# Standard Finishes

## Colour Sample Book

Now available with physical plated / PVD coated metal tabs for accurate colour matching.

Available in limited numbers for showrooms and architectural practices.

## Finishes to Suit

Much of the Avenir range is now available in a standard choice of finishes, available ex-stock, and manufactured in bulk to keep prices reasonable. Each finish has been selected to match high-end tapware, so that you can be assured of a finish that is durable and consistent in colour and texture.

# Hybrid

Hybrid Low Voltage Heated Towel Ladders are made using a unique manufacturing process of laser cutting and folding pre-polished sheets of stainless steel. The flat slimline rail design, boasts impressive effective use of energy.

## FEATURES

- ✔ Warranty 10 Years (12 Months on Transformers, Timers & Labour)
- ✔ Ultra safe low voltage - 24V SELV Transformer (Supplied)
- ✔ Standards: AS/NZS 60335.2.43, IPx5 Rating
- ✔ Replaceable heating elements
- ✔ Saves up to 25% energy by not heating the side rails
- ✔ Symmetrical design - No 5th leg

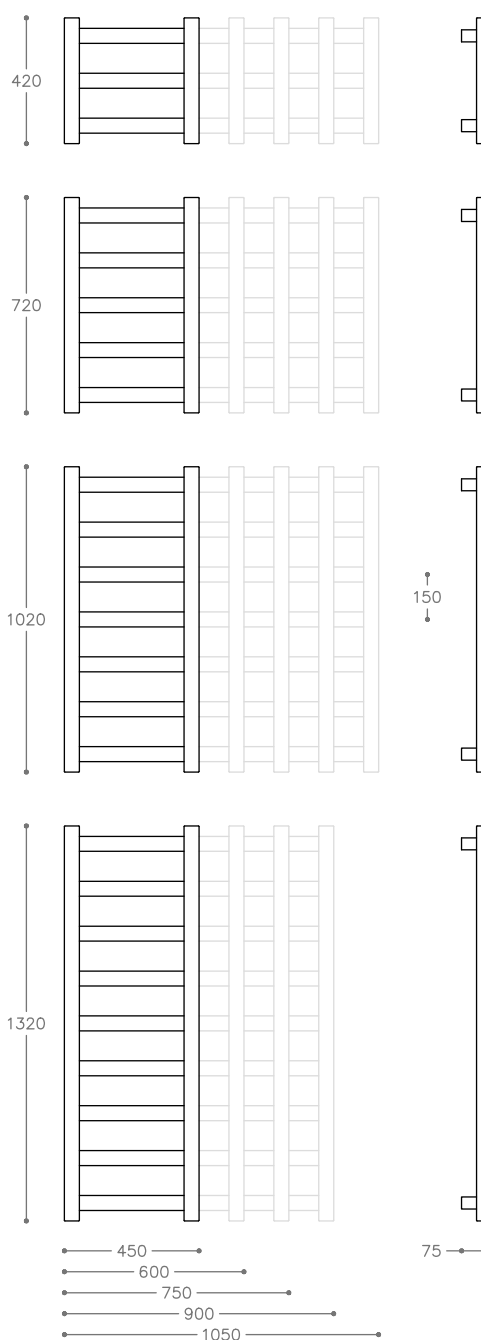

## SIMPLIFIED INSTALLATION SYSTEM

- ✔ Mounting template and diamond drill bit supplied
- ✔ Concealed wiring standard through any leg
- ✔ Optional Back Plates available / Spacers for uneven walls available
- ✔ Through glass fixing kits available (Heating not possible)
- ✔ ClickOn wall fixings (No grub screws)

## CUSTOM ORDERS (NON RETURNABLE)

- ✔ Non-heated available (Less \$50)
- ✔ Low Voltage standard (Transformer included)
- ✔ All finishes (except Mirror) are custom made

# Classic

Classic Single Heated Towel Rails are crafted from solid brass for the traditional Olde English charm. The design offers flexibility in the number and positioning of the rails. Classic utilises a low voltage supply, making it safe to install in wet areas.

## FEATURES

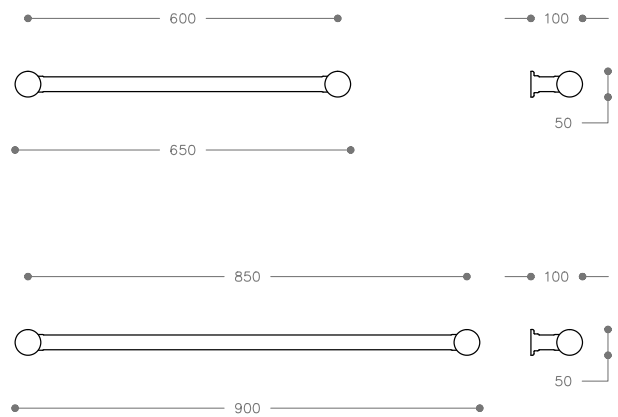

- ✔ Warranty 10 Years (12 Months on Transformers, Timers & Labour)
- ✔ Ultra safe low voltage - 24V SELV Transformer (Sold separately)
- ✔ Standards: AS/NZS 60335.2.43, IPx5 Rating
- ✔ Replaceable heating elements

## SIMPLIFIED INSTALLATION SYSTEM

- ✔ Mounting template and diamond drill bit supplied
- ✔ Concealed wiring through either leg
- ✔ No in-wall kit required

## ORDERING INFORMATION

- ✔ Transformer sold separately (TRTR200-24V - Max 6 rails)
- ✔ Optional transformer (TRTR100-24V - Max 3 rails)
- ✔ Timer recommended (Not Included)
- ✔ Stocked in all finishes and sizes as shown

				
	Australian Manufacturer		10 Year Warranty

# Beyond

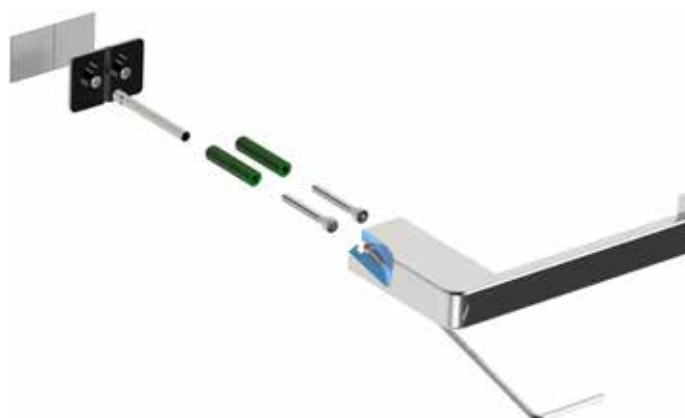

Beyond presents a minimalistic soft-square profile. Crafted from quality solid brass, the collection implements a revolutionary DirectConnect fixing system promoting longevity and robustness.

## Engineered fixing systems for durability & strength

### DOUBLE FIXING SYSTEM

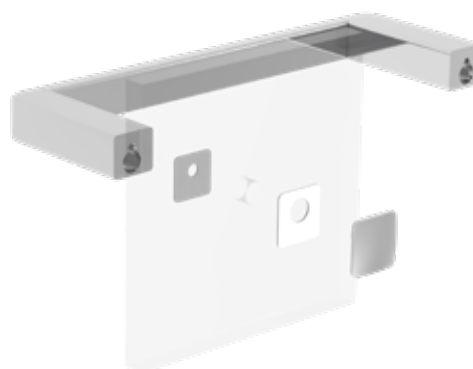

All Avenir bathroom accessories come standard with our unique Double Fixing System, which includes a precision drilling template and diamond drill bit to effortlessly and accurately drill holes through even the hardest of vitrified tiles. In addition, all products include high-quality stainless steel fasteners, Starplug® wall plugs and epoxy glue (where required) for secure and enduring installation. The Double Fixing System is suitable for tiled or masonry walls only.

Double Fixing System

### FEATURES

- ✓ Warranty 10 Years
- ✓ Mounting template and diamond drill bit supplied
- ✓ DirectConnect fixing system - Includes Epoxy Glue where required
- ✓ Suitable for double length paper rolls
- ✓ Stocked in all finishes and sizes as shown
- ✓ Wall plugs & screws supplied - suitable for tiles or masonry
- ✓ Through glass fixing kits available
- ✓ Plasterboard fixing kits available
- ✓ Custom length rails available on Request
- ✓ Optional Back Plates available

# Thinking of the Environment.

At Avenir, we take our environmental responsibilities very seriously. We are passionate about the environment and strive to minimize our carbon footprint wherever possible.

 Some of our eco-friendly initiatives include:

- ✓ Using stainless steel instead of chrome-plated brass wherever possible
- ✓ Looking at alternative ways of chrome plating without the harmful chemicals required by electroplated chrome-plating processes
- ✓ Supporting our factory's energy usage with a 30 KW solar array
- ✓ Investing in electric cars for our future fleet of vehicles
- ✓ Printing on paper sourced through appropriate forest management

## Australian Manufacturer

Avenir products are designed, developed and tested in Australia to Australian and New Zealand standards.

We take a blended approach to production - this means that fabrication occurs partly overseas and partly at our hi-tech facility in Sydney. The percentage varies depending on the products - for example Hybrid is almost 100% locally produced, whereas Abask and Therm would be closer to 60%, other products may be less.

Whatever AVENIR products you choose, you can be confident knowing they are made to last a lifetime and exceed expectations.
