

TIERRA BURRELL

SHORT BIO

Tierra Burrell is the founder of *Tierra Goes Green*, a lifestyle consulting and product line business; an extension of her lifestyle designed to help others learn to heal themselves...mind, body & spirit.

Upon completion of her undergraduate degree in Anthropology and Criminal Justice from American University, she became a paralegal with a prestigious law firm in Columbus, OH

She discovered her true calling and passion for being of service to others then became a make-up artist. After losing her paralegal job to the recession, Tierra relocated to Atlanta, GA where she started her make-up career at Mac Cosmetics as the Assistant Manager.

From there, she founded her first business *Make-up by Tierra*. As a result of the behaviors she saw on professional make-up jobs, she became the change she wanted to see and founded *Tierra Goes Green*.

As a culmination of all her experiences, she has dedicated her life's work to teaching what she has learned to help others discover whole-body wellness.
