SHAD USA ZULUPACK DRY BAGS

SHAD USA is proud to introduce their new line of Waterproof Dry Bags. Covering practically all Powersports Industry segments to include ATV, UTV, Scooters, On & Off Road Motorcycles and Watercrafts, SHAD Zulupack Dry Bags offer a best in class range of twelve distinct and innovative products that cover virtually every waterproof luggage requirement.

All Zulupack bags are made of a 420D Nylon double-side PVC coating equating to a three layer PVC-Nylon-PVC combination – very light, extremely pliable but very strong (temperature tolerant) and tear and abrasion resistant. With a minimum of three folds of the sealing flap and proper closure of the PVC watertight zippers, the bags are absolutely waterproof. Most of the Dry bags offer backpack capability using SHAD's well formed

padded adjustable shoulder and chest straps and a very comfortable and supportive EVA foam back-pad.

The bags utilize a seamless welded technology construction, with additional welded pieces added for straps, tied-down and stress points. All bags offer multiple mounting points and come with (4) attachment straps. The larger travel bags have multiple sets of side belts with alloy hooks, good for compressing and providing quick release capability when mounted or interconnected to other luggage.

Ranging from the 138L Travel Bag to a 5L waist/leg bag, the dry bags reflect a functional design approach with ruggedness, storage volume, versatility and value. All of the bags can be carried, slung, backpacked or mounted, with

carrying handles, long straps for slinging, shoulder straps, variable use load straps with buckles, large D-rings, and a set of four connection straps.

What makes SHAD Zulupack entirely unique is the fact that most bags are multi-functional, allowing mixed use for increased versatility and value. SHAD Zulupack bags are broken down into (5) categories: Travel Bags – 55L, 85L and 138L in capacity, Saddlebags – SW42 Set, Rear Duffle bags in 40L and 38L capacity, Backpack / Rear Bag in 35L, 28L and 25L capacity, Magnetic Tank Bag with backpack straps in 22L capacity, Shoulder / Laptop Bag 18L in capacity and 5L Waist / Leg Bag. Prices range from \$18-47. Please visit ShadUSA.com for more information about SHAD luggage systems.
