# SolaFrame 3000

Meet SolaFrame 3000, the new flagship luminaire in High End Systems' Sola Series range.

The SolaFrame 3000 combines unprecedented light output from its 1000 watt Ultra-Brite White LED engine with a limitless palette of effects and color possibilities. Boasting 37,000 lumen output, the SolaFrame 3000 is the first automated LED luminaire to rival and even exceed the output of the most powerful arc lamp fixtures. The fixture is also available in a High-Fidelity version with incredibly accurate color rendering.

- Ultra-Brite White LED Engine
- 1000W Ultra-Brite engine produces 37,000 field lumens or High-Fidelity Engine with incredibly accurate color rendering
- CMY/CTO – Linear color mixing system
- 7-position replaceable Color Wheel
- Framing system for total control of beam shaping
- Iris, Light Frost, Prism and 7°-55° Zoom
- 7-position plus open interchangeable Gobo Wheel
- 7-position plus open Rotating Gobo Wheel
- Continuously Variable Animation Wheel
- TM30 Filter Boosts Ultra-Brite Engine to 85+ CRI
- Patented Lens Defogger
