

REVOLUTIONARY EFFICIENCY

The most efficient whole house fan available today, the AirScape® LiftLock uses a revolutionary ductless design and drop-door damper to achieve a remarkable 93.3 CFM per watt efficiency, making it 119% more efficient than any other in our line.

Light and Strong

The LiftLock's 20-inch diameter, high-precision fan blades provide maximum airflow at high speeds, allowing you to quickly cool your home each evening.

Efficient

Thanks to its extremely efficient ECM motor and drop door damper, a LiftLock can cool your entire home using up to **90% less** electricity than an air conditioner.

Ductless

The LiftLock's fan assembly mounts directly to its drop door damper. The compact, ductless design makes the unit ideal for use in smaller attics and is easy to install.

Robust

Engineered for quality, the LiftLock features riveted metal construction and industrial grade components to provide years of reliable operation.

Airflow (CFM)	1026-2698 min-max
Power (Watts)	11-172 min-max
Efficiency (CFM/Watt)	93.3-15.7 min-max
Speed Settings	10
Insulation	R-5
Noise (dBA @1M @45°)	41-62 min-max
Electric	120VAC, 2 A
Rough Opening	14.5" x22.5"
Grille Size	n/a
Attic Venting (SQFT)	3.6-5.5 min-rec
Shipping Weight	38 lbs
Warranty	3 years

* Due to our continual product improvement efforts, performance ratings and specifications are subject to change without notice.

AirScape LiftLock

Easy Installation

Designed to mount on 16" or 24" on-center framing, and factory-equipped with a 10' power cord, the LiftLock is quick and easy to install in new and existing construction.

DropDoor Damper

The LiftLock's drop-door damper "drops" from the ceiling to maximize efficiency and minimize noise, while still providing an airtight, insulated barrier whenever the fan is not in use. Powder coated white or optional bare aluminum finish.

Digital Touch Controls

Our Digital Touch Controls offer 10 speeds, a 12-hour timer, and an attractive LED touch-pad. An optional remote can operate the fan conveniently from any room in the home.

Made in America

We are proud to manufacture every one of our fans at our plant in Medford, Oregon, USA. We use high-precision equipment and state of the art techniques to deliver the highest quality product, quickly, with minimal waste.

Simple, straightforward installation for the confident do-it-yourselfer.
