Recharge User Manual

Welcome to the Mighty Bright family! We hope you love your new Recharge LED Booklight as much as we do.

A few tips to get started:

- Turn on the light by pressing on/off button located above the clip on the front of the light. Holding the button down will dim and brighten the light.
- Your Recharge light uses a rechargeable battery and energy-efficient LEDs - you'll never need to replace any bulbs or batteries. To charge your light, use the included USB charger and a USB port. The Recharge takes approximately an hour to charge. Each charge lasts for 10 hours on the highest brightness and up to 60 hours on lowest.
- The low battery indicator light will flash every 40 seconds after the battery reaches 10% (approx. 1 hour of life left).
- The indicator light will be red while charging and green when fully charged.

Careful!

This product is not a toy and is not intended for children under 13 years of age. Do not stare directly at the LEDs or shine them into the eyes of others. Do not attempt to remove or replace LEDs or batteries. Improper use of this or any battery-operated product may cause batteries to leak or explode, which may result in chemical burns and/or personal injury.

If any amount of battery leakage comes in contact, directly or indirectly, with skin, eyes, inside of mouth or anywhere on body:

1. Immediately flush the affected area with plenty of cool, running water (do not use hot water).
2. Contact your local doctor, Poison Control Center, or hospital emergency room, or call the 24 hour National Button Battery Ingestion Hotline at 1-202-625-3333, which accepts collect calls from both US and Canadian citizens. Also give the hotline number to your doctor or hospital emergency room. If injury appears serious, call "911."
