Watercolor Class Catalogue

### welcome

#### MEET ALEX

HI, I'M ALEX. Painting has brought me an incredible amount of joy, and I love to share that with others. My classes are a place of encouragement, thoughtfulness, and relaxation. In the next few pages, you'll find samples of projects that we can work on together. I can't wait to share my love of painting with you and watch your creative abilities expand!

- Ellex

"As the sun colors flowers, so does art color life." - JOHN LUBBOCK

### Content:

I love to teach people to embrace their creativity and learn to paint. I've taught classes at flower farms, nurseries, birthday parties, mercantiles, housing association clubhouses, co-working spaces, in shops, backrooms, living rooms, and more!

If you're interested in co-hosting a watercolor class, if you'd like to have a private painting party, or if you own a unique venue, please get in touch with me using one of the methods below and we can discuss exactly what type of class you're interested in!

Classes include all materials and supplies, professional instruction, a finished project, and matting /backboard where appropriate to the project.

## What to expect:

The goal of every class is to teach you about the beauty of watercolors and to show you what you're capable of creating, all while giving you a fun and memorable experience. To that end, each class includes:

- At least 2 hours of professional instruction. We'll start off with introductions and then dive right in to painting!
- An overview of the essential techniques of watercolor with a template
- High-quality supplies including paints, watercolor paper, and brushes
- A specific project that we will work on and finish before the end of class
- Professional grade mats, backboards, and sleeves to protect and display your artwork (where appropriate to the project)
- A small gift or coupon code for future purchases
