

THIS MEDICAL AND SCIENTIFIC INFORMATION IS PROVIDED FOR THE USE OF PHYSICIANS AND OTHER LICENSED HEALTH CARE PRACTITIONERS ONLY TO USE AS A BASIS FOR DETERMINING WHETHER OR NOT TO RECOMMEND THESE PRODUCTS TO THEIR PATIENTS. THIS INFORMATION IS NOT FOR USE BY CONSUMERS. THE PRODUCTS DESCRIBED HERE ARE NOT INTENDED FOR USE BY CONSUMERS AS A MEANS TO CURE, TREAT, PREVENT, DIAGNOSE, OR MITIGATE ANY DISEASE OR MEDICAL CONDITION.

## ImmunoProtein™

Our vegan, mushroom based, complete protein powder.

## **ImmunoProtein™ may be used for:**

- Supporting the immune system\*
- Improving the gut microbiome (healthy bacteria)\*
- A healthy inflammatory response \*
- Supporting detoxification\*

ImmunoProtein™ is made from plant-based proteins (pea and rice) fermented from shiitake mushrooms, and features Immune-Assist™, a blend of medicinal mushrooms that offers robust immune support.

Protein is a necessary component of the human diet and plays many important roles, including maintaining the structural components of our cells and tissues and helping to support healthy blood sugar levels. Our bodies have no way of storing protein so we must obtain it from our diet on a daily basis.

## **Health Benefits of Mushrooms**

Beyond being a source of protein, medicinal mushrooms offer an array of health benefits due to their rich content of antioxidants. These compounds fight against the damaging effects of free radicals and can help support the body's natural defenses. Beyond their antioxidant activity, medicinal mushrooms have biologically active components that help promote normal cell growth, support the immune system, and aid the liver in detoxification.\*

## **Immune-Assist™**

Immune-Assist™ is a patented, full-spectrum micronized medicinal mushroom complex that activates over 250 different classes of immune cells, including the NK cells, T-cells, macrophages and many others. It contains over 200 highly purified, immune-active, high molecular weight hetero-polysaccharides and beta 1,3-1,6 triple right-hand helix beta glucans derived from 6 mushroom species: Agaricus blazei, Cordyceps sinensis, Grifola frondosa, Ganoderma lucidum, Coriolus [Trametes] versicolor, and Lentinula edodes.

Medicinal mushrooms are a rich source of immune-enhancing beta-glucans that helps promote wellness and strong immunity.

Immune-Assist™ contains 100% certified organic mushrooms, cultivated and packed in the US, and which are 100% bioavailable.

## ImmunoProtein™ Highlights:

- Complete protein—equivalent protein quality to animal-sourced proteins
- Vegan alternative to traditional pea and rice protein
- Appropriate for keto diets
- Dissolves easily in liquids to create a smooth texture
- Non-GMO

## Recommended Use:

Mix 34 grams (approx. one scoop) in 8-12 ounces of water, favorite smoothie or any other beverage per day,
