

## Replacing the PocketFlex Lithium batteries (CR2032)

**Step 1:**  
Turn PocketFlex so the large clip is facing towards you.

**Step 2:**  
Slide the small black lock to the unlocked position (Pushing down large clip might make lock more accessible).

**Step 3:**  
While holding the small black lock in the unlocked position, push upwards on the large clip.

**Step 4:**  
Remove battery cover (large clip) from light.

**Step 5:**  
Remove and replace the 2 Lithium batteries (CR2032) with plus sides facing up.

**Step 6:**  
Place large clip back into the slots and slide downwards to lock back in place.
