveyor of unique, ready-to-install, decorative faux windows and, for its local clients, specialized millwork. Imagination Millwork prides itself on its ability to produce decorative faux windows designed, and manufactured, to meet your specifications. Imagination Millwork products are manufactured in-house, allowing us to utilize the most advanced CAD design technologies, state-of-the-art fabrication equipment, and craftsmen who have 35+ years of both field, and manufacturing, experience. At Imagination Millwork we understand that it's about a lot more than specifying or procuring building materials: for **architects, it's about creating an inspired design that ignites the imagination of their clients**, and for **general contractors, it's about providing viable solutions for both your client, and your, challenges**. Imagination Millwork has decorative faux windows, and niche millwork with innovative, clean, and modern design options

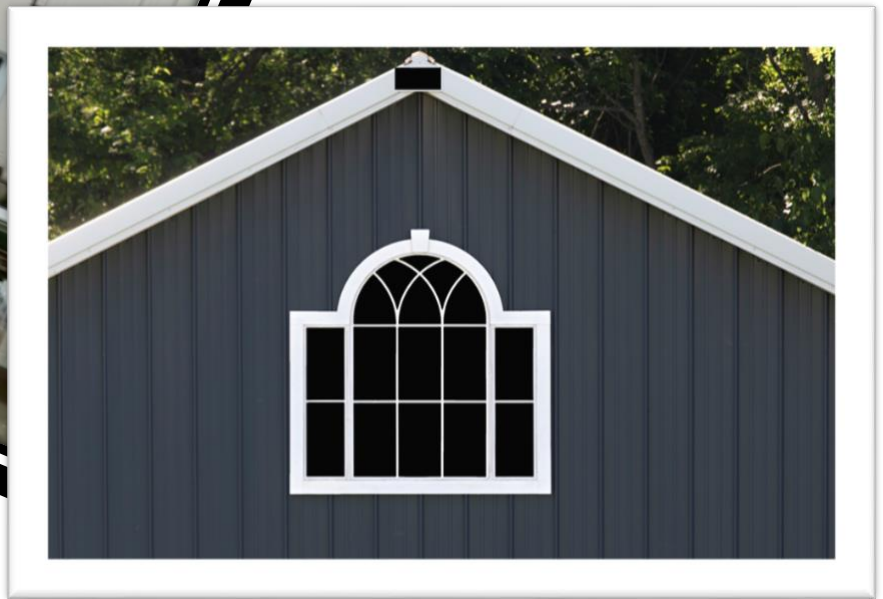

Imagination Millwork's employees have the expertise to solve those unique challenges facing GCs, the ones you didn't see coming, the ones that take too much time to resolve, the ones whose solution elude other millwork companies, this is where we excel. *"How can Imagination Millwork help you achieve the vision of your building project?"*
